ANOTHER CASE OF PARALYSIS REPORTED

Four-Year-Old Girl Latest Victim of Infantile Paralysis in This City—Case Reported Today

Another case of infantile paralysis was reported today to the board of health. The victim is Lydia Desjardins, four-year-old daughter of Mr. and Mrs. Alfred Desjardins of 124 Billings street. The case was reported by Dr. L. V. Rochette, the family physician, and diagnosed by Dr. Charles F. Simpson of the state board of health. The Desjardins child was taken ill last Sunday and her illness soon developed into infantile paralysis, her left leg being affected. Dr. Rochette was called in and after treating the child a couple of days, notified the board of health and Dr. Simpson of the state board of health confirmed Dr. Rochette's diagnosis of the case. It is said that the child suffered from infantile paralysis when she was 16 months old and the disease is still Continued on Page Eight

JUMP IN FLOUR PIKE'S PEAK RACE

The Staff of Life May Chase the Cow Over the Moon

Flour has taken a record jump in prices in the big markets and unless there is a sudden change housekeepers will be confronted with a serious situation. Flour in the wholesale markets is over two dollars a barrel more today than it was last Saturday with the result that the increase will show its effect in this city as soon as the local dealers sell out their present stock.

Reports from the big markets indicate that flour will be selling at \$12 a barrel within a very short time. Lowell dealers state that there is no immediate cause for worry on account of the last advance in price, however, as they have an amount on hand that will keep the stores supplied for some time. It is hoped that by the time the local supply runs out the price will have dropped to normal again.

The price at retail has jumped to \$3.50 a barrel, but this is flour that was purchased by the wholesale dealer a week or more ago. Flour purchased today from the markets could not be sold at retail for less than \$11 a barrel. It is said that there is only a two weeks' supply in Boston and then the new prices will have to go into effect unless there is sudden drop.

The cause of the increase which has alarmed the public as well as the dealers, is the report on the poor crop conditions by the government Tuesday, and the market in Chicago and Minneapolis Wednesday.

STRIKERS PUT TO DEATH

CARRANZA CALLS STRIKE TREASON AGAINST HIS GOVERNMENT

EL PASO, Tex., Aug. 11.—The text of a decree wherein First Chief Carranza evoked the death penalty against the strikers who paralyzed Mexico City through a general electric strike, appears in copies arriving here today of El Pueblo, a daily paper published in the capital.

In tying up transportation, plunging the city into darkness and cutting off its water supply the strike is held by Carranza to be no strike at all but treason against his government.

BASEBALL AT HIGH NOON

BRAVES AND PIRATES IN DOUBLE-HEADER AT BOSTON TODAY—TO TAKE EARLY TRAIN

BOSTON, Aug. 11.—The innovation of starting a double-header at noon was arranged by the Braves and Pittsburgh for today. As both teams were forced to make late afternoon train connections, this was the only way to crowd in one of the two games postponed yesterday on account of rain. Unless a transfer is effected or an open date is secured, Boston and Pittsburgh will be unable to complete their season's series as there is no other available date for playing off yesterday's second game. Double-headers are set for each of the three days the Pirates' last visit here in September.

If you want help at home or in your business try The Sun "Want" column.

CHALFOUX'S
ON THE SQUARE

Did it ever occur to you how systematic Nature is in cleaning up the remnants of one season to make room for the blossoming of another? If you will observe, she always employs the sharp knife of winter to cut loose the autumn leaves rather than leave them on the trees to be pushed off by spring buds.

Shall we be less enterprising and allow summer goods to remain on our shelves until pushed aside by the heavy stock of fall and winter goods? No, indeed! While Jack Frost nibbles at stems and waits for the north winds to clean away the leaves, we produce a trade-wind current by cutting prices half in two, which cleans out whole shelf loads at a time.

PIKE'S PEAK RACE

Many Great Drivers in Daring Race Over Mountain Race Course

COLORADO SPRINGS, Colo., Aug. 11.—Many American automobile drivers and at least one from Europe are here to compete today on what they declare is the "sportiest" mountain race course on the continent, a 12½-mile boulevard to the summit of snow capped Pike's Peak.

Every driver has been over the course a score of times and each figures that he knows at just what spot to apply the brakes in order to round the curves without plunging over a cliff. The following is the list of the entries:

Event No. 1, class E, non-stock, open to cars with piston displacement of 230 cubic inches and under, starting in two groups at five-minute intervals.

Group 1: No. 6, Chalmers, Stentz; No. 4, Grant, Jones; No. 6, Chalmers, Junk; No. 26, Ford, Knowles.

Group 2: No. 18, Maxwell, Worthington; No. 30, Saxon, Wetmore; No. 12, Ford, Peterson; No. 21, Ford, Henry; No. 23, Ford, Spangler.

Event No. 2, class C, non-stock, open to cars with piston displacement of 231 to 350 cubic inches.

Group 1: No. 12, Duesenberg, Hughes; No. 15, Delage, Oldfield; No. 8, Hudson, Mulford; No. 35, Mercer, Harris.

Group No. 2: No. 32, Duesenberg, Buzzane; No. 10, Hudson, Pattern.

IN POLICE COURT

Police Discover New Lodging House in First Street

Nine Lowell men were rudely awakened from their slumbers in cars of the Bay State Street Railway Co. in the First street car barn about one o'clock this morning and brought to the police station where they were booked as suspicious persons.

They gave their names as Thomas McGovern of the court; George Harrington, West Fourth street; Frank M. Donahue, Howe street; Charles Mullen, Ennell street; Dennis

ADmits DOUBLE MURDER

MAN CONFESSES TO CRIMES FOR WHICH ANOTHER IS UNDER DEATH SENTENCE

LITTLE VALLEY, N. Y., Aug. 11.—Irving King, the itinerant piddler who is alleged to have confessed the murder of Charles B. Phelps, the West Shelby farmer, and his housekeeper, Margaret Wolcott, for which Charles P. Stielow is now under sentence of death at Sing Sing after numerous reprieves, will be turned over to the authorities of Orleans county whenever a request is made for him, Sheriff Nichols of Cattaraugus county said today. Affidavits covering the confession alleged to have been made last night were being drawn up today. The confession also is said to clear Nelson Green, Stielow's nephew, who was given a 20-year term for complicity in the murders.

King's alleged confession is said to involve Auburn prisoners in the murders.

SERIOUS BREAK IN TEUTONIC LINES

Berlin Admits That Superior Strength of Russian Forces Has Compelled Another Austro-German Retreat—Gains for French, British and Italians

The Russian drive toward Lemberg from the south has caused what apparently is a serious break in the Teutonic lines along and near the Dniester in the Stanislaw region. Berlin, today, admits that the superior strength of the Russian forces has compelled an Austro-German retreat at the Bysritz river regions and on the Dniester. Making a stand, the Teutons finally brought the Russians to a halt. The break in the lines, however, has made a re-grouping of the Teutonic forces necessary and this is now in progress.

With rapid strides the Russians are forcing their way along the Dniester in Galicia in the direction of Halicz, considered one of the main outlying defenses of Lemberg on the south. Gen. Tschitschky's army already has reached the Dniester to the south of Mariampol, which town is but eight miles southeast of Halicz. Likewise they are pressing toward Halicz farther north, entering the town of Monasterzyska, on the Stanislaw-Buczacz railroad, directly east of Halicz.

Spreading out in fan-like formation from Gorizia, the Italians are pressing the Austrians to the east and southeast along a 12-mile front. The principal force of the thrust apparently is directed southeast towards Trieste with the probable object of forcing the Austrians from their salient in the bend of the Isonzo, south of Gorizia.

British pressure on the Somme front is being continuously exerted against the Germans in the Bazentin-le-Petit and Pozières regions. General Haig's forces have made additional progress north of both these places, London announces.

The French in the Somme region evidently are preparing for a new offensive movement, as they are pouring a destructive fire upon the German trenches to the north of the river.

FRENCH OPEN HEAVY BOMBARDMENT OF GERMAN POSITIONS

PARIS, Aug. 11, noon.—The French

have opened a heavy bombardment of German positions north of the Somme according to an official statement issued by the war office today.

On the left bank of the Meuse the French took some prisoners in a raid on German trenches east of Hill 304. On the right bank of the Meuse there was skirmishing with grenades about the Thiaumont work. On the rest of the front cannonading was intermittent.

The statement follows: "North of the Somme our artillery directed a destructive fire against the defenses of the enemy. In the course of our operations we took some prisoners and captured two machine guns in the small wood northeast of Hardecourt."

On the left bank of the Meuse, (Verdun front) we made a surprise attack on a German trench east of Hill 304 and brought back prisoners. On the right bank of the river there was the usual artillery fighting, as well as skirmishing with grenades northwest of Thiaumont work. On the remainder

DEADLOCK IS UNBROKEN WIRELESS CALLS

First Thought to Be From Bremen Attributed to Amateur

NEW YORK, Aug. 11.—The wireless signals picked up at Sandy Hook early today which it was first thought might possibly be from the German under-sea freighter Bremen, later were attributed to some amateur operator by officials at the Atlantic Communication Co., operators of the so-called Telefunken system. The calls were for the "Telefunken station, New York."

The conclusion that an amateur was responsible was reached after wireless operators at all government and shipping stations in and around New York bay had tried fruitlessly for hours to locate the sender.

HEARD AT SANDY HOOK
NEW YORK, Aug. 11.—Two strange wireless calls for "Telefunken station, New York," heard at Sandy Hook between 1 and 3 o'clock this morning, were attributed by the military department to some amateur operator by officials at the Atlantic Communication Co., operators of the so-called Telefunken system. The calls were for the "Telefunken station, New York."

The conclusion that an amateur was responsible was reached after wireless operators at all government and shipping stations in and around New York bay had tried fruitlessly for hours to locate the sender.

CLAIM SEEING DEUTSCHLAND
PHILADELPHIA, Aug. 11.—The German submarine Deutschland, which sailed from Baltimore for Bremen, was sighted last Sunday night off the Grand Banks by the Norwegian steamship Meteor, which arrived here yesterday.

Captain Johns of the Meteor, on his last trip out from Baltimore bound for England, encountered the Deutschland going into Baltimore. What he saw of the vessel at that time makes him positive of his identification of the submarine which he sighted off the Grand Banks.

The Meteor was in the regular steamship lanes making for Philadelphia when she sighted the Deutschland. It was setting dark at the time the submarine was encountered. The submarine circled around the Norwegian steamship and then resumed her eastward course.

EPIDEMIC IN PHILADELPHIA
PHILADELPHIA, Aug. 11.—With 16 new cases of infantile paralysis and four deaths reported in this city for the past 24 hours, the disease is beginning to assume serious proportions in the eyes of the medical authorities.

TAX MUNITIONS MAKERS
TEN PER CENT NET PROFIT TAX AGREED TO AS SUBSTITUTE BY DEMOCRATS
WASHINGTON, Aug. 11.—A 10 per cent net profit tax on manufacturers of munitions of war was agreed on today by democrats of the state finance committee as a substitute for the munitions taxes proposed in the house revenue bill.

SPEAKING TRIP ACROSS CONTINENT BY WILSON

President Has Practically Decided to Go to Pacific Coast—Many Want to Hear Him

WASHINGTON, Aug. 11.—President Wilson practically has decided to make a speaking trip across the continent. No details of the tour have been arranged but it was understood today that his itinerary would be worked out within the next few weeks.

The president's advisers have been urging him to make a number of speeches but he had been withholding a decision until the work of congress had progressed further. It was known definitely today, however, that if present plans were carried out the president would go to the Pacific coast.

Senator Phelan today invited the president to speak in California some time during the campaign but was told no definite plans could be taken up for at least two weeks.

One of the suggestions for the proposed trip is for the president to review some of the troops on the border, but no decision on that has been reached.

Invitations from cities in all parts of the country are before the president but none will be accepted until they have been gone over carefully by Vance C. McCormick, chairman of the national committee and other democratic leaders.

The possibility that congress may remain in session after Sept. 1 is preventing the president from making any definite campaign plans. He wants to make no long trips from Washington until after adjournment although he has accepted an invitation for a brief visit to St. Louis Sept. 20.

The president will do much campaigning at his summer home at Long Branch, N. J., where he will receive delegations.

Secretary Baker plans to go to Cleveland Monday to speak there and will open a series of campaign speeches in Maine at Portland, Sept. 24.

der, but no decision on that has been reached.

WIDE OPEN CITY

Boston in Danger, Says
Anti-Saloon League—
See Women at Bar

BOSTON, Aug. 11.—Boston is in danger of becoming a "wide open" city if the present licensing board shares the governor's conception of its duties, and is strictly bound by statute law, in the opinion of the headquarters committee of the Massachusetts Anti-Saloon League, which yesterday held a special meeting and issued a statement on the licensing board controversy.

Women at the bar
There is absolutely no reason why all the saloons in Boston cannot serve liquor to women in back rooms or even at their bars, if the governor's theory of the board's authority is to be accepted by the present board, declares the headquarters committee.

The committee wants to know, and asks the governor directly, if he would set aside certain regulations formulated by the licensing board, one of which actually makes it impossible for a woman to secure a drink over the bar in this city.

The committee wants to know if the governor would set aside the regulation under which licenses were held up in hotels when such parties were going on, if he would ignore the regulation against "treating on the house," the regulation which would keep saloons a specified distance from private schools, and many others which were passed for the purpose of raising the moral standards in Boston's drinking places.

Not Improved One iota
The statement asserts that conditions are not improved one iota by the ban on certain practices provided by the statute law, and that only the action of the old licensing board in holding up licenses accomplished results for good.

Superintendent Arthur J. Davis of the league, presided at the committee meeting and the entire situation relative to the affairs of the licensing board was gone into with particular reference to the appointment to the board of Fletcher Ranney to succeed Robert A. Woods and the resignation of Charles R. Gow. All of the statements issued in the licensing board controversy were read and discussed in detail, the statement issued by Governor McCall in response to that of former Chairman Gow receiving the strictest attention.

FITZGERALD WITHDRAWS

FORMER MAYOR OF BOSTON WILL
NOT BE CANDIDATE FOR U. S.
SENATOR

BOSTON, Aug. 11.—Former Mayor John F. Fitzgerald announced yesterday that he would not be a candidate for the United States senate on the democratic ticket. This statement, Mr. Fitzgerald said, was made in order that former Gov. David I. Walsh might "not be embarrassed in his decision of the question of his candidacy" for the same office.

SOCIAL AND FRATERNAL

A well attended meeting of Central council, A.O.H., was held last night and the different sub-committees submitted reports on arrangements for the state convention which is to be held here on August 21, 22 and 23. The committee in charge of the banquet reported all arrangements completed and that a number of prominent speakers had been secured. President Sheahan reported the only obstacle was in securing rooms for the delegates at the convention and all those residents who will have rooms vacant during the days of the convention are requested to notify the president or any officer or member of the committee. The committee on decoration reported that the hall for the convention and the banquet will be appropriately decorated. The whole committee will meet again on Sunday morning when further reports will be heard.

Sleep Well
Hot NightsSanfords
Ginger

Relieves fatigue, nerve strain, weakness, and intestinal indigestion, the latter often the cause of sleeplessness. A panacea for ills incidental to travel. Always helpful and healthful.

A delicious combination of ginger, aromatics and French brandy for the relief of cramps, pains, colds, chills, weakness, nervousness and insomnia. Look for the Old Trade Mark on the wrapper. Test you get a cheap, worthless or dangerous substitute. Forty years the standard of purity, flavor and strength. Sold by all druggists and grocers.

Miss Dorothy Estes, 22 years old, of Lowell, a teacher at the Perkins Institution for the Blind of Boston, lost her life in Pentucket pond in Georgetown, yesterday afternoon, in a vain

DOROTHY ESTES

effort to save from drowning one of her 15 blind charges, Bessie Stenosky, 15 years old, of Chelsea, after the latter, mistaking the direction of the shore, had walked out beyond her depth. Both were drowned in 15 feet of water.

Miss Estes went to Georgetown three weeks ago, with a group of blind girls from the institution. The party was in a delightful camp opposite York Grove, occupying the Longfellow cottage. While other campers, blessed with all their faculties, took daily diversion by bathing in the pond, the

young blind girls contented themselves with wading in the shallow places, under Miss Estes' oversight.

Held in Fatal Clasp

Several of them were thus enjoying themselves yesterday afternoon, when it was observed that the Stenosky girl was well out. Miss Estes called to her to come back to the shore. The girl mistook the direction, turned, and waded toward the middle of the lake. Miss Estes, who could swim, ran into the water, and caught up with Bessie, who was floundering helplessly in water nearly over her head. The blind girl, convulsed with fright, clasped her arms about Miss Estes' neck, and in the struggle that ensued, both were carried still further out, and finally under.

Henry Longfellow, who owned the cottage occupied by the party, and was passing his vacation in the adjoining, brought the body of Miss Estes to shore within a very short time, and tried first aid methods of resuscitation. Meantime Dr. Richmond B. Root, medical examiner for the district, came post haste in an automobile, and continued for one hour efforts to restore life. At the end of that time he pronounced the young woman dead, and ordered the removal of the body to the undertaking rooms of Dale and Childs, Haverhill.

Some one notified the board of selectmen and Selectmen Michael Buckley and Frank Maclelland prayed for two hours for the body of the Stenosky girl before they found it, in 15 feet of water. Dr. Root ordered its removal to Haverhill.

Her Sister Barbara

Dorothy Estes was counselor of the camp. Her sister, Barbara Estes, was away from the camp at the time of the accident, but arrived when efforts were being made to resuscitate her sister. She assisted to the best of her ability. After all hope of saving her sister's life was abandoned, she controlled her grief and declared she would bear the sorrowful news to her family and started for this city.

The body of Dorothy Estes was brought to this city last evening.

Graduate of Wellesley

Miss Dorothy A. Estes was the eldest daughter of Mr. and Mrs. Frederick A. Estes of 715 Westford street.

She was graduated from Lowell High school in 1912 as salutatorian of her class and a Carney medal scholar. She was graduated this year from Wellesley college and was to have begun in the fall a postgraduate course in teaching in Columbia university. She intended to devote herself to social work and her work among the blind was part of her preliminary training.

Fall Caused Blindness

Miss Bessie Stenosky was the youngest daughter of Jacob Stenosky, janitor of the Hebrew school in Chelsea, and a Carney medal scholar. She was graduated this year from Wellesley college and was to have begun in the fall a postgraduate course in teaching in Columbia university. She intended to devote herself to social work and her work among the blind was part of her preliminary training.

the room. It is charged that the son, Hyman, grabbed a bread knife and made several attempts to cut Donnelly with it.

Morgan grabbed young Hyman's wrist and in doing so received a cut finger. Patrolman Donnelly was also cut on the hand.

The boy then made his escape, but was later captured by the officers when he returned to the house. He was booked at the Joy street station charged with assault with intent to kill Patrolman Donnelly.

Sokol was finally quieted down, but not until both officers had used their clubs upon all parts of his body. He

was taken from the house and driven in the patrol wagon to the station house. Dr. Duvalley examined him and ordered his removal to the hospital.

Both officers had their injuries treated at the station house. Patrolman Donnelly claimed that during the fight he was kicked several times in the groin and he was sent home.

Patrolman Morgan returned to duty after the physician had treated his hand.

CONSUL FROM CHILE

Sr. David G. Montt has been appointed by the Chilean government as consul at Wellesley Hills, Mass. Mr.

Montt is the foreign trade expert for the state board of labor and industries. Commissioner of Labor Edwin A. Muready allows that Massachusetts manufacturers are fortunate in being able to secure Mr. Montt's services, in free of charge, through the state board of labor and industries, at all times in promoting the industrial development of this state. As consul, Mr. Montt is even better qualified to serve Massachusetts manufacturers in extending their trade.

TEN NEW ZEPPELINS

COPENHAGEN, Aug. 11.—The German navy, says a report received here, have just completed and placed in a large shed at Dannebrog, ten Zeppelins of 225 feet in length with a gas capacity of 190,775 cubic feet. In the hull is provision for machine guns and for light pieces of ordnance.

The newest Zeppelins are said to have four armor-plated cars, of which the first is the heaviest. All the cars are fitted with guns. Armor plated runways connect the cars. The engines indicate 100 horsepower, and the speed is 57 miles an hour. There ships can reach a height of more than 13,000 feet.

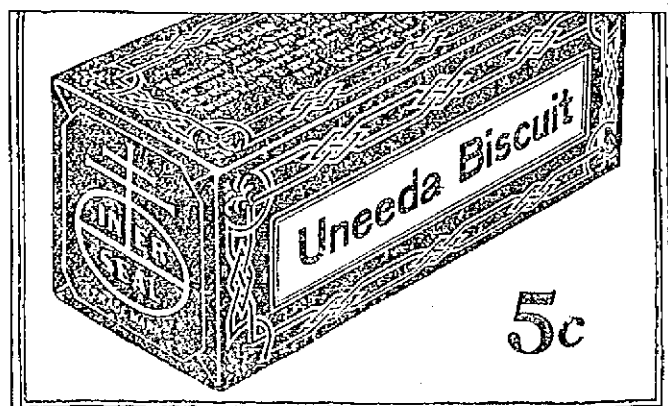

BACHELOR GIRLS' PARTY

A very enjoyable dancing party and song revue was held last night at the Casino in Thorndike street, under the auspices of the Bachelor Girls. Music for dancing was furnished by Broderick's orchestra. Tomorrow night the members of the organization leave for a two weeks' vacation at Salisbury beach, where they will occupy the White Swan cottage and last night's social was in the nature of a farewell party.

Dancing started during the early part of the evening and continued until a late hour. A splendid song revue was given at 9:30 o'clock. In this a chorus of club members marched to a position in front of the orchestra, wearing white coats and bouquets of dark red roses. The solos were rendered by Misses Madeline Boland, Genevieve Winn, Rosa Nicholson and Lillian McPherson. Besides these, in the chorus were Misses Agnes Nicholson, Rita Balloran, May King, Mary and Elizabeth Tyres, Julia Boland, Mary Griffin, Estelle Gurney, Isabel Farns, Mollie Peterson, May Flynn, Margaret Tobin, Mary T. Gallagher, Nancy Swift, Mrs. Etta Finnegan and Mrs. Catherine Clossery.

Those in charge of the affair comprised the following: Miss Mary T. Gallagher, president; Mrs. Etta Finnegan, vice president; Miss Madeline Boland, secretary and Mrs. Catherine Clossery, treasurer.

When President Wilson ordered the National Guard to the Mexican border, Mrs. Charles E. Hughes, Mrs. L. M. Garlison and Mrs. George W. Wickard shared the idea of a Women's American Supply league and are seeking the co-operation of all women who have time and money to give forward to their aims.

WHEN lunch or supper seems a long time off and you're hungry, eat Uneeda Biscuit.

Just enough to satisfy—to keep you going till meal time—but so light and crisp and flaky that they won't spoil your appetite.

SON OF A KING

Pretender to the Serbian Throne is Good Waiter

VIENNA, Aug. 11. (Correspondence of The Associated Press.)—One of the illegitimate sons of the late King Milan of Serbia, known as the Christich brothers, who have been pretend-ers to the Serbian throne, is now a waiter in a dining car running between Vienna and Budapest, according to an alleged discovery of a newspaper man who formerly knew the Christich brothers.

When King Milan died he entrusted one of these boys, whose mother was the beautiful Artemesia, to his life-long friend, Count Eugen Zichy of Budapest. The latter for years treated him as an own son, supplied him plentifully with all material things—and then died without remembering him in his will or without making any provision for him. Thus falling suddenly from comparative affluence to poverty, the man dropped out of sight completely. His present discoverer, who was making a trip from Budapest to Vienna, and who knew the Christich brothers in the old days when Count Zichy was alive, was surprised to find that the waiter who served him so noticeably and competently was no other than one of these Christich boys. The latter with some reluctance told him that he had tried to

Such an easy way to heal my skin!

"I never worry if I have a little rash or other eruption break out—I just put on a bit of

Resinol

Ointment. That takes out the itching and burning instantly, and soon clears the trouble away. I learned of Resinol Ointment through our doctor prescribing it for my brother. Tom had been almost frantic with eczema for months but that ointment healed his skin like magic."

Resinol Ointment and Resinol Soap are sold by all druggists. For a free sample, write to Dept. 29 R, Resinol, Baltimore, Md.

INFANTILE PARALYSIS

SPECIAL REPORT ON CHILD MALADY ISSUED TODAY BY STATE BOARD OF HEALTH

Special to The Sun.
STATE HOUSE, Boston, August 11.—A suggestion that nearly all persons have had anterior poliomyelitis, or infantile paralysis, in a mild form, and in that way have become immune, is contained in a special report issued today from the state department of health on the present outbreak of the disease in this state.

It is admitted that the suggestion may seem far-fetched, but it is advanced because there seems no other theory on which to account for the inconsistencies which appear in the transmission of the disease.

"While the nature of the infection is known," the report says, "and while it is maintained that it is transmitted by contact, the evidence seems conflicting, since in the majority of instances there is but one case in a family, even though there may be from two to six or eight or more children in the household, and the contact of the most intimate nature. While other cases occur in remote, isolated sections, with no discoverable evidence of contact. Manifestly in view of such experiences it is reasonable to assume that some further factor at present unknown enters into the transmission of the disease and that it is much less readily transmitted than measles, whooping cough, diphtheria, etc."

"Until more definite knowledge is obtained, preventive measures will of necessity be uncertain in their results, and should be reasonably modelled on analogy to other better known communicable diseases, such as diphtheria or scarlet fever, and should not

be made too drastic, not be permitted unreasonably to interfere with traffic. The sick room should be screened to keep out flies and other insects.

The patient and attendant should be isolated, and children in the household detained from school and kept under observation. Since the infectious agent is known to be contained in the secretions of the nose and throat and bowel discharges, all such discharges should be thoroughly de-stroyed or disinfected."

Quarantining of an entire community, as has been done by the state of Pennsylvania, is ridiculed by the department. On this point it says: "The attempted extension of rigid quarantine of one community against another merely because cases of infantile paralysis have occurred in the other, especially as applied to adults who have had no known contact with cases, is unreasonable and the result of a panicky fear, not founded on common sense."

"Persons coming from an infected area may properly be kept under observation for two or three weeks and the people of each community should co-operate with the local health authorities to the extent of notifying them promptly of any suspicious illness, and by consulting the family physician early, even if the illness appears trivial."

As to the extent of the disease in this state, the department says: "During the early part of the year, 30 cases of infantile paralysis were reported throughout the state of Massachusetts. A marked increase occurred in July, when there were reported 110 cases, 10 of which upon investigation proved to be negative or doubtful."

"Westfield, North Adams, Dudley, Webster, Worcester, New Bedford, Fall River and the metropolitan district constitute the chief centers of infection, though it is a striking feature that Boston itself has been comparatively free from the disease."

"Cases of infantile paralysis were reported in July as follows: New Bedford and Westfield, 10 each; North Adams, 5; Boston and Worcester, 7 each; Fall River, 5; Dudley, Taunton and Webster, 3 each; Adams, Hingham, Lawrence, Lowell, Marlboro, Medway, Newton, Pittsfield and West Springfield, 2 each; and one case each in Barnstable, Bridgewater, Dartmouth, Easthampton, Fairhaven, Fitchburg, Greenfield, Hanover, Haverhill, Haverhill, Holyoke, Malden, Maynard, Middleboro, Natick, Norwood, Peabody, Plymouth, Quincy, Raynham, Revere, Sharon, Sheffield, Somerville, Taunton, Townsend, Weston, Woburn and Worthington."

"Children coming from New York constitute 10 of these cases, while 7 others are known to have been in contact with cases of persons from New York."

"The age distribution of the cases so far reported is practically the same as in previously reported outbreaks and as in the present epidemic in New York. Cases under one and over 16 years of age are very few, with the great majority of cases between 1 and 16 years of age."

"While the reports are as yet incomplete, it is known that there were nine deaths from the disease in July, and a large percentage of these occurred in cases reported from New York."

THEY COME HIGH

Boston Girl Asks \$5000 for a Lone Kiss—Files Suit

BOSTON, Aug. 11.—Five thousand dollars is the price Esther E. Poppo of Boston asks for a kiss.

This became known yesterday when the young woman filed a suit against Stephen M. Saraf of 372 Boylston street, an Oriental rug dealer.

Saraf lives at 563 Columbus avenue, but the residence of the young woman is not stated in her bill of complaint. Miss Poppo alleges that Saraf on Feb. 26 last committed assault, when he held her prisoner against her will and "violently and with great force" against her wishes, kissed her.

The bill was filed yesterday in the Suffolk court. The case will come up for trial probably in the October session.

IT WAS SOME HIKE

TWO REGIMENTS OF MARINES COVER SEVENTY-SIX MILES IN TWO DAYS

WASHINGTON, Aug. 11.—What is believed to have been one of the longest tropical hikes ever made by American troops thrown on their own resources in a hostile country, was the hike made by the Eighth company, Fourth regiment of United States marines, when it covered in a day and a night, on July 2nd and 3rd, the 111 kilometers between Monte Christi and Santiago, Santo Domingo, after fighting most of the way. It is seventy-six American miles between these two points and the hike was the longest ever made by the United States Marine corps, under any circumstances that approached warfare.

With a handful of U. S. marines, Colonel Pendleton maintained unbroken, an eighty mile line of communication, and the quick settling of the Dominican trouble is probably due, in the opinion of Marine corps officials, to the rapid hiking of the marines to the interior of the country. The natives have been disarmed and there is no further fighting.

The expeditionary force, under Colonel Pendleton of the Marine corps, consisted of two regiments of marines.

FOR TESTING BOXES

NEW MACHINE DEvised BY ENGINEERS OF THE FOREST SERVICE AT MADISON

WASHINGTON, August 11.—A machine for testing the strength of boxes has been devised by engineers of the forest service and is in use at the Forest Products laboratory at Madison, Wisconsin. The machine is the result of experiments made to determine a fair test for all types of boxes. A series of tests in co-operation with the American Society for Testing Materials and the National Association of Box Manufacturers has been carried on during the past year to determine the strength of boxes of various woods and of different construction. Over four and a half billion feet of lumber is used for box making every year, and on this account the tests are considered important. Moreover, big losses are caused by the breakage of boxes in transit, and all parties concerned are said to be anxious to determine the best kind of box.

FRIDAY and SATURDAY

HAVE YOUR PICK—SUIT TO ORDER

I want my old customers to take advantage of this sale. Come in, pick out two or three suits, and if you are not in a hurry, let me take two weeks or a month to make them. The price will be—

SUIT TO ORDER.....

\$10.00

AUGUST SALE OF ENDS

The accumulation of all ends in my store regardless of former prices; not a yard of these goods was bought to sell under \$12.50, \$15.00, \$18.00 and \$20.00, and are guaranteed absolutely wool and worsteds. Most of them have cloth enough to make three-piece suits. I have them in all shades, dark grays, blues, blacks and all style colorings. My motto today is the same as in the past: Never carry goods from one season to another. I intend to start the Fall season August 20 with brand new, fresh goods, Globe Worsteds, Standish Worsteds, Blue and Black Serges, Sherreff's Worsteds included.

WARNING—Woolens will be higher—they cost 25 per cent. more today than six months ago. Canvases, linings and trimmings are starting to soar. I can assure the man who orders a suit today or Saturday, even if he does not take it for two months, of the lowest prices that he or I may ever live to see, values considered.

ORDER NOW—YOU CAN HAVE YOUR SUIT IN A WEEK OR YOU MAY LEAVE IT FOR TWO MONTHS

Your Choice of Any Suit End in This Store—No Two Patterns Alike—In Various Colors, Including Some

tion with the American Society for Testing Materials and the National Association of Box Manufacturers has been carried on during the past year to determine the strength of boxes of various woods and of different construction. Over four and a half billion feet of lumber is used for box making every year, and on this account the tests are considered important. Moreover, big losses are caused by the breakage of boxes in transit, and all parties concerned are said to be anxious to determine the best kind of box.

In making the tests boxes filled with cans containing water are placed in the drum, which is then rotated. For convenience in observing the results of the tests, the sides and ends of the box are numbered with large figures, and in addition other numbers are placed to be carried part way around and then dropped back to the lower level of the drum. Each fall of the sort is a pretty fair indication of the probable treatment it would receive in shipment. The boxes are watched carefully, and notes are taken on the manner in which they give way and the number of falls required to break them in pieces.

In this way, say the officials who have conducted the tests, it is possible to determine what kinds of woods are best suited for boxes. The tests showed a decided need for a standard classification of box woods, and three groups have been made, based on the data which was obtained. The tests also show the best methods of box construction. The experts

Forest Products laboratory, tentative specifications for boxes used in shipment of canned goods have been drawn up and submitted to the various parties interested, for discussion.

Plans were made recently in New York for a woman's motor brigade as an adjunct to the National Guard, to be ready to act in an emergency. The brigade will consist of three divisions of automobile owners, women who drive their own cars, women who will learn to drive them and women who will allow the use of their cars at all times.

GRAND CIRCUIT

Walter Cox Landed the
2:10 Trot at Pittsburg
Yesterday

PITTSBURG, Aug. 11.—Walter Cox, the New Hampshire trainer, piloted the winner of the feature race at the Bruno's Island track yesterday, his bay stallion Director Todd landing first in the 2:10 trot, the best contest of the meeting to date. It was the third victory out of four starts for the stallion this season, and he trotted the best race yesterday he has shown.

Guy Nella of the Geers stable, driven by Snow, was the favorite, but Cox started early with Director Todd, taking him to the front at once and not losing the lead until close to the wire in the third. There was a big plunge on Guy Nella for the second heat, but after racing Director Todd all the way, she fell a bit short at the finish in 2:07 1/2, which won the race, though a third heat was necessary. The Cox stallion led until close to the wire, where both Guy Nella and Esperanza passed him, the former winning in 2:06 3/4, the fastest trotting heat of the meeting.

Derby Custer, favorite, had only to parade three heats to win the 2:17 pace. In the 2:17 trot, Lindsay had been selected as the best, but he also failed the favorite players. Sister Strong, driven by Valentine, who has driven more winning races than any other Grand Circuit driver this season, won the first heat, but was beaten in the second by Helen Worthing. The pair had a hot argument in the final Sister Strong coming from behind and beating Murphy's mare by a narrow margin. The summary:

SHORT SHIP CIRCUIT
WORCESTER, Aug. 11.—The Short Ship Circuit races, scheduled to be opened in Worcester on Tuesday, were postponed for the third time yesterday because of unfavorable weather.

FAMOUS BOOKMAKER DEAD
NIAGARA FALLS, Ont., Aug. 11.—James J. McLaughlin, a famous bookmaker and horse owner, died here yesterday. He was operated on for appendicitis a week ago and came here to recuperate. His body was sent to Buffalo for cremation.

LIST OF BIG LEAGUERS

MAJORITY RELEASED UNDER OPTIONAL AGREEMENT NOW PLAYING IN EASTERN LEAGUE

CINCINNATI, O., Aug. 11.—The National baseball commission yesterday made public a list of all major league players who have been released to minor league clubs under approved optional agreements, which contain a clause conferring on the releasing club the right to re-purchase the release of such player at specified terms on Aug. 15.

A number of options which include only a money consideration on the side of the minor league club are also included in the list, which follows, in part:

NATIONAL LEAGUE

By Boston—To Providence, Blackburn, \$500; To Louisville, Compton, \$1500; option to repurchase for \$3000.
By New York—To New London, Rodin, \$500.
By Philadelphia—To New London, Fortune, \$300; Fish, \$300; Weiser, \$300. To Providence—Baumgartner, \$200, and Timup, \$300.

AMERICAN LEAGUE

By Boston—To Buffalo, Holmes, \$300; O'Neill, \$300; McDonald, \$300; Smith, \$300; Wilson, \$300; Anderson, \$300; Cabs, \$300; Haley, \$300; Gregg, \$300; Pennock, \$300. To Montreal—Devine, \$300, option transferred to New Haven. To Fort Worth—Johnson, \$300. To Hartford—Eernan, \$300. To New York—Shorten, \$300.
By Cleveland—To Portland, Harsand, \$300; Kelly, \$300.
By Detroit—To Springfield, Haines, \$300. To Providence—Velle, \$600.
By Philadelphia—To New Haven, Bressler, to be returned if not drafted.
By St. Louis—To Portland, Vaughn, \$300; Sothern, \$300.

AMERICAN LEAGUE RACE

THIS YEAR'S FIGHT FOR PENNANT BEST ON RECORD—STANDINGS FROM 1911

NEW YORK, Aug. 11.—The present race in the American league is conceded by all veteran baseball fans to be the closest staged in many years on major circuits. In fact the claim is made that there is nothing in big league history to equal it and a search of the records of recent seasons bears out this contention. On August first, seven of the eight clubs composing the junior association had a percentage of

500 or better. St. Louis held seventh place with a 50-50 standing while the Athletics in last place were 293 points behind the Browns.

Boston in first place was but three points ahead of Chicago and the New York Yankees, which led the league for some weeks, were in third place, 33 points ahead of Cleveland in fourth position. Between Boston in first place and St. Louis in seventh there were just 79 points difference in percentage or 7 1/2 games. With something like 10 weeks of play remaining any one of these seven clubs must be conceded a chance for the 1916 pennant and the situation is unique in the history of the big league pennant races.

During the last five years the leading club on the first of August with its lead in points over the second place holder was as follows: 1911, Detroit, 25 points; 1912, Boston, 42 points; 1913, Philadelphia, 72 points; 1914, Philadelphia, 72 points; 1915, Boston, 13 points. With the exception of 1911 the club leading on August first finally won the pennant and participated in the world series. In 1911 Philadelphia wrested the lead from Detroit late in the season and held first place to the end of the campaign.

For the purposes of comparison and the standing of the American league clubs on Aug. 1 each year from 1911 are appended:

American League	W.	L.	P.C.
August 1, 1911			
Detroit	63	32	.663
Philadelphia	60	34	.638
New York	50	46	.521
Chicago	48	45	.516
Boston	48	49	.495
Cleveland	45	51	.465
Washington	35	60	.368
St. Louis	29	66	.305

August 1, 1912	W.	L.	P.C.
Boston	67	31	.684
Washington	51	37	.579
Philadelphia	55	41	.573
Chicago	49	46	.516
Detroit	48	51	.485
Cleveland	45	52	.464
New York	62	33	.653
St. Louis	30	66	.312

August 1, 1913	W.	L.	P.C.
Philadelphia	67	30	.691
Cleveland	51	43	.541
Washington	55	42	.567
Chicago	51	51	.500
Boston	46	49	.484
Detroit	42	59	.416
St. Louis	41	63	.394
New York	31	62	.333

August 1, 1914	W.	L.	P.C.

Detroit	52	48	.520
Washington	49	46	.516
St. Louis	49	49	.500
Philadelphia	19	73	.207

TY AFTER MORE HONORS

GEORGIA PEACH HAS HELD BATTING RECORD FOR NINE YEARS AND IS AFTER SPEAKER AGAIN

Though Tris Speaker is threatening to break up the adjustment of things in the well known American league by making a bid for the year's batting crown held for nine consecutive years by the famed Ty Cobb, the Detroit worthy has shown a tendency to come through towards the finish of the season in his previous big years and fans are still looking for a real drive, that will place him ahead of Speaker, and at the top of the league swatters before October comes around. The last announced figures showed Speaker with a .387 average, and Cobb 40 points behind with .347, but Ty has overcome a lead before, and it is freely predicted that he will again accomplish this feat, despite Speaker's terrific pace set with his bludgeon this summer.

The Dixie Daredevil has been further in the hole at this stage of the season before, but he always has finished in front. Nine times the Georgia Peach won the batting championship. Houtis Wagner only led his league eight seasons and he will never do it again. "Larry" Lajoie, Pop Ansom, Dan Brown and Ross Barnes were great wall-poppers, but four seasons was the limit for them to be the champion batsman, and Cobb is out after his 10th championship.

Here is the way the three leaders finished since the reign of Cobb:

Year	Name and club	No. of Bat- ting games	P.C.
1907	Tyrus R. Cobb, Detroit	150	.350
	D. Kay, Washington	25	.332
	Al Orth, New York	43	.324
1908	E. Collins, St. Louis	64	.341
	T. R. Cobb, Detroit	150	.324
	J. Delehanty, Wash.	53	.317
1909	T. R. Cobb, Detroit	155	.347
	E. Collins, Phila.	152	.343
	N. Lajoie, Cleveland	123	.324
1910	T. R. Cobb, Detroit	140	.355
	N. Lajoie, Cleveland	159	.354
	Tris Speaker, Boston	141	.341
1911	T. R. Cobb, Detroit	148	.320
	J. Jackson, Cleveland	147	.408
	S. Crawford, Detroit	140	.378
1912	T. R. Cobb, Detroit	140	.410
	J. Jackson, Cleveland	152	.395
	Tris Speaker, Boston	153	.353
1913	T. R. Cobb, Detroit	123	.359
	Olaf Henriksen, Boston	30	.378
	J. Jackson, Cleveland	145	.373
1914	T. R. Cobb, Detroit	97	.348
	E. T. Collins, Phila.	152	.344
	Tris Speaker, Boston	158	.338
1915	T. R. Cobb, Detroit	150	.370
	E. T. Collins, Chicago	155	.332
	Tris Speaker, Boston	150	.322

DIAMOND DAZZLES

The White Sox fell under the attack of the Red Sox in the final game of the most important series of the season thus far and hence the Bostonians left the Windy City last night with a first hold on first place. Chicago by its poor showing against the world's champions dropped into third place, and Cleveland advanced a peg.

Baseball at high noon, an absolutely new plan, was on the card at Braves' field today. The postponement of the last two days made it necessary for a double-header today and as the Pittsburgh boys have to catch a train shortly after 5 o'clock there was only one way to play the double bill and that was to start at noon. The box office opened at 11:45 o'clock, giving fans an opportunity to go without

"casts" to see a ball game.

The Braves and Dodgers open a series tomorrow that will have a whole lot to do with the race for honors in the National league. Brooklyn now leads Boston by four games and the Braves will have to put some real class to overcome this lead.

Pitcher Tony of Cincinnati is the hard luck man of the National league after being beaten by Boston Monday on two hits, he held Philadelphia to three bingles yesterday and his teammates tossed the game away.

Look out for the Browns! They made it five straight from Washington with a shutout yesterday and jumped into fifth place, just a half game behind Detroit.

Joe Jackson found the Boston pitchers much easier yesterday than in any of the previous games. Four hits including a triple in five trips up was his contribution.

The scout who advised Miller Huggins that Rogers Hornby was not deserving of a big league trial must have been related to the fellow who advised the tailor not to give John D. Rockefeller credit for a suit of clothes.

In its first 33 games at home this season, the Yanks of New York had totalled more in gate receipts than the entire 1915 at-home season, which was the best year the club had enjoyed since the American league invaded Manhattan island. The club also has been drawing big crowds on its road tours.

Bill McKechnie has been sent to his home in Wilkinsburg, Penn., by Christy Mathewson. The Red third baseman has been troubled with a sore foot and injured side for some time. McKechnie was seen to be in pain in the recent Red-Superbas series, and he could throw only with the greatest effort.

Some fans are complaining against the length of the games in the National league. Much valuable time is lost by waiting for balls knocked into foul territory to come back. In the Johnson league a new pill is rushed into play when the ball is knocked foul and it has proved a time-saver. It is seldom that a game is played at Braves field in less than two hours and as a result the tea is cold when a lot of the boys get home.

Poll Perrill and Slim Sallee were once idols in St. Louis, but that was in the long ago. Since Poll made his leap to the Reds and they turned around and jumped back to the Giants and since Sal deserted the Cards and then signed with McGraw's team, the pair of pitchers have been as popular as assassins in the Mound city. Sallee joined the Giants in St. Louis last month. As soon as he emerged from the clubhouse the bleachers began to hoot.

Connie Mack is the only baseball manager who has won six major league pennants. He is also the only manager who has won three world's championships. Be that as it may it is plain to be seen by Philadelphia papers that the sentiment in that city is not strongly with Mr. MacGillouddy in his present plan of taking the team apart and fixing the breaks with green college men and semi-pros. He may be seeing the light at this late date, for he is credited with saying that he will retire before he will sell another star.

Beating the box office to see the ball game may be frowned upon by all hall club owners, but the man in the small western city who pulled this, was rather hard hearted. An aviator was hovering over the ball park when something went wrong. Down he plunged and landed in center field. After the manager and several of the players had succeeded in bringing him back to this cruel world, the manager leaned solicitously over him and said: "Feel better now, old man? Then you can just pay your quarter and watch the rest of the game."

The games between Washington and Cleveland this season show that the Senators still can cut in on the chances of the Cleveland club. Back in 1908 when Joe Cantillon managed the Senators and Lajoie was making a great fight for the pennant at the head of the Naps, an important series in the latter part of the season resulted in three victories out of four for the Senators. Cleveland losing the pennant that year by a narrow margin. In 1913, when the Naps were making a great bid for the flag under Birmingham, the team went to Washington hoping to close the gap that separated them from the Athletics, but Washington pummed the works by winning five straight games.

A.O.U. FIELD DAY

All is in readiness for the field day of the A.O.U. to be held tomorrow at Spaulding park. Good sports will be held and many prominent amateur athletes will compete for a good list of prizes. James E. Burns is chairman of the sports committee and Matt McCann, Martin Conley, John R. Kiegan and others will have charge of the sports. A good prize list is offered to the winners. Many of the prominent amateur athletes will compete and the South Ends and U. S. Cartridge Co. will play ball for a purse. A Gaelic football game will be played between the Young Irelands and the Young Shamrocks. Much interest is manifested in the outcome as this is the first game to be held in this city for many years. The proceeds of the event will go toward the fund to defray the expenses of the state convention which will be held in this city August 21, 22, and 23.

AMATEUR BASEBALL

The All Stars will play the Tewksbury team in Tewksbury Centre tomorrow afternoon. Players are requested to take the 1:45 car.

The Kimball System team and the Believers will meet on the South common tomorrow afternoon. When these teams clashed before the Kimballs won by a ninth inning rally.

The South Ends will play a team from the U. S. Cartridge shop at the outing to be held tomorrow afternoon at Spaulding park.

Factory output four months to May 1st, upwards of fourteen millions. Increase of over two millions in four months. Largest selling brand of 10c Cigars in the world, Factory, Manchester, N. H.

EASTERN LEAGUE COMMENT

Yesterday's game could have been played in Lowell, though the weather was not ideal for baseball. It was transferred to Worcester, however, and the players went over the road in automobiles only to find the rain descending heavily on Boulevard park. There was no rain here but the cold weather might have affected the attendance.

Dick Durning of Portland and George Pennington of Lawrence staged a hard pitching duel in the Maine city yesterday. For 14 innings neither team was able to score a run. In the 15th, Sweatt singled, stole second and scored on Lonergan's drive to left. But three hits were made off Lefty Durning. For 12 innings Dick really pitched "no hit" baseball, the only sign of a safety being made off him before that time being a high fly that three Portland players allowed to drop between them.

Walton Hoyt, the New York 16-year-

old boy with the Lynn team, pitched his first real good game for Lou Pieper yesterday, defeating New Haven in a seven-inning game.

Tom Bannon, who umpired at League park yesterday, thinks Scott Charley Keichner of the St. Louis Browns was looking him over. Pitcher Bill Powers doesn't think so. Beatty, the Portland third baseman, thinks both Bannon and Powers are wrong, and so does Tamm, the Portland shortstop, who adds Beatty's name to the list of wild guessers. Maybe Keichner was just looking at the signs on the fence.—Springfield Union.

Baseball sometimes makes strange bedfellows. A few years ago Lowell and Hartford, respective pennant winners in the New England league and the Eastern association, played a post-season series to decide the championship of all New England, Lowell win-

ning. Now both clubs are having a warm fight down near the bottom of the present Eastern league race to see which team is to be consigned to the bottom berth. There's only a couple of games difference between them now, with Hartford holding the anchor.—Lawrence Telegram.

Gene McCann has started to pick up youngsters to develop them for use next season. He has just signed Jim Kelly of Holyoke, known recently as "Home Run" Kelly. One of the youngster's latest accomplishments in the Springfield City league was to make four home runs in two days. Kelly is an outfielder and first baseman.

Manager Mike Healey of Bridgeport is not satisfied with his pitching staff. He thinks that Walsh and House are the only two dependable men, although Mahrennen has done good work this season. He has secured Russell, a right hander, from Manager Birmingham of the Toronto team, and Lefty Gilmore from Providence. Healey is now after a pitcher from Connie Mack.

Women enjoy trapshooting more than any other sport.

RAINY WEATHER GOSSIP TERRIFIC CLASH ST. JOSEPH'S COLLEGE

Lowell Club Has Many Postponed Games at Home—Team Will Leave Tomorrow on Long Trip

Although the rainy season has hit owners of all Eastern league clubs hard and put them down so far in the hole that there is little chance of any of them making an even break for the year, Andrew P. Roach of the Lowell club has had far more than his share of the weather man's unpleasant offerings.

Of 17 postponed games this year, 13 were to have been played in this city. Hence President Roach has had to make arrangements with rain guarantees on 3 occasions while he has received but 160 all told as a result of games being postponed while his team was on the road.

Lowell still has many postponed games to be played off here and fans will be treated to all kinds of double enders when the team returns from its next trip which begins after tomorrow. Lowell will not have another league game until August 22 when Hartford will be here for a double ender.

Tomorrow Lowell goes to Lawrence for two games. The attendance at Riverside park will have considerable

effect on the future of Eastern league baseball in that city. For several days, or since the change in management, committees have been working to draw out the biggest crowd of the season to convince Manager O'Hara that Lawrence is just as good a baseball city as of old.

All next week Lowell remains in the clutches of the other end of the circuit with games in Hartford, New Haven, Springfield and New London. New material is needed to give Lowell the strength to get an even break or better with these teams. With the exception of Hartford all have been building up their clubs in an endeavor to give the fans as good ball as possible for the remainder of the season and also to prepare for next year's fight. Even New London has tried out a new player or two during the past few days.

Since the first of July Lowell has won nine and lost 23 games, a percentage of .243. Hartford has made the same showing. Hugh Duffy's Portland team has been doing the best work with 39 games won and 10 lost, an average of three victories in every four games played during that time. New London has done the second best work winning 23 games and losing 11. Worcester is third with 21 games won out of 35 played. New Haven and Bridgeport, both second division teams, have done good work during the past six weeks and hence they are attracting fairly good crowds. Both teams have won more than 50 per cent of the games played.

Worcester has been a great team for winning at home. Of 84 games played to date by Billy Hamilton's team 47 of them have been entered under the win column. Twenty-nine of the 47 victories were won at Boulevard park, the team having been defeated but 12 times on its own stadium grounds. The Boosters' showing has been just as poor on the road as it has been good at home. They have played 43 games on foreign diamonds and only 18 of them have resulted in victories. Thirty-three playing days remain on the Worcester schedule. Of these 20 are at home and 13 away.

Built On Satisfaction

P&Q Clothes are guaranteed to be the best values in town.

In this shop you can pay only \$10 or \$15 for your new suit. Yet you get the best value—the best style—in town. The equal of clothes that sell elsewhere at 20-\$25.

We sell 'em direct from maker-to-wearer and eliminate in-between profits.

This is not a "retail" shop in the ordinary sense. It's really a wholesale shop, for P&Q Clothes are made by a tailoring Organization owned and controlled exclusively by 20 P&Q Shops in 20 different cities.

And we're the original style cranks. Nothing that's new and nice escapes that Master Of 'Em ALI—that Shark With The Shears"—the P&Q Designer. AND that his eye doesn't see, his master brain conceives. RESULT—Clothes of as many, varied and as perfect in design as the Masterpieces in Gallery of ART.

Miss Eleonora Sears in Sensational Shipwreck—Yacht on Reef

BOSTON, Aug. 11.—The arrival in the harbor yesterday of the steam yacht Condor, in tow of a tug and with her hull stove in, rudder broken off and pumps working to keep her afloat, brought to light for the first time the story of a shipwreck off Baker's Island in which Miss Eleonora Sears of this city and Mr. and Mrs. G. Maurice Heckscher of New York thought for awhile that their end was near.

It happened last Tuesday morning. The Condor, bound from Narragansett pier to Marblehead, bringing the Heckschers and Miss Sears up for a tennis tournament, was poking her way slowly through a heavy fog, when suddenly there came a terrific crash. It seemed for a moment as if the yacht had been ripped apart.

The Heckschers and Miss Sears, who were in their staterooms, rushed on deck to find the yacht fast filling with water and settling deeper and deeper. The captain had mistaken his course and driven the vessel on a reef off Baker's Island.

For a few minutes it was feared that the yacht would sink. The crew of 14 men lowered the lifeboats and tender and made ready to abandon her. Investigation by the captain, however, showed that the yacht was caught too fast on the reef to sink, and with no immediate danger, the Heckschers and Miss Sears decided to remain aboard.

"There were a few minutes, though, when we thought we would have barely time to save ourselves," said Miss Sears, recounting the story of the wreck to a newspaper reporter last night. "When the crash came I was in my stateroom. A second later and the water poured into it like a deluge. I did not even have time to catch up any clothing. Neither did the Heckschers in their stateroom."

"When we got out on the deck we thought surely that the boat was going down. Soon afterward, however, after the life boats had been lowered, we knew we were safe."

The captain sounded distress signals and within a very few minutes a small power boat loomed out of the fog. There was one man in it, a fisherman. He brought his boat alongside and made certain there was no immediate danger of our sinking, then offered to take us ashore. Mr. and Mrs. Heckscher and I gladly accepted and we went with him into Marblehead."

Later in the day a tug was sent out from Marblehead, and after much difficulty the Condor was floated off the reef and brought into Marblehead harbor. The pumps had to be kept going constantly to prevent her sinking, and it was decided to take the vessel to drydock in Boston.

The Condor, an unusually finely appointed vessel, 175 feet long, is under charter to Mr. Heckscher.

TO PRESERVE SUBMARINE

Dr. Gibbons Bought First Craft Built From Plans of James Holland to Save It

NEW YORK, Aug. 11.—Dr. Peter J. Gibbons, who has purchased the first submarine built from the plans of James Holland, offered today to give the ancient craft to the city, his personal society or museum that could show the best right to it and that would guarantee to preserve it.

"We bought it because we did not want to see it lost as was Wright's first aeroplane, Fulton's steamboat and the steamship built by Gibbons in Philadelphia, 31 years before Fulton built his," said Dr. Gibbons.

SEES FOR LUSTANIA DEATH

Mrs. Stevens of Cambridge, Widow of Victim, Seeks \$32,500 From the Cunard Company

BOSTON, Aug. 11.—A suit of \$32,500 against the Cunard Steamship company, Ltd. has been filed in New York by Mrs. Laura Stevens of Upland road, Cambridge, whose husband, Charles H. Stevens, was lost on the Lusitania. The body of Mr. Stevens, who was 53, was picked up off the coast of Ireland early this year, and buried in England.

In the lining of his garments was found \$700 in cash, which was turned over to Mrs. Stevens.

DROWNED OFF YACHT

MARBLEHEAD, Aug. 11.—Berga Mortensen, a Norwegian deck hand on the Bar Harbor 31-footer Cockot, owned by T. K. Lothrop, Jr., was knocked overboard and drowned in the race of the Corinthian Yacht club yesterday.

The accident happened near Tom Moore's Rock. There was a heavy sea running and Mortensen was fixing one of the machine runners when a big wave hit the yacht and he was knocked overboard.

ST. JOSEPH'S COLLEGE

REUNION OF ALUMNI A BIG SUCCESS—BANQUET AND SPEECH-MAKING IN THE EVENING

One of the most successful reunions in the history of St. Joseph's college alumni took place yesterday when about 200 former pupils of the school gathered around the festive board at their alma mater and after partaking of a very substantial dinner, listened to interesting addresses by able speakers.

As published in yesterday's issue of The Sun, the opening of the event was an outing at Cunningham's farm in Collinsville in the afternoon, which proved very successful. In the evening

W. P. CAISSE, JR., President

a brief reception was held in the college hall and later while excellent concert numbers were given by St. Joseph's orchestra, the appetizing menu was discussed.

At the close of the dinner post-prandial exercises were held with Arthur St. Hilaire, president of the alumni acting as toastmaster. The speakers were Rev. Dr. J. H. Racette, O.M.I., pastor, Rev. Bro. Zephiryn, a former provincial of the Marist order, now stationed at Poughkeepsie, N. Y., and W. P. Caisse, Jr., the first president of the organization.

The first speaker was Rev. Dr. Racette, who spoke of the importance of the alumni to both the members and the parish. He expressed his admiration of the help and support given by the parish by the alumni and closed by paying a tribute to the founder of the college, the late Rev. A. M. Garin, O.M.I.

Brother Zephiryn took for his subject, "Faith," and told of the arrangements which are now being made for the celebration of the 100th anniversary of the founding of the Marist order and the 25th anniversary of the opening of St. Joseph's college. Mr. Caisse urged the members of the organization to begin preparing at once and to do all in their power to swell the ranks of the alumni.

At the close of the post-prandial exercises the annual election of officers took place with the following results: W. P. Caisse, president; Leo H. Bauleau, vice president; Arthur H. Giroux, secretary; Arthur D. Lamoureux, assistant secretary; Edmond N. Foley, treasurer; Francis L. Blanchette, E. S. Desmarais, Arthur Gaudette, Alfred Renaud and John B. Richard, directors. The affair closed with the singing of "O Canada" by the assembly.

KNIGHTS OF COLUMBUS THE CARTRIDGE PLANT

ANNUAL LADIES' DAY GREAT SUCCESS—TWENTY GIRLS IN 35-YD. DASH

A program of sports featured the annual Ladies' day of Lowell council, Knights of Columbus, held yesterday at the Genoa club and reported in yesterday's Sun. One of the most closely-contested baseball games, ever played in connection with this event was staged between the married and single men of the council, the latter winning out by the score of 8 to 7.

The married men played a great game but the breaks were with the young fellows and they came out the winners. Sullivan and Gallagher, the married men's battery, did good work and Hart pitched a strong game for the single men.

The lineups were as follows:
Married Men—Capt. W. Gallagher, T. Sullivan, P. H. Flaherty, J. J. Hayes, A. Molloy, R. D. Thomas, J. D. Walker, B. T. Delaney, J. D. O'Brien, C. Single men—Capt. W. Wood, J. Landers, C. R. Hart, P. E. Mullin, J. J. Pay, B. E. Hines, S. W. Barley, J. A. Rogers, G. G. Briggs, R. G. G. McCue.

Another baseball game was played between a picked nine known as the West Stars and a girls' team. After three innings the Stars were declared winners by a 12 to 0 score.

About 20 girls entered the 35-yard dash which was won by Miss Loretta Wood with Miss Loretta Keefe second. Miss Bernice Quill won the ball-throwing contest while Miss Loretta Keefe showed that she could throw as well as run by taking second prize. The sports were run off under the direction of Andrew Molloy and William Wood.

The result of the donation contest, conducted by the members, was announced before the dancing began, and the results were: First prize, two weeks' vacation trip for the winner, and a friend to be chosen by himself, won by T. Lee Taylor of the New England Telephone Co. of Boston, and second prize, an umbrella, donated by Commissioner Newell E. Putnam of the department of fire and water, won by Miss Blanche Oullette, 61 Chestnut street.

ADOPTS RESOLUTION OPPOSING GROWING USE OF INTOXICANTS BY WOMEN

WASHINGTON, August 11.—The Catholic Abstinence Union of America was on record today in opposition to the growing use of intoxicants by women and girls. Resolutions to that effect were adopted and officers elected, headed by Rev. John G. Bean of Pittsburgh, at the closing session of the union last night.

Other officers chosen were: Vice presidents, the Rev. D. J. Kane, Scranton, Pa.; James E. Dougherty, Philadelphia; Mrs. Thomas J. Backett, New York; treasurer, Rev. Maurice J. O'Connor, Boston, and secretary, Thomas E. McCloskey, Cincinnati.

GETS SWORD OF HONOR

LONDON, Aug. 11.—The Russian emperor has presented to General A. Brusilov a sword of honor of the Order of St. George, ornamented with diamonds, for his victories over the Austrians and Germans in Galicia and Volhynia, says a Reuter despatch from Petrograd.

INFANT KILLED BY AUTO

WELLS, Me., Aug. 11.—While playing in the roadside near his home yesterday, Harold Strickland, the infant son of J. C. Strickland, was struck and instantly killed by an automobile driven by William Hoerle of East Torrington, Conn. Hoerle and John Tucker of East Torrington, an occupant of the automobile, have been detained by the police.

Then, in less time than it takes to tell it, the streets are deserted and all are on the inside looking out. The cops, however, remain outside and continue their "watchful waiting" for the remainder of the night.

One then gets a better view of the enormous buildings there, several of which are of recent construction. Right along the street a new brick building has been erected. Here, on the lower floor, men are employed, and a look at the speed at which they turn over their part of the work convinces one of the magnitude of the output of the establishment. These men work in full view of passersby and the writer was one of the many who stopped to take a look at the bullet workers. All have a certain part to do and just as soon as the power goes on the human power begins the grind.

The sight is interesting, and if one had the time he could spend it to good advantage by just watching the remarkable systematic and expeditious manner in which the work is accomplished.

London has a school where women are given a course in grocery salesmanship.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

GENERAL BUSINESS BOOMING

Those doleful ones who, for political purposes, scan the trade records hoping to find some augury of disaster are not in a cheerful mood just now, for every trade paper is a prophesy of good fortune to come or a summary of good things gone by. Even the conservative papers that used to say conditions were "reasonably good" cannot find superlatives enough to tell of our present prosperity. Statistics are simply staggering, but as usual they do not convey any adequate impression of the condition of general business.

Other years the influence of the warm season was always felt in business, which slackened up for a few months—but not this year. As the August letter of the National City bank of New York puts it: "Notwithstanding the influence of midsummer weather there has been practically no let up in industry during the past month. Trade has been slightly less active, for it is between buying seasons, but mills and factories are sold as far ahead that there has been no relaxation of the pressure upon them."

Despite a threatened falling off in war orders our export trade is still keeping up, and every diminution in the quantity of munitions exported is made up by the increase in the demand for other commodities. Most experts say that while the war lasts and for some time afterwards this country will be hard pushed to meet the demands for American merchandise from all over the world. Mr. Hughes may think or pretend to think that we are living in a fool's paradise, but he seems to have a monopoly on the wisdom that looks for a change in our prosperity for a long time to come.

The steel industry is still working to full capacity. Its earnings for the past three months exceeding all prognostications. The net earnings of the United States Steel corporation for the second quarter of the year were \$81,000,000 and still better results are expected for the third quarter of the year. The Bethlehem company is about to spend \$10,000,000 upon its new acquisitions, the Pennsylvania Steel company and the Maryland Steel company. Extra dividends have been declared but a large part of the earnings is being kept in reserve in anticipation of manufacturing developments. Evidently the directors of the steel companies do not take stock in talk of "fool's paradise."

Building operations are active all over the country. One of the most reliable commercial and financial journals reports that a compilation of building permits for 164 cities shows an aggregate in the six months ended June 30 of \$523,300,000 as compared with \$452,716,573 for the same period in 1914. These figures have never been exceeded except in the first six months of 1909 when they were \$525,000,000. This boom in building at a time when materials are unusually high indicates very strongly the great sudden boom in business which necessitates industrial and residential development. If we live in a "fool's paradise," there are going to be many new mansions in it before the end of the year.

The shipbuilding industry reports activity in every shipyard in the country—and this before the passage of the merchant marine bill. Plenty of work is in sight for years, not to mention the great navy program which the senate has practically agreed upon. With the establishment of American transportation on a scale comparable to that of the other great nations, American business will be able to throw off its dependence on rival powers and go into the trade ways of the world prepared for fair but keen competition. The dropping of opposition to the administration shipping bill is a good sign and it points to coming co-operation between government and business for the extension of our foreign trade.

The railroads report unprecedented prosperity, the difficulty being to regulate the great amount of business that piles up in yards and terminals. Unfortunately the danger of a great strike hangs over the country, but it is the earnest hopes of business and the people generally that neither the employer nor the employees will face an issue that could not but be ruinous. To put a deliberate obstacle to business prosperity at this time would seem the height of folly and it is to be hoped that wisdom and toleration will prevail as in the past.

Recounting of specific instances of prosperity becomes monotonous. On every side it is the same story—everything is booming. Wages are good and there is almost no unemployment. The revised currency system protects the country against panic dangers and the recently organized federal boards ensure tariff and trade changes that will conserve the best interests of the country. It may be selfish for us to rejoice at a prosperity that has come in part from the travail of the other great nations, but it was not of our seeking and we are mindful of the good fortune that has sent us peace and prosperity while the world bleeds in a war that we had no part in making.

POLICE SUPERVISION

Mayor O'Donnell has taken one of the most practical means possible to enforce the rules of cleanliness and sanitation in this city in his letter to the superintendent of police on this most important matter. He says truly that "the police department can do more than any other organized body to impress upon householders and lodgers the necessity of exercising care and judgment in the matter of disposing of refuse, garbage, etc." and he consequently directs the superintendents to see that the police give special attention to it.

Undoubtedly many members of the department already make a special effort to keep Lowell as clean as possible, but only through a zealous organized effort can results be obtained. The Sun has long contended that a word from the police official on the beat is a stronger influence than twenty proclamations from the board of health, especially in sections where foreign residents live and if a police official shows that he means business, it will not be long before results are noted.

Owing to the agitations of the present time and the real scare from New York, there should be no half measures in efforts at cleanliness. It shall therefore be the duty of each police officer in the city to report delinquents to the superintendent, if his directions are disregarded. It is no burden on the great majority of people to keep their premises reasonably clean, but there may be cases when the property owner is more to blame than the tenant.

In such cases responsibility should be fixed and the courts have the power to deal with those whose negligence is criminal. Now that the police department is to be held responsible for conditions, the subterfuge of laying the blame on somebody else should be once for all abandoned and all classes should co-operate to the fullest extent with those who strive to carry out the plain and pointed instructions of the mayor.

THE LUSITANIA NOTE

As an evidence of his good faith and sincere desire to serve the American people to the best of his ability, President Wilson has asked permission of the German government to publish the last German note on the Lusitania, and the favor was granted. Its publication should suffice to remove the discussion of the terrible sea tragedy from campaign debates and to establish the wisdom of the administration's handling of the question. So many things have intruded themselves into the public notice that details of the Lusitania controversy have been almost forgotten, but this German note is a proof that President Wilson's diplomacy triumphed over the obstinacy of the German war council. Germany recognized liability in the loss of Americans on the Lusitania and though an open confession of guilt is not to be expected, the German government virtually admits that its course was contrary to international law and the law of humanity. That an indemnity will be paid the relatives of those lost is assured, though there may be some difficulty in arriving at the exact amount. If instead of demanding reparation through

HOW TO REDUCE YOUR WEIGHT

A SIMPLE SAFE, RELIABLE WAY

People who are over-burdened with superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unwholesome fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure. There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Speed as much time as you can in the open air, breathe deeply and get from A. W. Dows & Co. or any good druggist a box of oil of korein capsules; take one after each meal and one before retiring at night. Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days' treatment has been reported to show a noticeable reduction in weight, footsteps become lighter, your work seems easier and a lighter and more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial.

Washington Savings Institution
Verification of Pass Books

Complying with the statute requiring the Savings Banks in Massachusetts to request depositors to present their books for verification during the year 1916, this bank requests its depositors to show their books at any time during banking hours in the months of July and August.

THOMAS H. MURPHY,
Treasurer.

diplomatic channels we had gone to war with Germany, would we be any better off today? That would merely have taken off the last restraint on submarine warfare and turned loose a campaign of lawlessness which might make the Lusitania horror look like play. The publication of the German note will serve to recall some political critics from their flippant attitude and show them that right can win out against might—sometimes.

THE GANG NUISANCE

We still have the gangs or that variety of them which think it can with impunity interfere with officers of the law in the discharge of their duties. Of this fallacy they should be disabused in the shortest and most effective way, and until the police take the initiative occasional excesses are to be expected. News travels quickly in the realm of the loafer and the hoodlum and if the leaders of the gangs, here and there are called to account, it will not be long before we have different conditions. Respect for authority is the death of the gang spirit, just as contempt for authority is its vital principle, and there cannot be respect for authority in those circles until authority sets out to make itself respected in the good old vigorous fashion. No one would want to see the police unduly aggressive, but all will support the department in a desire to show groups of loafers and undesirables that when they try to interfere with the law they undertake more than they can accomplish.

PRESIDENT TO MEDIATE

It is reported with what looks like good authority that if the federal board of mediation and conciliation fails to avert the threatened strike of 400,000 railroad employees, President Wilson will be asked to mediate. This is a grave decision, but in that case it will be the result of grave necessity. A threat of a nation-wide railroad strike is nothing new, but it would prove fully as disastrous as it has been pictured by railroad owners and workers alike. There is no need to paint an imaginary picture of the result. Our civilization is largely due to the railroads and should they be crippled, about everything else would be crippled in short order. It is to be hoped that the controversy may be settled without recourse to the chief executive of the nation, but if it goes that far it may go yet farther. When the government of the country has to step in to settle railroad strikes it shall be near time that the government owned the railroads—not as a great good perhaps, but rather as the lesser of two evils.

MUNICIPAL JOY RIDES

There must be something peculiarly exhilarating in the wind that blows from the Charles river basin or else municipal auto trips—for business only—are the rule rather than the exception in Cambridge. Once again the Cambridge authorities are confronted with garage bills for trips which they have never taken. It seems a shame that irreverent and dishonest joy riders should masquerade as city solons but how is it possible for outsiders to work the trick? Looks as though municipal joy rides are rather common in the city where almost anybody can have one by giving a city hall address. Be it far from us to throw mud at Cambridge in this connection. Mindful of our own past we just can't help being slightly curious, that's all.

SEEN AND HEARD

When a wise man gets real angry he goes way back and sits down.

To About Six Months

A New York lawyer tells of a man who had been convicted of stealing by a certain "down-east" judge, well known for his tender-heartedness.

"Have you ever been sentenced to imprisonment?" asked the judge, not kindly.

"Never," exclaimed the prisoner, suddenly bursting into tears.

"Well, well, don't cry, my man," said His Honor, consolingly, "you're going to be now."

Keeping It Quiet

Little Margaret lived in a gossip neighborhood and being an observant child she had got some ideas into her curly head. One day, having done something naughty, she was sent upstairs to confess her transgression in prayer.

"Did you tell God all about it?" asked her mother, when she came down again.

"Margaret shook her head decidedly.

"Decid I didn't," she declared. "Why, it would have been all over heaven in no time!"—Boston Transcript.

Now She's at Bar Harbor

A well known Fall River lawyer was trying to make clear to a legal student the significance of the term "colored evidence," meaning by that evidence which has been tampered with.

"The best illustration I can think of came within my observation not long ago," said the lawyer. "A physician had said to a fair patient:

"Madam, you are a little run down. You need frequent baths and plenty of fresh air, and I advise you to dress in the coolest, most comfortable clothes—nothing stiff or formal."

"When the lady got home this is how she rendered to her husband the advice given to her by the doctor:

"He says I must go to the seashore, do plenty of motoring and get new summer gowns."

Child Had Proof

The reading class was in session and the word "furlough" occurred. Miss Jones, the teacher in a Springfield school, asked if any little girl or boy knew the meaning of the word. One small hand was raised.

"Furlough means a mule," said the child.

"Oh, no, it doesn't," said the teacher.

"Yes, ma'am," insisted the little girl. "I have the book at home that says so."

Miss Jones told the child to bring the book to school. The next morning the child came armed with a book and triumphantly showed a picture of

an American soldier riding a mule, under which was the caption:
"Going home on his furlough."

Peril in Cleanliness

With sobs in his voice, the applicant for a meal and some old clothes had told his story, and the kind-hearted woman had helped him.

Now he sat eating a hunk of bread and cheese and she thought it wise to get in a little good advice. So she began:

"Don't you think that—er—it would be better for yourself if you used soap and water occasionally?"

The tramp sighed dolefully.

"I would, ma'am—I would," he answered eagerly, "but the truth is that there's so many different kinds of soap, and it's so hard to know which is injurious to the skin, and I'm afraid to take any risks."—Pittsburgh Chronicle-Telegraph.

Not as Bad as That

Early one bright spring morning a ragged tramp called at a country vicarage, where the lady of the house had the name of being very charitable.

"Kind lady," he began whiningly as he doffed his cap politely, "I ain't 'ad time to eat since my supper yesterday."

"Poor fellow!" said the kind hearted woman. "You must be hungry! But you look strong! Why don't you look for work?"

"Ah, mum, ye see I'm a little bit silly," began the man in explanation.

"Yes, but silly people often get work," interrupted the lady.

"But I'm not that silly!" finished the tramp quickly.—London Telegraph.

George Did It

George Clarke, a celebrated negro minstrel, on one occasion when being examined as a witness was severely interrogated by a lawyer.

"You are in the minstrel business, I believe?" inquired the lawyer.

"Yes, sir," was the reply.

"Is not that rather a low calling?"

"I don't know but what it is, str," replied the minstrel, "but it is so

EARLY MORNING FATIGUE

When you awaken in the morning feeling tired out, feeling worse in fact than when you went to bed, you are confronted with one of the characteristic symptoms of neurasthenia. It is due to the run-down condition of the nerves that rest does not bring renewed strength and sleep refreshes the tired brain. Overwork and worry are the most frequent causes of this condition. Neurasthenia is the name given to this common form of nervous debility in which the power to recuperate is gone.

The blood can be built up so that it will increase the supply of needed elements to the wasted nerves and this is the only way that the nerves can be reached. Dr. Williams' Pink Pills are a tonic that especially builds up the nerves because they supply to the blood the elements that the nerves need. Many nervous disorders, sometimes chronic ones, have yielded to this tonic treatment with Dr. Williams' Pink Pills when other methods failed to give relief. They are certainly worth a trial.

Dr. Williams' Pink Pills are sold by druggists everywhere or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write today for free book on the nerves.

much better than my father's that I am rather proud of it.

The lawyer fell into the trap.

"What was your father's calling?" he inquired.

"He was a lawyer," replied Clarke, in a tone that sent the whole court into a roar of laughter.

There, little girl! Don't cry!

There, little girl! Don't cry! They have broken your doll, I know; And your tea-set blue And your playhouse, too.

Are things of the long ago; But childish troubles will soon pass by—

There, little girl! Don't cry!

There, little girl! Don't cry! They have broken your slate, I know; And the glad wild ways Of your school-girl days

Are things of the long ago; But life never holds all for which you sigh—

There, little girl! Don't cry!

There, little girl! Don't cry! They have broken your heart, I know; And the rainbow gleams Of your youthful dreams

Are things of the long ago; But heaven holds all for which you sigh—

There, little girl! Don't cry!

There, little girl! Don't cry! They have broken your heart, I know; And the rainbow gleams Of your youthful dreams

Are things of the long ago; But heaven holds all for which you sigh—

There, little girl! Don't cry!

There, little girl! Don't cry! They have broken your heart, I know; And the rainbow gleams Of your youthful dreams

Are things of the long ago; But heaven holds all for which you sigh—

There, little girl! Don't cry!

PRaises LOWELL

National Board of Underwriters Speaks Well of Us

HAVERHILL, Aug. 11.—Following up the inspection of the fire fighting facilities made by the expert engineers, J. H. Howland, of the national board of underwriters, is in Haverhill to urge the city officials to adopt the suggestions made by the engineers in their report. He says that Haverhill and Lawrence are the slowest cities in this section to provide modern fire prevention facilities.

Salem, Augusta and other places joined poverty, Mr. Howland says. Just the same as Haverhill does, before the configurations visited these places, but statistics have shown that 25 per cent has been saved in acquiring auto pumps and in the motorizing of apparatus instead of using horses. Bonds have been issued in other cities to provide proper facilities and the benefit derived as warranted such action on the part of city governments.

Mr. Howland said that he was in the city of Augusta just before the big fire and the city officials talked the same way that they talk in Haverhill, but since then they have seen the light.

Good Words for Lowell

In regard to the motorizing of the apparatus, Mr. Howland said that in the cities of Lynn, Lowell, Springfield, and Holyoke practically all the apparatus is motorized. He urges that the city of Haverhill adopt the recommendations of the engineering experts and says that in Lowell the city took the suggestions as a text book

and followed them specifically. The suggestions are absolutely practical, Mr. Howland says.

The chief recommendations on which Mr. Howland makes particular stress are additional men, two auto pumps, an auto aerial truck and says these things should be done first. Then the motorization of the fire department, additional hose, the extension of the high pressure service, an assistant to Chief Gordon and the removal of the fire alarm signal system to a separate fireproof building. He believes that the department should be put on a full pay basis as rapidly as possible, eliminating the call men.

AGED MAN SHOT SELF

WIFE DIED OF A SHOCK—THE HUSBAND IS NOT EXPECTED TO RECOVER

GREENWICH, Conn., Aug. 11.—When informed that her husband had attempted to end his life yesterday, Mrs. Nathan Carpenter, 74 years old, died of heart disease. Carpenter, who is 76 years old, is dying of a bullet wound in the head.

LIFE BUOY FOUND; SHIP LOST

PENSACOLA, Fla., Aug. 11.—The finding of a life buoy bearing the name of the Italian ship Mount Carmel washed ashore on Santa Rosa Island near here strengthened the belief today that the vessel went down in the hurricane of July 5.

TO RETURN PROPERTIES

PARIS, Aug. 11.—Confirmation was given today by Juan Arcona, financial agent of the Carranza regime of a Mexico City despatch to the Figaro to the effect that the Mexican government has decided to return sequestered properties taken from supporters of previous governments, subject to any civil responsibilities which may have been incurred.

EXPLOSION KILLS THREE

WORKMEN OF DU PONT PLANT AT CARNEY'S POINT, N. J., LOST LIVES

WILMINGTON, Del., Aug. 11.—An explosion which blew out a cylinder on a rehydrating press at the Du Pont powder company's plant at Carney's Point, N. J., today killed three workmen and injured two others.

MISS KATE HAMPTON DEAD

Last of Children of Col. Hampton of War of 1812 and Sister of General Hampton of Confederate Army

COLUMBUS, S. C., Aug. 11.—Miss Kate Hampton, 92 years of age, last of the children of Col. Wade Hampton of the war of 1812 and sister of the late Lieut.-Gen. Wade Hampton of the Confederate army, died here last night.

MILITARIA REPUBLICAN CLUB

Hon. John N. Cole of Andover was the principal speaker at a special meeting and rally of the Militaria Republican club held last evening in its rooms in Elm street. Mr. Cole spoke on his observations at the recent republican convention in Chicago when Hon. Charles E. Hughes was nominated for president of the United States. He described the proceedings of the convention in a very interesting manner which was keenly enjoyed by the large number of members present.

Mr. Cole also assailed the administration now in control at Washington and predicted that Mr. Hughes would be the next president of the United States.

Addresses were also made by Rev. Charles H. Williams and Burton O. Sanford, candidates for representative in the 17th district, and by Dr. Manuel Pfeiffer of Bedford, candidate for senator. President Ralph E. Manning presided at the meeting.

Previous to the speaking reports of various committees were heard and the question of holding an outing was discussed. A committee of three was appointed to consider the outing question and report later.

LARGE WOODEN STEAMER

SANDUSKY, O., Aug. 11.—The William F. Edwards, one of the largest wooden steamers on the Great Lakes, is ready to clear from here for Montreal with a cargo of coal. Unloading from that port, she will take a cargo of lumber to Ireland. The vessel has recently been fitted with a new bow and sides for ocean travel.

ADMIRAL HOWARD RETIRED

WASHINGTON, Aug. 11.—Rear Admiral Thomas Howard was placed on the retired list today on account of age. His last duty was as president of the naval examining and retiring board.

MILK DRIVERS STRIKE

CLEVELAND, O., Aug. 11.—As a result of a strike of milk wagon drivers of the Telling-Belle Vernon Co., largest milk dealers in the city, 300,000 Clevelanders were without their usual supplies today. The milk companies, without opposition from strikers, delivered milk to hospitals and babies' dispensaries today.

TO TEACH MOTHERHOOD

PALMER SCHOOL WILL INSTRUCT GIRLS FOR THE HOME—PROVIDED FOR IN WILL

DETROIT, Mich., Aug. 11.—Establishment of a school for girls' motherhood is provided for in the will of Mrs. Lizzie Merrill Palmer, died yesterday for probate.

Mrs. Palmer was the widow of former United States Senator Thomas W. Palmer. The exact amount which will be devoted to founding and operating the school is not designated. Probate court officials say the estate amounts to upwards of \$1,000,000, however, and the entire residue is left for that purpose after provision is made for paying ten specific legacies amounting to \$135,000.

The will provides that girls unable or unwilling to pay the cost of their board at the school shall be educated free of charge.

"I hold profoundly," says the will, "the conviction that welfare of any community is divinely and hence inseparably dependent upon the qualities of

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."

—Mrs. ROBT. STOEPLER, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you would like to see what a wonderful woman's establishment ours is, call any day and inspect our laboratory—you will be welcome. The Lydia E. Pinkham Medicine Co., Lynn, Mass. m

its motherhood and the spirit and character of its homes."

It is specified that the school be established in Detroit, or the township of Greenfield, a suburb. Girls of 10 years and upward will be admitted.

IN POLICE CIRCLES

A number of breaks and petty larcenies have been committed by boys and many complaints have been registered at the police station.

During the early part of this week a house in Humphrey street was entered and several sleds and other small stuff were stolen and taken to Belle Grove where they were recovered yesterday by Inspector Walsh and Sgt. McLaughlin.

This morning two boys, one aged 10 and the other 11 years, were brought to the police station by Patrolman George Abbott, it being alleged that one of the boys stole 30 cents from a coffee house in Market street.

MORPHINE IN HATBAND

BOSTON, Aug. 11.—A new method of carrying dope was unearthed by the officials at the Deer Island house of correction, when Jacob Goldstein, convicted as a pickpocket, was landed with a number of other prisoners.

The rigorous search to which all new arrivals are subjected revealed a package of morphine in Goldstein's hatband. He was given extra punishment for having possession of the drug.

SHORTAGE OF "A.D.T." BOYS

NEW YORK, Aug. 11.—The Western Union Telegraph Co. notified its customers today that its national distribution service for the delivery of packages by a pneumatic tube system was suspended on Sept. 1 and thereafter its messengers will collect and deliver telegrams only. It is understood that the package deliveries will be made by motor trucks operating from a central station in the larger cities. A shortage of boys to act as messengers has necessitated the change. The national distribution system now is operated in all the principal cities served by the Western Union.

SINKING OF ITALIAN STEAMER

AMSTERDAM, Aug. 11, via London.—A semi-official account of the sinking by a submarine recently of the Italian mail steamship Letimbro received here today from Vienna says the Italians fired on the submarine with two guns and that there were troops on board.

"After the submarine had fired a warning shot at a distance of 5000 metres," the statement says, "the vessel opened fire from two guns at the stern and attempted to escape by zig-zagging. The submarine pursued the Letimbro, replying to the fire without hitting the vessel which had shown no flag."

"Later boats were lowered from the steamer. After ascertaining that no one remained on board, the steamship was sunk by the submarine."

"Approaching the boats, the submarine ascertained that of 30 persons in one boat, 20 were in khaki, which confirmed the suspicion of the submarine commander that he had before him a vessel with troops aboard."

NOTIFICATION OF FAIRBANKS

INDIANAPOLIS, Ind., Aug. 11.—The notification ceremonies at which Chas. W. Fairbanks will be told officially of his nomination as the republican candidate for vice president will be held at his residence at 2 o'clock on the afternoon of Aug. 31, it was announced today.

BIG STRIKE RIOT

Strikers and Police Clash North of Detroit—Firemen Called

DETROIT, Mich., Aug. 11.—Striking cigar makers and sympathizers numbering more than 1500 clashed with the police of Hamtramck township, just north of Detroit last night, and were dispersed only after reinforcements had been summoned from the Detroit police force and the fire department had turned two heavy streams of water upon them. Many on both sides were more or less seriously injured.

The trouble was precipitated when the strikers attempted an attack upon the cigar factory where they were employed.

Many of the rioters, occupying doorways and windows in several buildings across the street from the factory, hurled bricks, stones, bottles and sticks at the police and firemen. A number of shots were fired on both sides but none took effect. Twenty-seven arrests were made.

LUSITANIA CASE NOT SETTLED

WASHINGTON, Aug. 11.—State department officials yesterday explained that the recent request to the German embassy for permission to publish one of Count von Bernstorff's notes on the

settlement of the Lusitania case was an inadvertence. At first it was denied, but an investigation of the department's files disclosed that a letter prepared by a subordinate official had been signed either by Secretary Lansing or Acting Secretary Polk and had been transmitted to the German embassy.

State department officials declared that too much importance had been attached to the request in German official quarters and that it was not, as interpreted, an indication that Germany's proposals were to be accepted as satisfactory.

When Acting Secretary Polk was told Wednesday of the impressions gained in German official quarters of the meaning of the request, he said he could not talk about the Lusitania.

Yesterday both Secretary Lansing and Mr. Polk declared the request was in no wise an indication that the United States was about to accept Germany's long pending representations as satisfactory; that the status of the entire negotiations still was informal and that none of the correspondence was a matter for publication at this time.

The case is regarded as still unsettled because of developments in submarine warfare and the attitude of belligerents on the subject of armed merchantmen which arose last February at the moment the Lusitania negotiations appeared to be on the point of satisfactory conclusion.

The state railways of Wuerttemberg, Ger., have appointed the first woman station master in that country. She has complete charge of a station and directs the incoming and outgoing of all trains.

Hamilton Watch Club

Our Club Plan Enables You to Buy at Strictly Cash Prices On EASY PAYMENTS

Our Club is the only original Watch Club in Lowell. Perfect satisfaction guaranteed.

NOTE—Our \$25 and \$28 Hamiltons are timed and cased at the factory, and have the Hamilton crest engraved on the case. Look for the engraving. No long waiting after you join this club. You get your watch on your first payment down.

Does White Bread Agree With You?

Providing it doesn't persist in using it for if you do your habit may eventuate into a serious stomach ailment which either will be the cause of your death or leave you an invalid.

JOHNSTON'S BRAN BREAD

TEN CENTS A LOAF

Which we introduce to the public of this city this week is the result of much experimenting and search for a bread which would give an abundance of health-giving properties to the human body and at the same time be digested most freely.

JOHNSTON'S BRAN BREAD IS NOT A BREAD WHICH IS IN ITS EXPERIMENTAL STAGE. ITS VALUE AS A HEALTH BREAD IS ESTABLISHED. If you have stomach disorders, whether or not they are occasioned through the use of white bread, which is directly responsible for more stomach ailments than anything else, eat Johnston's Bran Bread and you will not only be relieved of pains, gases, etc., but its continued use will in time strengthen your stomach so that you need fear no further trouble from your digestive organism.

Johnston's Bakery, 131 Gorham St.

IN POLICE COURT
Continued

J. Murphy, Lakeview avenue; Edward Lynch, Fulton street; John Draddy, John street; William F. Scully, French street and James Manning, Fletcher street.

Numerous complaints have been made about suspicious persons in the vicinity of the car barn in First street and recently it was learned that a number of men were making their temporary homes in the place, the cushions in the cars making very comfortable sleeping quarters.

Early this morning, Sergts. Ryan and Bigelow and Patrolmen McCloy, Hession, Gillis and Winn, made a visit to the place and found the men enjoying a good sleep. They were awakened and taken to the police station, where they were booked as suspicious persons.

When brought before the court this morning, the men were cautioned to avoid trespassing on other people's property and upon promising not to visit the car barn again they were released. Mullen still owes the court \$20 on a larceny case and Draddy has failed to pay a fine of \$10 which was imposed some time ago. Both men promised to go to work and remit the fines.

Sent to State Farm

Harold E. Frazer was arrested last night about 11:15 o'clock by Patrolman P. P. Noonan, the latter claiming that Frazer was drunk. Frazer denied he had been drinking but when several officers testified as to the man's condition he was found guilty and sentenced to the state farm, from which sentence he appealed. It was Frazer's fifth appearance in court since March 25th and at the present time he is under two appeals to the superior court.

Non-Support Case

Philip Vazek was charged with failing to provide proper support for his two minor children, but owing to the fact that the defendant has brought an action for divorce against his wife, no finding was made. It being agreed by counsel that Vazek pay her \$4 a week.

According to the testimony Vazek and his wife were married six years ago and after living in Fall River for a time she went on a visit to her home in Poland. When the European war broke out she was unable to get home, but finally managed to get across recently and when she went to her husband he accused her of being unfaithful and she came to live with friends in this city.

A short time ago Vazek entered an action of divorce against his wife, the trial of which is scheduled for October.

Charles A. Donahue appeared for the government and Lawyer Cook of Fall River represented the defendant.

He Stole Lead

Michael Tobin was arrested yesterday by Inspector John A. Walsh and Patrolman Whelan on a complaint charging him with the larceny of lead from the American Mason Safety Tread

Co. in Rogers street. When arrested Tobin had his pockets filled with new lead.

In court this morning Tobin was charged with the larceny of ten pounds of lead, each pound of the value of seven cents. He entered a plea of guilty. It appears that yesterday noon Tobin, while under the influence of liquor, entered the building and helped himself to the lead which was lying about loose.

The court imposed a sentence of one month in jail, but after Tobin's record was produced he was sentenced to two months in jail.

Sent to State Farm

Joseph Quigley and Robert Knox were charged with being vagrants in Chelmsford, being idle persons, with no visible means of support and living without lawful employment since the first of January. Each entered a plea of guilty.

Constable Vinal of No. Chelmsford said that to his knowledge Quigley has not done a full week's work for the past six or seven years and that he sleeps out and is a nuisance about the village. He said Knox has not done anything for the past three months. The court sentenced both men to the state farm.

Drunken Offenders

There were several drunken offenders in court. Two were sentenced to two months each in jail and another was given a sentence of three months in jail. One was given a suspended sentence of five months in jail and five first offenders were released by the probation officer.

CASE OF PARALYSIS
Continued

apparent in her right wrist, which is somewhat paralyzed.

Agent Bates of the board of health in discussing the case this morning said although this is the second case of infantile paralysis reported in this city this week, there is nothing alarming, for there were fewer cases reported this year than last year. Eight cases of infantile paralysis were reported during the past year, while this year with almost eight months gone by, there were but six cases reported. The first case was reported in January and then there was nothing doing until July 5, when the second case was reported.

Good Hay Crop

Supt. Martin Conley of the Chelmsford street hospital reports a very good hay crop at the city farm. He stated this morning that about 70 tons of hay have been cut and housed and he expects the second crop will also be very good. The corn is coming along fine and he believes next week there will be enough to feed the whole institution.

City Messenger Owen Monahan and Commissioner Morse have returned from Nantasket Pier, where they attended the annual outing of the Massachusetts Highway association. Both men report they had a splendid time.

Examiners Leary, Hubbell and Mc-

Donaghy of the state highway commission examined 22 applicants for chauffeurs' licenses at city hall this morning.

Henry Achin, Jr., has taken out nomination papers for representative in the 15th district.

Back on the Job

It was stated at city hall this morning that a few of the cement workers at the Pawtucket bridge, who went out on strike yesterday after being refused an increase of five cents per hour, have returned to their work. The National Engineering Co., which is constructing the bridge, refused to grant the increase on the grounds that the men employed as cement workers at the bridge are receiving higher wages than on any other job in the city.

Supt. Ramsay stated this morning that the strikers' places are being filled with Lowell men and that the work is going along as though nothing had happened.

FEWER CASES TODAY

EXPERTS HOPE COOL SPELL WILL CHECK SPREAD OF INFANTILE PARALYSIS

NEW YORK, Aug. 11.—The epidemic of infantile paralysis showed another slight decline today and health experts who are fighting the scourge here were more hopeful that the cool spell which struck the city yesterday would materially check the spread of the plague. The daily bulletin of the health department shows that during the 24 hour period which ended at 10 a. m., thirty-one children died of the disease and 165 new cases were reported in the five boroughs of New York City. Yesterday thirty-eight children died of the plague and 175 were stricken.

MAY DELAY SCHOOL OPENING

BOSTON, Aug. 11.—The state board of education is considering the advisability of delaying the opening of public schools throughout the commonwealth on account of the increased number of cases of infantile paralysis. Dr. Payson Smith, commissioner of education, will confer today or tomorrow with the officials of the state department of health and learn their opinion.

Many of the schools open Sept. 5 and for this reason the board seeks to arrive at some decision within a few days. The board has direct control of the state normal schools, but its power is limited as to the public schools in the cities and towns are largely recommendatory.

Dr. Francis X. Mahoney, health commissioner of the city of Boston, and his deputy, Dr. Thomas E. Shea, do not agree with the state board's view, and oppose any delay in the opening.

The number of cases of the disease in this city at present, 15, is not considered by them as sufficient reason for delaying the school opening.

Dr. Shea said that the schools ought to open because the doctors will thus be better able to discover new cases and to keep informed of the general condition of the pupils. He says that children would get together just as much outside as in the schools, whereas outside they would not have the observation of school physicians.

EXPERIMENT WITH INSECTS

NEW YORK, Aug. 11.—A new phase of the investigation to determine whether infantile paralysis is carried by insects, chiefly the fly, mosquito and bed bug, was agreed on yesterday at a conference here of prominent entomologists from the states of New York, New Jersey and Connecticut, with federal and city health experts.

In addition to the epidemiological research work now being done, entomological studies also will be taken up at once.

Dr. Charles E. Banks, senior surgeon of the federal public health service, announced before leaving the city for Washington to consult with Surgeon General Blue, that the public health quarantine regulations dealing with interstate travel of persons afflicted with the disease will be strictly enforced.

No infected person will be permitted in future, he asserted, to travel from one state to another, even though the person lives in the city and wishes to return.

Scores of persons who have had infantile paralysis today volunteered to give their blood for serum to aid the little victims of the epidemic.

CHILDREN BARRED FROM TRAINS

COLUMBIA, S. C., Aug. 11.—The state board of health today prohibited children under 16 years of age from traveling on railroads without a health certificate, as a precaution to prevent the spread of infantile paralysis, of which there have been 35 cases and five deaths recently in the state.

BOY KILLED; DRIVER RELEASED

KENNEBUNK, Me., Aug. 11.—William Hoeft of Torrington, arraigned before Trial Justice H. H. Bourne today on a warrant charging manslaughter in connection with the killing of a two-year-old Harold Strickland by an automobile at Wells. Comegys was discharged for lack of evidence. The little Strickland boy started to run across the road to join his two brothers and sisters and went directly in front of a car owned and driven by Mr. Hoeft.

REFINED PETROLEUM CHEAPER

NEW YORK, Aug. 11.—The Standard Oil Co. of New York today reduced the price of refined petroleum for export 1 1/2 points, making refined in cases 11.35 cents a gallon, in tanks 5.10 cents and standard white in barrels 5.95 cents.

LABORERS wanted at the Lowell Bleachery. Apply Mr. Bean.
LABORERS wanted. Come ready for work. Fred T. Loy, Boston.

MYSTERIOUS DEATH OF DAVIS

CHICAGO, Aug. 11.—A new element was present today in the mystery surrounding the death at a hotel last Wednesday of Morse Davis, a mining engineer of Vancouver, B. C. It was the announcement made last night that Dr. William D. McNally, coroner's chemist, in a chemical analysis of the contents of the stomach of Mrs. Davis, who was found unconscious at the time of her husband's death, had discovered no poison of the kind believed to have killed Davis.

The chemist said he would make more tests today for other poisons and that he would analyze several bottles of medicine found in the Davis apartments.

Mrs. Davis, after she regained consciousness was told that a chemical which her husband used in the professional work must have gotten mixed with salts which she and her husband took for illness. Mrs. Davis is still ill today.

SUGGESTED SUBMARINE SERVICE

THE HAGUE, Netherlands, Aug. 11.—A retired Dutch army officer claims that the British blockade of the submarine service recently inaugurated by the "Deutschland," Junkheer J. Sandberg, formerly of the Netherlands East Indian army, says that more than a year ago he addressed a letter to Admiral Von Tirpitz through the German consul-general at The Hague, setting forth the idea of a submarine service. The letter, which means and recommending its execution. A copy of the letter was a few days later brought to the notice of Herr Ballin, the managing director of the Hamburg-America line. The latter was much taken with the plan and consulted with the competent authorities regarding its execution.

MOVING AUSTRALIAN WHEAT

MELBOURNE, Australia, Aug. 11.—The government's purchase of fifteen large steamships in England to be operated by the commonwealth in the movement of Australian wheat to Europe will not go far towards solving the problem. The steamers have a total capacity of 120,000 tons, but it is doubtful if they can make more than two trips each to Europe before the end of the year, and this will dispose of only 9,000,000 bushels of the huge quantity of the cereal that is awaiting shipment here.

Australia has almost 100,000,000 bushels of wheat in store, and is beginning to sprout in stacks where storage is unavailable in country railroad yards, and the commonwealth's next wheat harvest is already in sight to further complicate the problem.

The government's purchase of the steamers is hailed by the labor party with indignation. The establishment of a government-owned fleet has long been a plank in its platform.

DISCUSS SUFFRAGE AMENDMENT

COLORADO SPRINGS, Colo., Aug. 11.—The present status of the national suffrage amendment was the subject for discussion at the opening session today of the National Women's party conference.

SUN BREVITIES

Best printing: Tobin's, Asso. Bldg. Auto supplies, Beharrell, 23 Middlest. Jos. M. Dineen, cameras, photo supplies. With R. E. Jodoin, 411 Merrick st. The municipal band concert given on the North common last evening by the National band, Richard A. Griffiths, conductor, was largely attended and proved very enjoyable.

Rev. Fr. Antoine, a member of the order of St. Benedict of Newark, N. J., who was the guest of the city, and Mrs. Amende Archambault, of Merrimack street, left yesterday with Henri A. Archambault and Ernest Brown for a cruise to Halifax, N. S. They will return next week.

Mr. and Mrs. Octave DeVryder of Cumberland road, are in receipt of a letter from their son, Francois, who is in the Belgian army, and who was reported among the dead a couple of months ago. The young man, after a fierce battle, made his escape to Holland and he writes that he is enjoying the heat of hell.

Samuel Lafleur, aged 21 years, of 4 Tanner street today enlisted to serve in the hospital corps of the U. S. army through the recruiting office at the local armory. Immediately upon applying Mr. Lafleur was examined by Dr. Parker and after he had been pronounced O. K. was shipped to Fort Banks.

Major Colby T. Kittredge, the local recruiting officer, was notified yesterday by telegram from the war department that the application of John Larkin of this city for enlistment in the United States army had been rejected on account of the man's age. Mr. Larkin passed a successful physical examination, but inasmuch as he has passed his 32nd birthday, the war department rejected his application.

Dynamite was used yesterday by Undertaker Joseph Albert of this city in an attempt to locate the body of Bernard Gately who was drowned Tuesday afternoon at White's pond, Pelham, N. H. A searching party straggled all over the pond and divers also attempted to locate the body but the work was difficult on account of the muddy bottom and the prevalence of weeds.

The singing at the 5.30 o'clock mass at Lakeview Sunday morning will be by John J. Dalton, Miss Etta King, Miss Florence McLaughlin, William Gookin, while the organist will be Miss Minnie E. Davey, organist at the 10 o'clock mass at the Immaculate Conception church. The program will be as follows: "Jesus, Savior of My Soul," quartet; Verdis "Jesu Dei Fili," trio; Weigand's "O Salutaris," duet, and Falkenstein's "Ave Verum," quartet.

The annual upstream trip of the members of the Lowell Motor Boat club was held on the Merrimack river last night. Ourselves of crews had invited their friends to accompany them and 14 boats were in line when the start was made. The crews went up as far as Tyngs Island and on the return trip the boats traveled five abreast in the first and second line and four in the third. Upon arriving at the boat house a buffet lunch was served.

A delightful kitchen shower was tendered Miss Mae McDermott, 23 home of Mrs. Hubert McLaughlin, 23 Houghton street, Wednesday night. Miss McDermott, who will soon become the bride of Patrician William Keegan, was the recipient of many beautiful and useful articles. During the evening, a musical and literary program was carried out and a buffet luncheon was served. Mr. Harry McDermott acted as emcee during the evening. The party was in charge of Mrs. Hubert McLaughlin and she was ably assisted by Mrs. Eugene Stillings.

Two weeks' vacation at Nantasket beach.

The Wisteria Girls will leave Lowell tomorrow for a two weeks' vacation at the Saratoga cottage, Salisbury beach. They will be chaperoned by Mrs. Cavanaugh.

MATRIMONIAL

Joseph F. Tobin and Miss Margaret E. Reilly were married Wednesday evening at St. Patrick's rectory. Rev. Joseph A. Curtin. The bride wore white crepe de chine with pearl trimmings and a picture hat. She carried sweet peas. She was attended by her sister, Miss Rose E. Reilly, who was attired in pink crepe de chine and carried Kilmory roses. At the close of the ceremony the bridal party repaired to the home of the bride, 105 Worthen street, where a reception was held. The couple left on a honeymoon trip to New York and Atlantic City.

Mr. and Mrs. Thomas Lancaster and family of Chapel street will spend next week at Salisbury beach.

Miss May A. Mahan and Miss May McNamara were recent guests of Mrs. John Burke at her cottage at Hampton beach.

Mrs. Elvex and daughter, Dorothy, of 24 Second street, are spending a

two weeks' vacation at Nantasket beach.

A very pretty home wedding took place yesterday afternoon at 5.30 o'clock at 121 Hoyt avenue when Miss Theresa Catherine Small was united in marriage to Dr. Frank Gilmour Gulliland, both of Tewksbury. There were 22 relatives present to witness the ceremony, which was performed by

Rev. J. Harold Dale of Ellerica.

The bride was becomingly attired in a gown of white Georgette crepe and veil carried white sweet peas. The bride couple were attended by Miss Nettie Gulliland, a sister of the bridegroom, and Mr. Louis C. Small, brother of the bride. Little Dorothy Small and William McCausland were flower children and they carried baskets of white and pink sweet peas. Miss Alice Gulliland played the wedding march. The house was beautifully decorated, the color scheme being pink and white.

The bride's gift to her maid of honor was a very handsome brooch; to the children, gold rings, and to Miss Alice Gulliland, a fan. The bridegroom's gift to the best man was a scarf pin. A wedding supper was served by the D. L. Page Co.

The happy couple, after receiving congratulations, left on an extended automobile trip to the mountains and seashore. They will be at home after October 1, at 121 Hoyt avenue, Lowell.

The groom is a well known dentist in this city and the bride is very popular. Both in this city and Tewksbury. She has been organist of the Tewksbury Congregational church for a number of years, and as a music teacher, has had studios here and in Tewksbury.

WOMEN HOLD MEETING

COLORADO SPRINGS, Colo., Aug. 11.—Sharp differences regarding the manner of selecting a resolution committee to draft a statement of the election policy of the Woman's National party developed at the first formal session of the national conference here today. A substitute motion that the committee consist of 12 members instead of five as first proposed and that the members be selected by each state instead of by the national chairman was lost by a vote of 40 to 42.

An amendment intended as a compromise was immediately passed increasing the personnel of the committee to eleven—one from each suffrage state represented and the original motion was then passed unanimously. Miss Anne Martin, national chairman, announced the selection of Mrs. William Kent of California as chairman and said the names of the others would be selected later.

Until all the women of the United States are free, none of them are free, declared Mrs. Florence Bayard Hilles, of Wilmington, Del., in speaking here at the conference of the National Woman's Party. Mrs. Hilles, herself a democrat and the daughter of the late Thomas Bayard, secretary of state under Cleveland and this country's first ambassador to Great Britain asserted that there had been "gross injustice" shown by the present house judiciary committee toward the Susan B. Anthony amendment and the efforts of the women to have it given a fair trial.

After reciting how, at the first hearing of the congressional union before the committee, "the chairman and some of the members treated the women to a sort of inquisitorial hearing, characterized by ill-breeding, discourtesy and gross injustice," and how later "through a political deal" the suffrage amendment "was lumped together with the prohibition and seventeen other amendments, contrary to all parliamentary procedure," Mrs. Hilles said:

"The sooner the women of this country, more than half of whom are unrepresented in government, awakened to the fact that this is the kind of unjust treatment to which their most vital interests are subjected, the sooner will there rise, as indeed it has risen, a tide of action that will put an end to such tactics. Individual liberty is the essential basis of free government, and under our form of government both political expediency and political justice demand the national enfranchisement of women. Until all the women of this country are free, none of them are free."

"The hopeless task of state referendums has taught women the futility of such action and the necessity for concentration on the federal amendment. Undoubtedly enough states are now won to enable the most skeptical

DEMOCRATS IN SESSION

Informal Conference for Adoption of Party Platform at Saratoga Springs

SARATOGA SPRINGS, N. Y., Aug. 11.—The democratic state informal conference for the adoption of a party platform was called to order today by Edwin S. Harris, chairman of the state committee.

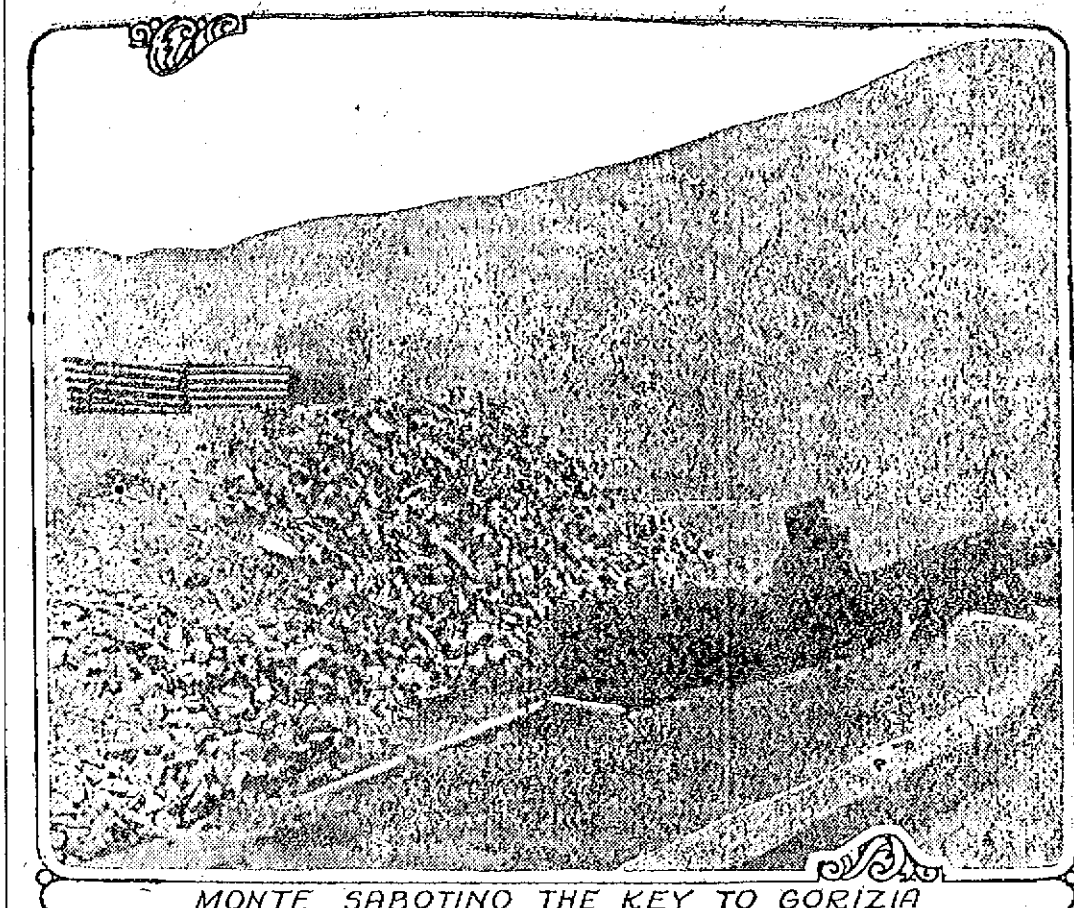

During the roll call a delegation of about 60 women, many of them wearing blue and yellow, the suffrage colors, and all wearing sashes bearing the inscription "Votes for Women," found seats at the side of the hall.

At the conclusion of the roll call, the committee on organization naming representative John J. Fitzgerald of Brooklyn as conference chairman, was adopted. After taking charge of the conference, Mr. Fitzgerald said that on account of throat trouble he would postpone the delivery of his prepared speech until the evening session, after he gave the reporters permission to print the address in afternoon papers.

The conference adjourned at 1:10 p. m. until 8 p. m., after adopting a report of the rules committee, requesting the chairman of the county delegations to inform the conference of the prevailing sentiment of their respective delegations concerning candidates for the gubernatorial nomination.

REP. FITZGERALD'S ADDRESS
SARATOGA SPRINGS, N. Y., Aug. 11.—Unstinted praise of the Wilson administration and a scathing denunciation of the alleged extravagance and incompetence of the republican administration of state affairs were

ITALIANS HAD TO STORM MOUNTAINS BEFORE TAKING CITY OF GORIZIA

Monte Sabotino, the great Austrian fort in the Julian Alps captured by the Italians before they took the city of Gorizia, was the key to the city. The fort is situated on the edge of the high mountain, and an enormous sacrifice of life was made by King Victor Emmanuel's troops in the ascent of the peak shown on the right in the picture. The lines are Austrian trenches and other defensive works. The rounded structure at the left is a concrete Italian fort.

observer to see that the political power already in the hands of women themselves is sufficient to win freedom for all women."

ALWAYS SOMETHING WRONG
The Robinson combination fire apparatus at the Merrimack street fire house is out of commission. Yesterday

it was found that one of the axles was sprung and after that trouble had been remedied it was learned that a gear in the transmission was broken and it will be necessary for the machine to be hauled until a new gear is secured. In the meantime several other pieces of apparatus will cover the alarm to which Hoss 8 responds.

COMMONS CRITICISE FINANCES

LONDON, Aug. 11.—Reginald McKenna, chancellor of the exchequer, was subjected to criticism in the house of commons yesterday on the ground of over-reliance upon treasury bills, his critics arguing that the large amount of such bills outstanding constituted a danger and that the government ought to have issued another war loan.

In the course of his reply the chancellor claimed that Great Britain was able to borrow abroad at much lower terms than any other belligerent power. He estimated the nation's total indebtedness at the end of the present financial year to be \$3,410,000,000 (about \$17,200,000,000).

From that amount, said the chancellor, the nation was entitled to deduct \$300,000,000 (about \$4,000,000,000) lent to allies and dominions of the empire, the sum left being a burden it could well sustain, as it was practically balanced by the present national income. In fact, he declared, Great Britain was in the position of the man whose income was \$5000 and whose debts amounted to \$5000, which was not an alarming position.

SERIOUS BREAK

Continued

of the front intermittent artillery fighting occurred. "On the night of August 9-10, French aerial squadrons bombarded the railway station and barracks at Vouziers and the station at Bazancourt."

BRITISH MAKE FURTHER PROGRESS ON THE SOMME FRONT

LONDON, Aug. 11, 3:15 p. m.—North of Bazancourt-le-Petit and northwest of Poperles, on the Somme front, the British have made further progress. It was announced officially here today.

The announcement follows: "Last night the enemy opened heavy machine gun and rifle fire on Highwood, followed by an artillery barrage on the back area. We replied effectively and no hostile attack developed."

"North of Bazancourt-le-Petit, we made further progress, taking a short length of trenches and inflicting considerable loss on the enemy. At 5:45 a. m., the enemy made a determined counter attack on the trenches cap-

tured by us. This attack was repulsed with further heavy loss by the enemy."

"Northwest of Poperles we also advanced our line slightly at certain places. "Near Neuville-St. Vaast we exploded a mine last night and occupied the crater with little opposition. South of Ypres we successfully raided a ruined farm in the enemy's lines. On the remainder of the front there was no event of importance."

BERLIN ADMITS RETREAT OF AUSTRIO-GERMANS IN GALICIA

BERLIN, Aug. 11, via London, 5:55 p. m.—Austro-German troops in the region of Monasterzyska at points on the Dniester and in the Bystritsa river regions of Galicia have been compelled to give way because of the superiority of hostile forces at some places, says today's war office statement. Counter-attacks brought the engagements to a standstill and a re-grouping of the Teutonic forces is now taking place.

The statement says:

"Front of Archduke Charles Francis: Southwest of Monasterzyska and in the angle formed by the Dniester and Bystritsa, strong Russian forces attacked us. The superiority of the enemy compelled the brave defenders to give way at some points. Our counter-attacks intercepted storming attacks of the enemy and brought the fight to a standstill. A re-grouping of the allied (Teutonic) troops, which was ordered so as to take into account the altered positions of the Russians, is now taking place."

"In the Carpathians the enemy made futile efforts to wrest from us advantages we had gained south of Zabie. "Balkan front: South of Lake Doiran the enemy made sham attacks with weak detachments which were repulsed by our fire without serious fighting. "Western front: Native and British troops attacked north of the Somme without result. Frequently repeated storm attacks by French troops slightly north of the river met the unyielding resistance of Saxon reserve detachments and failed."

NUMBER OF PRISONERS TAKEN BY ITALIANS NOW EXCEEDS 15,000

ROME, via Paris, Aug. 11.—The number of prisoners taken by the Italians since the fall of Gorizia now exceeds 15,000, according to the correspondent of the Tribuna on the Isonzo front. Italian cavalry and cyclists are clearing the valleys of the retreating Austrians and, according to the correspondent, the battle continues in favor of the Italians on both wings.

GERMAN AIR ATTACKS ON BRITISH WARSHIPS AND RUSSIAN STATIONS

BERLIN, Aug. 11, via London, 1:57 p. m.—Successful attacks by German air squadrons on British war vessels off the Flemish coast and on Russian aviation stations on the Island of Oesel, off the Gulf of Riga, are announced in an admiralty statement issued today as follows:

"A squadron of our seaplanes on the afternoon of Aug. 9 successfully attacked with bombs British monitors and light forces off the Flemish coast obtaining several definitely established hits."

"On the same day the Russian aeroplane stations at Aeronsburg and Lebara on the Island of Oesel were attacked by several German air squadrons with good results, a number of hits being observed. An aeroplane shelter building was badly damaged, the roof collapsing. Of the enemy planes which ascended for the defense, one was obliged to descend."

"Despite the heavy fire of the British and Russian forces all the aeroplanes returned undamaged."

BERLIN REPORTS RAID ON ROTTWEIL, WUERTTEMBERG—LITTLE DAMAGE

BERLIN, Aug. 11, via London.—"The night of Aug. 7, enemy airman dropped several bombs on Rottweil, Wuerttemberg," says an official statement issued here today. "A dwelling house was hit and several persons were wounded. No military damage was done."

The official French statement of Wednesday afternoon said a French aviator dropped 330 pounds of explosives on the powder factory at Rottweil, causing two extensive fires

more evident hourly. The battle is continuing behind the city over a front of about 12 miles. The Austrians have retreated along the railroad in the direction of Dornberg, eight miles southeast of Gorizia and over the national highway to Schon pass, six miles to the east, and are now attempting to re-form their front on a line extending from Vipacco to Tarnova.

Meanwhile the Austrians are attempting to take the offensive at Monte Nero and various other parts of the Italian front but thus far have been unable to divert the Italians from their operations behind Gorizia. Popular enthusiasm is at high pitch throughout Italy. Congratulations are

pouring in from all parts of the world to King Victor Emmanuel and Gen. Caudrona.

The third army, under command of the Duke of Aosta which is still bearing the brunt of the fighting, has won high praise. The Duke, before the battle began, called on his army to fight and win "in the name of your mothers, your wives, your sisters and your country."

ESTABLISHED 1878

LOWELL MASS. FRIDAY AUGUST 11 1916

PRICE ONE CENT

50,000 MILK BOTTLES

Biggest Shipment in City's History Arrives—Dealers May Advance Price of Milk

The biggest shipment of milk bottles ever received in Lowell was unloaded in Western avenue yesterday. The number of bottles distributed was over 50,000. The distribution of the bottles, pints and quarts, was a big undertaking and the scene at the point where the unloading took place was a lively one as great crowds had gathered to watch the expert way in which the milk bottles were being juggled.

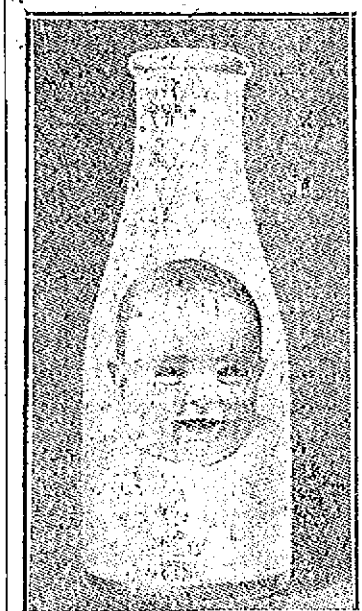

But the scene held greater interest for the thinking observer than the mere unloading of the 50,000 milk bottles. What will become of those bottles? Will they be kept clean? How much more are they costing the consumer since the price of glass has advanced? Will the consumer assist the dealer in preserving his bottles? These, probably, are fair examples of questions that suggested themselves to the fellow who was looking on and thinking and they might have been accompanied by that more important question as to the food value of milk.

The unloading of the bottles was in charge of E. R. Leighton, local representative of the Henry E. Wright & Sons, Inc., of Boston, and although Mr. Leighton was a very busy man the writer determined to have a word with him. Mr. Leighton didn't seem to experience any difficulty in talking while he directed the work of unloading and he told the writer that he was always very glad to talk about milk and milk bottles, especially to newspaper men because, he said, he believes the newspaper to be the greatest of all educators, where practical every day questions are concerned.

"You gentlemen of the press," said Mr. Leighton, "can do a great service to mankind by spreading the gospel of cleanliness and pure milk. You can educate the public as to the

FOOD VALUE OF MILK and suggest to the consumer the great need of economy and co-operation especially in the handling of milk bottles. You can teach the public to be more careful about the return of

milk bottles to the dealers. The price of glass has gone up tremendously within the last year and when I tell you that the milk dealers in Lowell and vicinity are having a hard time to make both ends meet, I know just what I am talking about. It is positively up to the consumer to co-operate with the dealer, especially in the return of bottles, for the dealer needs

A HAPPY COMBINATION

all the assistance he can get in order to keep his head above water.

"I do not know of another city in the state where the price of milk is as cheap as in Lowell. It is only 8 cents a quart here while the prices in other cities range from 9 to 13 cents. The only city I know of, other than Lowell, where milk is selling for 8 cents, is Nashua, N. H.

"The larger dealers are reaching out to Lowell for milk. These include the

Boston dealers and there is no doubt in my mind but what the dealers

Will Raise The Price

In this city, for it will be absolutely necessary to do so in order to keep going. And it is up to the consumer, to some extent, as to whether it shall be a one cent or a two cent raise. The consumer can assist in keeping it down to a one cent raise by looking after the bottles and returning them to the dealers instead of throwing them away and using them for other purposes as is too often the case.

"The milk question has acquired the very highest stage of importance and the United States government has been talking it up to the extent of appropriating \$8,000,000 for the first three years of a campaign that will, in all probability, be carried along for a number of years. The real purpose of the campaign is to educate the public as to the food value of milk and this is a question that I think is more important than any other. It has been well said that milk is nature's best and cheapest food. No family can get along without milk; it is the natural food for babies and children. They will play better and grow better if they have plenty of good milk and in order to give them a good start they ought to be allowed all the good, pure milk they will drink. Milk used freely in the kitchen makes all foods better and cuts down the high cost of living.

"Cleanliness is another watchword in the milk business, and I can say for dairymen and dealers as a whole that they leave no stone unturned in their endeavors to produce good, clean milk. In order for them to remain in the business it is absolutely necessary that they shall produce and sell clean milk for there is no other way to hold customers. I think, however, that the average housewife is not as careful as she might be in the care of milk and that is another line along which the newspaper can offer valuable suggestions from time to time. The first lookout is to buy clean milk and keep it clean. When in doubt, pasteurize for safety. There are some people who are afraid of milk, but pure milk is the greatest food in the world, and it might be said in passing that milk-borne diseases are far less common than the ill effects which result from the use of low little milk.

"I wish I could emphasize in a way that would reach the appreciation and understanding of the public the fact that we do not use enough dairy products. Milk is not merely a delicious beverage; it's a real food. A quart a day is not too much for active workers. But drink it slowly—eat it. Professor Rosenau of Harvard university says that the

Actual Food Value

of one quart of milk is equal to three-quarters of a pound of beef, two pounds of chicken, eight eggs, two pounds of codfish, etc. And in speaking of butter, ice cream and cheese, the professor says that since each of these concentrated products of milk, each therefore contains the food value of milk, and in a relatively greater degree. Milk is cheap. It is nutritious. It is easily digestible. These are a few of the many things you want to remember about milk and you can do the public a great service by putting these little thoughts in print occasionally.

"But I guess I have talked enough about the food value of milk. It's a subject, however, that I love to discuss, because I believe we ought to talk about things that are important and beneficial. I have noticed that you quite frequently publish articles from the United States Public Health service and other bureaus, relative to milk, and in a relatively greater degree. Milk is cheap. It is nutritious. It is easily digestible. These are a few of the many things you want to remember about milk and you can do the public a great service by putting these little thoughts in print occasionally.

DENIES THAT HE IS DEAD

POLICE VISIT RICHARDSON'S HOME TO BREAK THE SAD NEWS

—BODY FOUND IN MERRIMACK

HAVERHILL, Aug. 11.—A trio of policemen, each with a funeral expression of face, rang the doorbell of the home of Albert Richardson on Locust street, last evening, and waited to tell whoever came to the door that Mr. Richardson had been found drowned in the Merrimack river.

Their astonishment was great when Mr. Richardson himself answered the bell and asked his callers what he could do for them. He was told that a body that had been found in the river during the afternoon had been positively identified as his by several policemen who knew him and that his call had been assigned to convey the news to his nearest of kin.

Mr. Richardson thanked the party for their good intentions, but denied that he had been drowned and after extending congratulations to him they departed. The police are now without a clue as to the identity of the man whose body was found by some one in a cove where it is thought to have lain at least two days.

It is not thought that the body could have come down the river from Lawrence or above, yet no one has been reported missing in this city. The man was between 35 and 40, 50 feet 164 inches in height, and dressed only in a union suit having a laundry mark, "B 162," and a patch on the thigh. The face is smooth shaven and the hair brown.

The harbor police took the body to the Water street engine house, where it was viewed by Medical Examiner Croston, who then had it sent to the morgue.

CHIPPY AN INVENTOR

BUDAPEST, Hungary, Aug. 11.—Barna S. Kohler, a Hungarian captain of cavalry whose military usefulness was ended when he lost an arm, has devised himself since his incapacitation to inventing a wooden-soled shoe that shall have the virtue of flexibility, and announces that he has solved this problem, the hardest that has confronted wooden-soled shoe enthusiasts.

This invention is a sole that, instead of being made of one solid piece of wood, is constructed of a number of layers joined together by heavy oils or fats that chicken and grip the pieces of wood together. After countless experiments Capt. Kohler declares that wooden soles constructed in this manner have the elasticity of leather soles, and in addition can be made of old and worn material worked over.

SHIPPING BILL

Vote to be Reached Late Tomorrow or Monday

WASHINGTON, Aug. 11.—Republicans of the senate indicated today that they would permit a vote to be reached on the administration shipping bill late tomorrow or Monday. This developed while Senators Jones and Gallinger were cross-questioning Senator Simmons about progress on the revenue bill being drafted by a finance subcommittee.

Senator Simmons said he hoped to have the revenue measure ready for the full committee Monday and to report it to the senate Tuesday. While it is being perfected the democrats will call up the workmen's compensation bill or Philippine conference report.

KILLED BY SKIDDING AUTO

BIG TRUCK RAN INTO GANG OF LABORERS AT WEYMOUTH—FOREMAN DEAD

BOSTON, Aug. 11.—Joseph Doccie of Spring lane, Quincy, who was seriously injured yesterday when he and other employees of the Bay State Street Railway company engaged in repairing the tracks on North street, Weymouth, were struck by a skidding auto truck, was reported last night as resting comfortably at the Quincy city hospital. His name continues on the dangerous list.

David Tromps, 40, of 80 Payne street, Quincy, foreman of the gang, was instantly killed. Antonio Rezio, laborer, of 44 Elm street, Quincy, suffered minor injuries and was taken to the Quincy city hospital.

James H. Nichols, of 161 Chelsea street, Charlestown, the driver of the auto truck, was arrested on a charge of manslaughter. He will be arraigned this morning in the Quincy district court. For several years he has been in the employ of the Ferguson bakery in Roxbury.

BEATEN AND ROBBED

PASSENGER ON STEAMER CHESTER W. CHAPIN KNOCKED UNCONSCIOUS

NEW LONDON, Conn., Aug. 11.—George S. Clark of Amherst, Mass., a passenger on the steamer Chester W. Chapin, from New York to this port last night, was beaten and robbed of money and clothing during the trip, according to complaint made to the police today. A stranger with whom Clark shared his stateroom is accused. The stranger disappeared after the steamer docked, and Clark could give only a meagre description of him.

PROTEST AMUSEMENT TAX

WASHINGTON, Aug. 11.—Senator Weeks yesterday received a joint protest, signed by practically every theatre manager in Boston, opposing the amusement tax of one-half of one per cent, which the administration revenue bill proposes to levy. Many Boston playhouses have lost

many women are now fighting in the Slav army.

FUNERALS

CLAYTON.—The funeral of Edmund Clayton was held yesterday afternoon from his home, 123 Fulton street, and was attended by relatives and friends. Rev. A. W. Shaw of St. Anne's Episcopal church officiated at the home and also read the committal service at the grave. The bearers were: T. Johnson, Alex. Williams and Horatius Leggat sang "Sun of My Soul." "Abide With Me," and "Rock of Ages." The floral offerings were in the following: Pillow inscribed "Husband," from wife; heart inscribed "Father," from family; and pieces from George and Harry Clayton of Williamstown, Massachusetts; Harry and Jennie Clayton, grandchildren; Merrimack corduroy department, Mr. and Mrs. Fraser and Alex. Ray, Misses Mae Bradley, Elta McPherson, John Lynch and Jennie Leahy, employees of the D. L. Page restaurant, Mr. and Mrs. Lynde, Mrs. William Bamber, R. A. Griffiths, Mrs. Mrs. Jessy Joy and Mrs. Fletcher, Mr. and Mrs. Keefe, Mr. and Mrs. G. Powell, Mr. and Mrs. Faulkner, Harry Crapan, Mr. and Mrs. Walter Sledge, Mrs. Chamberlain, Mr. and Mrs. Raymond Webb, Joseph Guyette, John O'Grady, Mr. and Mrs. William Ellis, Mr. and Mrs. Logan, Mr. and Mrs. James M. Young, Mrs. W. Ryan, Miss Thea, The bearers were Messrs. E. Clayton, J. Goyette and G. Powell. Burial was in the family lot in the Westview cemetery, under the direction of Undertaker Geo. M. Eastman.

REFUSE TO TAKE OATH

THREE MEMBERS OF TROOP B FILE PETITIONS FOR WRITS OF HABEAS CORPUS

BOSTON, Aug. 11.—Petitions for writs of habeas corpus were filed in the United States district court today by three members of Troop B, Massachusetts National Guard, who claim they are being unlawfully deprived of their liberty at the state mobilization camp. The petitioners are Rockwell C. Tenney, Springfield; Fred B. Angell, Brookline and Alfred P. Lowell, Boston. A hearing will be given August 17 before Judge Lodge who yesterday ordered discharge on a habeas corpus writ of Alexander M. Emerson of the same troop.

The petitioners declared they had refused to subscribe to the new federal oath and that the state, therefore, had no further claim on their services.

G.O.P. WINS BALL GAME

WASHINGTON, Aug. 11.—The annual house baseball game went republican yesterday by a score of 18 to 13. It was the first democratic defeat in four years.

The republican representatives boasted after the game that their well-balanced team was responsible for the victory, but the democrats laid it at the doors of a country Chautauqua. They said the star democratic pitcher, Representative Yates Webb of North Carolina, who for years has held the republicans at his mercy, fell over a bench while reaching out to shake hands with an admirer after a speech in Virginia Wednesday and badly sprained his left arm.

This alibi aroused derision among the republicans, who pointed out that Webb is a right-hander, but the democrats replied that it was a left arm injury that retired Mathewson from the game, though he, too, is a right-hander, and with that they rested their case.

The republicans appeared to be in better condition than their opponents. They used only nine men, though they frequently changed positions.

IRISH EMIGRATION DECREASED

DUBLIN, Ire., Aug. 11.—The Irish emigration returns for the first half of 1916 show a still further decrease on the 1915 figures. In the half year there were 3073 emigrants, which is 985 less than for the corresponding period last year. The decrease is solely due to a reduction of women, which was increased by over 600. One hundred and fifty-two emigrants had their passages prepaid to America. As usual, Ulster has most emigrants and Munster least.

Many women are now fighting in the Slav army.

FUNERALS

CLAYTON.—The funeral of Edmund Clayton was held yesterday afternoon from his home, 123 Fulton street, and was attended by relatives and friends. Rev. A. W. Shaw of St. Anne's Episcopal church officiated at the home and also read the committal service at the grave. The bearers were: T. Johnson, Alex. Williams and Horatius Leggat sang "Sun of My Soul." "Abide With Me," and "Rock of Ages." CAMPAIGN COMMITTEE

Matt Hale of Massachusetts One of Seven Bull Moose Associates to Help Re-elect Pres. Wilson

NEW YORK, Aug. 11.—Vance McCormick, chairman of the democratic national committee, announced last night the personnel of the democratic campaign committee and the associate campaign committee of progressives which will direct the fight for President Wilson's re-election.

The democratic campaign committee has a membership of 20 and the associate campaign committee of progressives is composed of seven. They are, respectively, as follows:

Democratic campaign committee—Vance McCormick, chairman; Homer S. Cummings, vice chairman, Connecticut; Wilbur W. Marsh, treasurer, Iowa; Carter Glass, secretary, Virginia; Henry Morgenthau, chairman national committee, New York; Judge H. H. Huddell, New Jersey; Hugh C. Wallace, Washington; Fred B. Lynch, Minnesota; Thomas J. Walsh, Montana; Albert Smith, Indiana; Simeon M. Johnson, Ohio; William F. Benson, Kansas; W. L. Saunders, New Jersey; Francis Peabody, Illinois; Frank E. Doremus, Michigan; James E. Smith, Missouri; Marcus A. Coolidge, Massachusetts; Calvin McNabb, California; D. C. Roper, chairman organization bureau, and Robert W. Woolley, director of publicity.

Associate campaign committee of progressives—Bainbridge Colby, New York; Matthew Hale, Massachusetts; Albert D. Norton, Missouri; Francis H. Henry, California; J. H. H. Hopkins, New Jersey; Ole Hanson, Washington; W. L. Wallace, Michigan.

Mr. McCormick asserted that the associate committee of progressives would actively co-operate with the democratic campaign committee.

"We have no intention," said Mr. McCormick, "of attempting to absorb the progressive party. We recognize it as an effective group of independent men and women, who are fighting the same progressive principles for which we stand.

"Our desire is to secure their spontaneous and hearty co-operation. We think that the record of the democratic party under President Wilson abundantly deserves that co-operation and we rely upon the party's action in the future to continually justify the support."

President Wilson will meet its members of the democratic campaign committee in Washington, Tuesday, Aug. 15, and the members of the associate campaign committee of progressives on Thursday, Aug. 17, according to Mr. McCormick.

COLBY OUT FOR WILSON

Progressive, Who Nominated Roosevelt, Vets. "Old Guard" Would "Hope and Tie" Hughes

NEW YORK, Aug. 11.—Bainbridge Colby, who nominated Theodore Roosevelt for the presidency at a progressive national convention in Chicago, last night declared himself in favor of the re-election of President Wilson.

In a letter to Vance McCormick, chairman of the democratic national committee, Mr. Colby accepted an invitation to act on a progressive committee, which is to have a co-operative relation with the democratic campaign committee.

Mr. Colby asserted that the opposition to the president's re-election "proceeds from an unregenerate republicanism," of which Charles Hughes is a "decoy and retriever."

Mr. Hughes was elected, Mr. Colby added, "the old guard would not let him and the him, as they did when he was governor in Albany, reducing him to plaintive futility."

FUNERAL NOTICES

COLE.—Died in this city, Aug. 11, at home of his son, Fred H. Cole, 7 East Merrimack street, George Cole, aged 79 years, 2 months and 5 days. Funeral services will be held at 727 East Merrimack street, Sunday afternoon at 2:30 o'clock. Friends are respectfully invited to attend. The funeral arrangements are in charge of Undertaker William H. Saunders.

ESTES.—Died in Georgetown, Aug. 10, Mrs. Dorothy Estes, aged 22 years, 1 month and 10 days. Funeral services will be held at the home of her parents, Mr. and Mrs. Fred A. Estes, 7 Westford street, Sunday afternoon at 2 o'clock. Friends are invited to attend. The funeral arrangements are in charge of Undertaker George J. Healey.

ANOTHER CASE OF PARALYSIS REPORTED

Four-Year-Old Girl Latest Victim of Infantile Paralysis in This City—Case Reported Today

Another case of infantile paralysis was reported today to the board of health. The victim is Lydia Desjardins, four-year-old daughter of Mr. and Mrs. Alfred Desjardins of 121 Billings street. The case was reported by Dr. L. V. Rochette, the family physician, and diagnosed by Dr. Charles E. Simpson, of the state board of health. The Desjardins child was taken ill last Sunday and her illness soon developed into infantile paralysis, her left leg being affected. Dr. Rochette was called in and after treating the child a couple of days, notified the board of health and Dr. Simpson of the state board of health confirmed Dr. Rochette's diagnosis of the case. It is said that the child suffered from infantile paralysis when she was 15 months old and the disease is still

JUMP IN FLOUR

The Staff of Life May Chase the Cow Over the Moon

Flour has taken a record jump in price in the big markets and unless there is a sudden change housekeepers will be confronted with a serious situation. Flour in the wholesale markets is over two dollars a barrel more today than it was last Saturday with the result that the increase will show its effect in this city as soon as the local dealers sell out their present stock. Reports from the big markets indicate that flour will be selling at \$12 a barrel within a very short time. Lowell dealers state that there is no immediate cause for worry on account of the latest advance in price, however, as they have an amount on hand that will keep the stores supplied for some time. It is hoped that by the time the local supply runs out the price will have dropped to normal again.

The price at retail has jumped to \$9.50 a barrel, but this is flour that was purchased by the wholesale dealer a week or more ago. Flour purchased today from the markets could not be sold at retail for less than \$11 a barrel. It is said that there is only a two weeks' supply in Boston and then the new prices will have to go into effect unless there is sudden drop.

The cause of the increase which has alarmed the public as well as the dealers is the reports on the poor crop conditions by the government. Turkey, and the market in Chicago and Minneapolis Wednesday.

IN POLICE COURT

Police Discover New Lodging House in First Street

Nine Lowell men were rudely awakened from their slumbers in cars of the Day State Street Railway Co. in the First street car barn about one o'clock this morning and brought to the police station where they were held as suspicious persons.

They gave their names as Thomas Connolly, McGovern's court; George Harrington, West Fourth street; Frank M. Donahue, Howe street; Charles Mullen, Ennell street; Dennis

CHALIFOUX'S
ON THE SQUARE

Did it ever occur to you how systematic Nature is in cleaning up the remnants of one season to make room for the blossoming of another? If you will observe, she always employs the sharp knife of winter to cut loose the autumn leaves rather than leave them on the trees to be pushed off by spring buds.

Shall we be less enterprising and allow summer goods to remain on our shelves until pushed aside by the heavy coat of fall winter goods? No, indeed! While Jack Frost nibbles at stems and waits for the north winds to clean away the leaves, we produce a trade-wind current by cutting prices half in two, which cleans out whole shelf loads at a time.

BASEBALL AT HIGH NOON

PIRATES AND PIRATES IN DOUBLE-HEADER AT BOSTON TODAY—TO TAKE EARLY TRAIN

BOSTON, Aug. 11.—The innovation of starting a double-header at noon was arranged by the Braves and Pittsburgh for today. As both teams were forced to make late afternoon train connections, this was the only way to crowd in one of the two games postponed yesterday on account of rain. Unless a transfer is effected or an open date filled, Boston and Pittsburgh will be unable to complete their season's series as there is no other available date for playing off yesterday's second game. Double-headers are set for each of the three days of the Pirates' last visit here in September.

PIRATES WIN FIRST
National at Boston first game: Pittsburgh 2, Boston 1.

TURKEY BARS RELIEF

WILL NOT PERMIT RELIEF WORK IN SYRIA WHERE MANY ARE STARVING

WASHINGTON, Aug. 11.—Turkey has refused to grant the request of the United States that a neutral committee be permitted to undertake relief work in Syria where thousands of native Christians are reported to be starving.

Charles Miller of Constantinople in a telegram received at the state department today said the Turkish government had informed him relief operations in Syria were considered unnecessary because crops there were better than anywhere else in the empire and that locusts had damaged only fruit. He adds that although he was told the decision was final he had not dropped the subject but would continue to press for favorable action.

On July 5 the department instructed Charge Miller to call attention to the fact that there had been no action in this matter and to say to the Turkish foreign office that continued failure to heed the request would put a severe strain on the relations between the United States and Turkey.

Syrians in the United States have raised considerable funds to purchase relief supplies for their countrymen and have been waiting for months for permission to have them distributed.

HELD FOR WIFE MURDER

MRS. EUGENE WEEKS, WHO WAS SHOT LAST NIGHT DIED TODAY

KEENE, N. H., Aug. 11.—Mrs. Eugene Weeks, who was shot last night at her home in Westport village, near this city, died today. Her husband was later arrested and held for a hearing tomorrow on a charge of murder.

SERIOUS BREAK IN TEUTONIC LINES

Berlin Admits That Superior Strength of Russian Forces Has Compelled Another Austro-German Retreat—Gains for French, British and Italians

The Russian drive toward Lemberg from the south has caused what apparently is a serious break in the Teutonic lines along and near the Dniester in the Stanislaw region.

Berlin, today admits that the superior strength of the Russian forces has compelled an Austro-German retreat at points in the Monastyrzyska and the Dystritza river regions and on the Dniester. Making a stand, the Teutons finally brought the Russians to a halt. The break in the lines, however, has made a re-grouping of the Teutonic forces necessary and this is now in progress.

With rapid strides the Russians are forcing their way along the Dniester in Galicia in the direction of Halicz, considered one of the main outlying defenses of Lemberg on the south.

Gen. Lechitzky's army already has reached the Dniester to the south of Mariampol, which town is but eight miles southeast of Halicz. Likewise they are pressing toward Halicz farther north, entering the town of Monastyrzyska, on the Stanislaw-Buczacz railroad, directly east of Halicz.

Spreading out in fan-like formation from Gorizia, the Italians are pressing the Austrians to the east and southeast along a 12-mile front. The principal force of the thrust apparently is directed southeast towards Trieste with the probable object of forcing the Austrians from their position in the bend of the Isonzo, south of Gorizia.

British pressure on the Somme front

is being continuously exerted against the Germans in the Bazentin-le-Petit and Pozieres regions. General Haig's forces have made additional progress north of both these places, London announces.

The French in the Somme region evidently are preparing for a new offensive movement, as they are pouring a destructive fire upon the German trenches to the north of the river.

ANGLO-FRENCH FORCES ATTACK BULGARIANS AT DOIRAN

PARIS, Aug. 11.—An attack by Anglo-French forces on the Bulgarians at Doiran, 40 miles northwest of Saloniki is reported in a Havas despatch from Saloniki. The allies occupied the Dolan railway station and a neighboring hill.

In front of the captured positions, the despatch says, the bodies of numerous Bulgarians were found. The attack was preceded by a vigorous bombardment.

At other points along the front, artillery fighting continued with patrol engagements along the Serbian border.

RUSSIANS ADVANCING ON THE SERETH RIVER IN GALICIA

PETROGRAD, Aug. 11, via London, 3:25 p. m.—The Russians are advancing

on the Sereth river, in Galicia, the war office announced today. They have also entered the town of Monastyrzyska, northwest of Stanislaw.

FRENCH OPEN HEAVY BOMBARDMENT OF GERMAN POSITIONS

PARIS, Aug. 11, noon.—The French have opened a heavy bombardment of German positions north of the Somme according to an official statement issued by the war office today.

On the left bank of the Meuse the French took some prisoners in a raid on German trenches east of Hill 304. On the right bank of the Meuse there was skirmishing with grenades about the Thiaumont work. On the rest of the front cannonading was intermittent.

The statement follows: "North of the Somme, our artillery directed a destructive fire against the defenses of the enemy. In the course of our operations we took some prisoners and captured two machine guns in the small wood northeast of Hardecourt."

On the left bank of the Meuse, (Verdun front) we made a surprise attack on a German trench east of Hill 304 and brought back prisoners. On the right bank of the river there was the usual artillery fighting, as well as skirmishing with grenades northwest of Thiaumont work. On the remainder

SPEAKING TRIP ACROSS CONTINENT BY WILSON

President Has Practically Decided to Go to Pacific Coast—Many Want to Hear Him

WASHINGTON, Aug. 11.—President Wilson practically has decided to make a speaking trip across the continent. No details of the tour have been arranged but it was understood today that his itinerary would be worked out within the next few weeks.

The president's advisers have been urging him to make a number of speeches but he had been withholding a decision until the work of congress had progressed further. It was known definitely today, however, that if present plans were carried out the president would go to the Pacific coast.

Senator Phelan today invited the president to speak in California some time during the campaign but was told no definite plans could be taken up for at least two weeks.

One of the suggestions for the proposed trip is for the president to review some of the troops on the border, but no decision on that has been reached.

Invitations from cities in all parts of the country are before the president but none will be accepted until they have been gone over carefully by Vance C. McCormick, chairman of the national committee and other democratic leaders.

The possibility that congress may remain in session after Sept. 1 is preventing the president from making any definite campaign plans. He wants to make no long trips from Washington until after adjournment although he has accepted an invitation for a brief visit to St. Louis Sept. 20.

The president will do much campaigning at his summer home at Long Branch, N. J., where he will receive delegations.

Secretary Baker plans to go to Cleveland Monday to speak there and will open a series of campaign speeches in Maine at Portland Sept. 24.

DEADLOCK IS UNBROKEN

Mediators No Nearer Solution of Problem in Threatened R. R. Strike—May Go to Pres. Wilson

NEW YORK, Aug. 11.—After deliberating the greater part of the night, Commissioners William A. Chambers, Martin A. Knapp and G. W. W. Hanger of the United States board of mediation and conciliation were today no nearer a solution of the "deadlock" in the dispute between the four railroad brotherhoods of the country and their employers than they were yesterday.

The effort of the mediators to avert a nation-wide strike were virtually at a halt due to the fact, it was reported, that the railroads refuse to grant any concession other than arbitration, while the men persist in their firm stand for the unequivocal granting of their demands for an eight-hour day and time and a half over time.

A formal request for 24 hours' delay in the negotiations was made by the federal board to the union men today when they assembled at their meeting hall prepared to receive the mediators and it was reported that the board, unless there was an unexpected change in the situation in that time, was prepared to suggest to President Wilson that he intervene.

Mr. Hanger, who appeared at the meeting to ask for the delay, took pains to point out, however, that no particular significance should be attached to the sudden change in their plans.

"It must be remembered," he said, "that the question at issue involves hundreds of thousands of men and the mediators cannot arrive at a judicious conclusion as to the merits in the case until they have thoroughly assimilated the situation."

Mr. Hanger added that the board expected to continue its deliberations throughout the day, and that by nightfall some decision might be reached as to the time of the next meeting with one or the other side in the dispute.

"We do not intend," said W. S. Stone, chief of the Brotherhood of Railroad Engineers, "to wait very long. The temper of the men is such that they would not have waited a minute if we had not persuaded them to give the mediators a chance. Personally, I do not care to carry the strike vote around in my pocket for any extended period. It is like a stick of dynamite."

Since its organization in 1913 the board has sat on 47 controversies between railroads and their employees. In every instance it has succeeded in securing an ultimate adjustment of the differences.

One report current today was that the railroad managers were ready to propose a different form of arbitration than that provided for under the Newlands act, which the brotherhoods objected to. This was that instead of six arbitrators, two appointed by each side and two neutral, the board consists of four appointed by each side and four or six neutral, making a total membership of 12 or 14. This would make it possible also for each of the four brotherhoods to have an arbitrator on the board.

PRICE ONE CENT

50,000 MILK BOTTLES

Biggest Shipment in City's History Arrives—Dealers May Advance Price of Milk

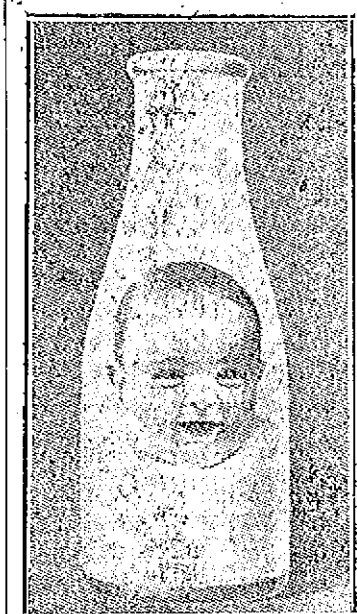

The biggest shipment of milk bottles ever received in Lowell was unloaded in Western avenue yesterday. The number of bottles distributed was over 50,000. The distribution of the bottles, pints and quarts, was a big undertaking and the scene at the point where the unloading took place was a lively one as great crowds had gathered to watch the expert way in which the milk bottles were being juggled.

But the scene held greater interest for the thinking observer than the unloading of the 50,000 milk bottles. What will become of these bottles? Will they be kept clean? How much more are they costing the consumer since the price of glass has advanced? Will the consumer assist the dealer in preserving his bottles? These, probably, are fair samples of questions that suggested themselves to the fellow who was looking on and thinking and they might have been accompanied by that more important question as to the food value of milk.

The unloading of the bottles was in charge of E. R. Leighton, local representative of the Henry E. Wright & Sons, Inc., of Boston, and although Mr. Leighton was a very busy man the writer determined to have a word with him. Mr. Leighton didn't seem to experience any difficulty in talking while he directed the work of unloading and he told the writer that he was always very glad to talk about milk and milk bottles, especially to newspaper men because, he said, he believes the newspaper to be the greatest of all educators, where practical every day questions are concerned.

"You gentlemen of the press," said Mr. Leighton, "can do a great service to mankind by spreading the gospel of cleanliness and pure milk. You can educate the public as to the

milk bottles to the dealers. The price of glass has gone up tremendously within the last year and when I tell you that the milk dealers in Lowell and vicinity are having a hard time to make both ends meet, I know just what I am talking about. It is positively up to the consumer to co-operate with the dealer, especially in the return of bottles, for the dealer needs

FOOD VALUE OF MILK
and suggest to the consumer the great need of economy and co-operation especially in the handling of milk bottles. You can teach the public to be more careful about the return of

all the assistance he can get in order to keep his head above water.

"I do not know of another city in the state where the price of milk is as cheap as in Lowell. It is only 8 cents a quart here while the prices in other cities range from 9 to 12 cents. The only city I know of, other than Lowell, where milk is selling for 8 cents, is Nashua, N. H.

"The larger dealers are reaching out to Lowell for milk. These include the

SHIPPING BILL

Vote to be Reached Late Tomorrow or Monday

WASHINGTON, Aug. 11.—Republicans of the senate indicated today that they would permit a vote to be reached on the administration shipping bill late tomorrow or Monday. This developed while Senators Jones and Gallinger were cross-questioning Senator Simmons about progress on the revenue bill being drafted by a finance subcommittee.

Senator Simmons said he hoped to have the revenue measure ready for the full committee Monday and to report it to the senate Tuesday. While it is being perfected the democrats will call up the workmen's compensation bill or Philippine conference report.

KILLED BY SKIDDING AUTO

BIG TRUCK RAN INTO GANG OF LABORERS AT WEYMOUTH—FOREMAN DEAD

BOSTON, Aug. 11.—Joseph Docile of Springfield, who was seriously injured yesterday when he and other employees of the Bay State Street Railway company engaged in repairing the tracks on North street, Weymouth, were struck by a skidding auto truck, was reported last night as resting comfortably at the Quincy city hospital. His name continues on the dangerous list.

David Twomey, 48, of 59 Payne street, Quincy, foreman of the gang, was instantly killed. Antonio Kario, laborer, of 44 Elm street, Quincy, suffered minor injuries and was taken to the Quincy city hospital.

James H. Nichols, 161 Chelsea street, Charlestown, the driver of the auto truck, was arrested on a charge of manslaughter. He will be arraigned this morning in the Quincy district court. For several years he has been in the employ of the Ferguson bakery in Roxbury.

BEATEN AND ROBBED

PASSENGER ON STEAMER CHESTER W. CHAPIN KNOCKED UNCONSCIOUS

NEW LONDON, Conn., Aug. 11.—George S. Clark of Amherst, Mass., a passenger on the steamer Chester W. Chapin, from New York to this port last night, was beaten into unconsciousness and robbed of money and clothing during the trip, according to complaint made to the police today. A stranger with whom Clark shared his stateroom is accused. The stranger disappeared after the steamer docked, and Clark could give only a meagre description of him.

POLICE VISIT RICHARDSON'S HOME TO BREAK THE SAD NEWS—BODY FOUND IN MERRIMACK

HAVERHILL, Aug. 11.—A trio of policemen, each with a funeral expression of face, rang the doorbell of the home of Albert Richardson on Locust street, last evening, and waited to tell whoever came to the door that Mr. Richardson had been found drowned in the Merrimack river.

Their announcement was greeted when Mr. Richardson himself answered the bell and asked his callers what he could do for them. He was told that a body that had been found in the river during the afternoon had been positively identified as his by several policemen who knew him and that his callers had been assigned to convey the news to his nearest of kin.

Mr. Richardson thanked the party for their good intentions, but denied that he had been drowned and after extending congratulations to him they departed. The police are now without a clue as to the identity of the man whose body was found by some boys in a cove where it is thought to have lain at least two days.

It is not thought that the body could have come down the river from Lawrence or above, yet no one has been reported missing in this city. The man was between 35 and 40, 50 feet 10½ inches in height, and dressed only in a union suit having a laundry mark "R 122" and a patch on the thigh. The face is smooth shaven and the hair brown.

The harbor police took the body to the Water Street engine house, where it was viewed by Medical Examiner Croston, who then had it sent to the morgue.

CRIPPLE AN INVENTOR

BUDAPEST, Hungary, Aug. 11.—Barna S. Kehlener, a Hungarian captain of cavalry whose military usefulness was ended when he lost an arm, has devoted his life since his amputation to inventing a wooden-soled shoe that shall have the virtue of flexibility, and announces that he has solved this problem, the hardest that has confronted wooden-soled shoe enthusiasts.

This invention is a sole that, instead of being made of one solid piece of wood, is constructed of a number of layers joined together by heavy bolts or nuts that thicken and grip the pieces of wood together. After countless experiments Capt. Kehlener declares that wooden soles constructed in this manner have the elasticity of leather soles, and in addition can be made of old and worn material worked over.

CAMPAIGN COMMITTEE

Matt Hale of Massachusetts One of Seven Bull Moose Associates to Help Re-elect Pres. Wilson

NEW YORK, Aug. 11.—Vance McCormick, chairman of the democratic national committee, announced last night the personnel of the democratic campaign committee and the associate campaign committee of progressives which will direct the fight for President Wilson's re-election.

The democratic campaign committee has a membership of 20 and the associate campaign committee of progressives is composed of seven. They are, respectively, as follows:

Democratic campaign committee—Vance McCormick, chairman; Homer S. Cummings, vice chairman, Connecticut; Wilbur W. Marsh, treasurer, Iowa; Carter Glass, secretary, Virginia; Henry Morgenthau, chairman finance committee, New York; Judge J. S. Edwards, New Jersey; Hugh C. Wallace, Washington; Fred B. Lynch, Minnesota; Thomas J. Walsh, Montana; Albert Sahm, Indiana; Simon M. Johnson, Ohio; William F. Benson, Kansas; W. L. Saunders, New Jersey; Francis Peabody, Illinois; Frank E. Doremus, Michigan; James E. Smith, Missouri; Marcus A. Coolidge, Massachusetts; Gavin McNabb, California; D. C. Roper, chairman organization bureau, and Robert W. Woolley, director of publicity.

Associate campaign committee of progressives—Bainbridge Colby, New York; Matthew Hale, Massachusetts; Albert D. Norton, Missouri; Francis J. Heney, California; J. H. Hopkins, New Jersey; Ole Hanson, Washington, and Henry H. Wallace, Michigan.

Mr. McCormick asserted that the associate committee of progressives would actively co-operate with the democratic campaign committee.

"We have no intention," said Mr. McCormick, "to attempt to absorb the progressive party. We recognize it as an effective group of independent

men and women, who are fighting for the same progressive principles which we stand.

"Our desire is to secure their spontaneous and hearty co-operation. We think that the record of the democratic party under President Wilson abundantly deserves that co-operation and we rely upon the party's action in the future to continually justify the support."

President Wilson will meet the members of the democratic national committee in Washington, Tuesday, Aug. 15, and the members of the associate campaign committee of progressives on Thursday, Aug. 17, according to Mr. McCormick.

COLBY OUT FOR WILSON

Progressive, Who Nominated Roosevelt, Says "Old Guard" Would "Hoist and Tie" Hughes

NEW YORK, Aug. 11.—Bainbridge Colby, who nominated Theodore Roosevelt for the presidency at the progressive national convention in Chicago, last night declared himself in favor of the re-election of President Wilson.

In a letter to Vance McCormick, chairman of the democratic national committee, Mr. Colby accepted an invitation to act on a progressive committee, which is to have a co-operative relation with the democratic campaign committee.

Mr. Colby asserted that the opposition to the president's re-election "proceeds from an unregenerate publicanism," of which Charles Hughes is a "decayed and retrieved" Mr. Hughes was elected, Mr. Colby added, "the old guard" would "rob him and tie him, as they did when he was governor in Albany, reducing him to plaintive futility."

FUNERAL NOTICES

COLE—Died in this city, Aug. 11, at the home of his son, Fred H. Cole, 727 East Merrimack street, George Cole, aged 78 years, 2 months and 2 days. The Desjardins child was taken ill last Sunday and her illness soon de-

JUMP IN FLOUR

The Staff of Life May
Chase the Cow Over
the Moon

Flour has taken a record jump in prices in the big markets and unless there is a sudden change housekeepers will be confronted with a serious situation. Flour in the wholesale markets is over two dollars a barrel more today than it was last Saturday with the result that the increase will show its effect in this city as soon as the local dealers sell out their present stock.

Reports from the big markets indicate that flour will be selling at \$12 a barrel within a very short time. Lowell dealers state that there is no immediate cause for worry on account of the advance in price, however, as they have an amount on hand that will keep the stores supplied for some time. It is hoped that by the time the local supply runs out the price will have dropped to normal again.

The price at retail has jumped to \$5.50 a barrel, but this is flour that was purchased by the wholesale dealer a week or more ago. Flour purchased today from the markets could not be sold at retail for less than \$11 a barrel. It is said that there is only a two weeks' supply in Boston and then the new prices will have to go into effect unless there is sudden drop.

The cause of the increase which has alarmed the public as well as the dealers is the report on the poor crop conditions by the government Tuesday, and the market in Chicago and Minneapolis Wednesday.

CHALIFOUX'S
ON THE SQUARE

Did it ever occur to you how systematic Nature is in cleaning up the remnants of one season to make room for the blossoming of another? If you will observe, you will always employ the sharp knife of winter to cut loose the autumn leaves rather than leave them on the trees to be pushed off by spring buds.

Shall we be less enterprising and allow summer goods to remain on our shelves until pushed aside by the heavy stock of fall and winter goods? No, indeed! While Jack Frost nibbles at stems and waits for the north winds to clean away the leaves, we produce a trade-wind current by cutting prices half in two, which cleans out whole shelf loads at a time.

BASEBALL AT HIGH NOON

GRAVES AND PIRATES IN DOUBLE-
HEADER AT BOSTON TODAY—
TO TAKE EARLY TRAIN

BOSTON, Aug. 11.—The innovation of starting a double-header at noon was arranged by the Braves and Pittsburgh for today. As both teams were forced to make late afternoon train connections, this was the only way to crowd in one of the two games postponed yesterday on account of rain. Unless a transfer is effected on an open date filled, Boston and Pittsburgh will be unable to complete their season's series as there is no other available date for playing off yesterday's second game. Double-headers are set for each of the three days of the Pirates' last visit here in September.

PIRATES WIN FIRST
National at Boston first game;
Pittsburgh 2, Boston 1.

TURKEY BARS RELIEF

WILL NOT PERMIT RELIEF WORK
IN SYRIA WHERE MANY ARE
STARVING

WASHINGTON, Aug. 11.—Turkey has refused to grant the request of the United States that a neutral committee be permitted to undertake relief work in Syria where thousands of native Christians are reported to be starving.

Charge Miller of Constantinople in a cablegram received at the state department today said the Turkish government had refused his request for operations in Syria were considered unnecessary because crops there were better than anywhere else in the empire and that locusts had damaged only fruit. He added that although he was told the decision was final he had not dropped the subject but would continue to press for favorable action.

On July 5 the department instructed Charge Miller to call attention to the fact that there had been no action in this matter and to say to the Turkish foreign office that continued failure to heed the request would put a severe strain on the relations between the United States and Turkey.

Syrians in the United States have raised considerable funds to purchase relief supplies for their countrymen and have been waiting for months for permission to have them distributed.

NEXT INTEREST DAY
August 31
NEXT DIVIDEND DAY
OCTOBER 15SERIOUS BREAK IN
TEUTONIC LINESBerlin Admits That Superior Strength
of Russian Forces Has Compelled
Another Austro-German Retreat—
Gains for French, British and Italians

The Russian drive toward Lemberg from the south has caused what apparently is a serious break in the Teutonic lines along and near the Dniester in the Stanislaw region.

Berlin today admits that the superior strength of the Russian forces has compelled an Austro-German retreat at points in the Monastyrzeka and the Bystritsa river regions and on the Dniester. Making a stand, the Teutons finally brought the Russians to a halt. The break in the lines, however, has made a re-grouping of the Teutonic forces necessary and this is now in progress.

With rapid strides the Russians are forcing their way along the Dniester in Galicia in the direction of Halicz, considered one of the main outlying defenses of Lemberg on the south.

Gen. Letchitzky's army already has reached the Dniester to the south of Mariampol, which town is but eight miles southeast of Halicz. Likewise they are pressing toward Halicz farther north, entering the town of Monastyrzeka, on the Stanislaw-Buczacz railroad, directly east of Halicz.

Spreading out in fan-like formation from Gorizia, the Italians are pressing the Austrians to the east and southeast along a 12-mile front. The principal force of the thrust apparently is directed southeast towards Trieste with the probable object of forcing the Austrians from their salient in the bend of the Isonzo, south of Gorizia.

British pressure on the Somme front

is being continuously exerted against the Germans in the Bazentin-le-Petit and Fozieres regions. General Haig's forces have made additional progress north of both these places, London announces.

The French in the Somme region evidently are preparing for a new offensive movement, as they are pouring a destructive fire upon the German trenches to the north of the river.

ANGLO-FRENCH FORCES ATTACK
BULGARIANS AT
DOIRAN

PARIS, Aug. 11.—An attack by Anglo-French forces on the Bulgarians at Doiran, 40 miles northwest of Saloniki is reported in a Havas despatch from Saloniki. The allies occupied the Doiran railway station and a neighboring hill.

In front of the captured positions, the despatch says, the bodies of numerous Bulgarians were found. The attack was preceded by a vigorous bombardment.

At other points along the front artillery fighting continues with patrol engagements along the Serbian border.

RUSSIANS ADVANCING ON THE
SERETH RIVER IN
GALICIA

PETROGRAD, Aug. 11, via London, 2:25 p. m.—The Russians are advancing

on the Sereth river, in Galicia, the war office announced today. They have also entered the town of Monastyrzeka, northwest of Stanislaw.

FRENCH OPEN HEAVY BOMBARD-
MENT OF GERMAN
POSITIONS

PARIS, Aug. 11, noon.—The French have opened a heavy bombardment of German positions north of the Somme according to an official statement issued by the war office today.

On the left bank of the Meuse the French took some prisoners in a raid on German trenches east of Hill 304. On the right bank of the Meuse there was skirmishing with grenades about the Thiaumont work. On the rest of the front cannonading was intermittent.

The statement follows: "North of the Somme our artillery directed a destructive fire against the defenses of the enemy. In the course of our operations we took some prisoners and captured two machine guns in the small wood northwest of Hardscourt."

"On the left bank of the Meuse, (Verdun front) we made a surprise attack on a German trench east of Hill 304 and brought back prisoners. On the right bank of the river there was the usual artillery fighting, as well as skirmishing with grenades northwest of Thiaumont work. On the remainder

BIG FIRE IN BOSTON

Firemen Have Narrow Escape
—On Roof of Building, Cut Off
by Smoke and Flame

BOSTON, Aug. 11.—A number of the men from Ladder Company 5 who were working upon the roof of the five-story brick building numbered 135 North End, this morning, were cut off by smoke and flames for a few minutes and the situation was a serious one for them until Acting Chief John Taber placed ladder 17 in front of the burning building, ran up its "big stick" and permitted them to race down over it to safety.

The building is occupied by W. H. Jones & Co., liquor dealers, which firm was established in 1855.

Two alarms were sounded for the fire, the first from box 1214 at 8:05 and the second at 8:15. The fire was extinguished by 8 o'clock and at that hour the damage was estimated at from \$15,000 to \$18,000. The cause was not determined but the flames originated in the rear of the top floor in inflammable materials used for packing goods to be shipped away. The place where the fire started is near a solid brick wall and also near to the elevator wall through which the fire dropped to the fourth floor, where it was finally checked and extinguished.

The building is surrounded by Hanover, Blackstone, and North Center streets, in a congested district.

For two hours this morning, Sergt. James Wright and Patrolmen Patrick J. Power and James F. Levels of the Hanover street station smoldered the odor from the smoldering fire and searched diligently in the neighborhood to discover it. A few minutes after 5 o'clock they saw the smoke, followed by the flames, coming from the windows on the top floor of the five-story brick building occupied by Jones & Co. Patrolman Power started across the way in the corner of Hanover and Edwitt streets to send in an alarm from box 1214, but just before he reached the box a citizen opened the door and sent in the alarm.

When the firemen reached the scene the flames were raging in the top floor. They began a determined battle against odds and within 10 minutes it was necessary to send in a second alarm.

While the men from Engines 4 and 5 were fighting the fire from the fire

escapes the men from Ladder company 5 went to the roof to fight the flames from above. Gradually the flames were increasing in volume and fury and slowly the men of Engines 4 and 5 were driven back step by step down over the fire escapes. It was then that it was discovered that the men from Ladder 5 were upon the roof with all avenues of escape cut off and with flames and dense smoke reaching up all above them.

First Deputy Chief Taber, who is acting chief in the absence of Chief McDoughough, at once ordered Ladder 11 placed in Hanover street in front of the building and its "big stick" run up against the coping of the roof. Within a few minutes the men of Ladder 5 groped their way through the smoke and found the ends of the ladder and soon were clamoring down to the street. Some of the men were made slightly ill because of the "smoking" they received while on the roof.

It was but a short time after the second alarm apparatus got at work when the fire was placed under control and but a few more minutes when it was completely extinguished. The water came down through the entire building from the top floor and consequently did much of the damage. Mr. Jones of W. H. Jones & Co. reached the scene soon after the fire was officially out. He said his loss is covered by insurance.

For that busy early morning hour in the market district the trolley cars and other traffic through Hanover and Blackstone streets were delayed, between 5 and 6 o'clock. Trolley wires, which were out for the safety of the working firemen, were very quickly repaired, and soon after 6 o'clock all street cars and teaming were being operated on schedule.

WOMAN MAY RECOVER

Jane Dimond, the young woman who was found suffering from gas poisoning in her room at 88 South street Monday morning and later taken to St. John's hospital, has regained consciousness and her condition is such that it is believed she will recover.

WILL OF EBEN JORDAN

SUM OF \$100,000 BEQUEATHED TO
NEW ENGLAND CONSERVATORY
OF MUSIC

BOSTON, Aug. 11.—The sum of \$100,000 to be used toward the reduction of its mortgage, was bequeathed to the New England Conservatory of Music under the will of Eben E. Jordan, filed for probate today. The rest of the estate, the value of which is estimated at several million dollars was left to his family. Mr. Jordan was president of the conservatory and built the Boston opera house some years ago as a home for grand opera in New England.

REPORT THAT CHICAGO CUBS
THIRD BASEMAN IN ON MAR-
KET

CHICAGO, Aug. 11.—Specials today from Brooklyn, where the Cubs are playing, confirm through statements made by Manager Tinker, reports that Heinie Zimmerman, third baseman, is to be put on the market. Tinker is quoted as saying Zimmerman is losing interest in the game.

AN ESCAPED CONVICT

NEW LONDON, Conn., Aug. 11.—Frank Russell, the mysterious postage stamp prisoner, arrested here two weeks ago with \$125 in postage stamps in his possession, has been positively identified by prison authorities at Green Cove Spring, Fla., as Thomas Bennett, who escaped recently after serving four years of a 15 year sentence for bank robbery.

SPEAKING TRIP ACROSS
CONTINENT BY WILSONPresident Has Practically Decided
to Go to Pacific Coast—Many
Want to Hear Him

WASHINGTON, Aug. 11.—President Wilson practically has decided to make a speaking trip across the continent. No details of the tour have been arranged but it was understood today that his itinerary would be worked out within the next few weeks.

The president's advisers have been urging him to make a number of speeches but he had been withholding a decision until the work of congress had progressed further. It was known definitely today, however, that if present plans were carried out the president would go to the Pacific coast.

Senator Phelan today invited the president to speak in California some time during the campaign, but was told no definite plans could be taken up for at least two weeks.

One of the suggestions for the proposed trip is for the president to review some of the troops on the bor-

der, but no decision on that has been reached.

Invitations from cities in all parts of the country are before the president but none will be accepted until they have been gone over carefully by Vance C. McCormick, chairman of the national committee and other democratic leaders.

The possibility that congress may remain in session after Sept. 1 is preventing the president from making any definite campaign plans. He wants to make no long trips from Washington until after adjournment although he has accepted an invitation for a brief visit to St. Louis Sept. 20.

The president will do much campaigning at his summer home at Long Branch, N. J., where he will receive delegations.

Secretary Baker plans to go to Cleveland Monday to speak there and will open a series of campaign speeches in Maine at Portland, Sept. 24.

DEADLOCK IS UNBROKEN

Mediators No Nearer Solution of
Problem in Threatened R. R.
Strike—May Go to Pres. Wilson

NEW YORK, Aug. 11.—After deliberating the greater part of the night, Commissioners William A. Chambers,

Martin A. Knapp and G. W. W. Hanger of the United States board of mediation and conciliation were today no nearer a solution of the "deadlock" in the dispute between the four railroad brotherhoods of the country and their employers than they were yesterday. The efforts of the mediators to avert a nation-wide strike were virtually at a halt due to the fact, it was reported, that the railroad men were today no nearer a concession than arbitration, while the men persist in their firm stand for the unequivocal granting of their demands for an eight-hour day and time and a half overtime.

A formal request for 24 hours' delay in the negotiations was made by the federal board to the union men today when they assembled at their meeting hall prepared to receive the mediators and it was reported that the board, unless there was an unexpected change in the situation in that time was prepared to suggest to President Wilson that he intervene.

Mr. Hanger, who appeared at the meeting to ask for the delay, took pains to point out, however, that no particular significance should be attached to the sudden change in their plans.

"It must be remembered," he said, "that the question at issue involves hundreds of railroads and thousands of men and the mediators cannot arrive at a judicious conclusion as to the merits in the case until they have thoroughly assimilated the situation."

Mr. Hanger added that the board expected to continue its deliberations throughout the day, and that by nightfall some decision might be reached as to the time of the next meeting with one of the other side in the dispute.

"We do not intend," said W. S. Stone, chief of the Brotherhood of Railroad Engineers, "to wait very long. The temper of the men is such that they would not have waited a minute if we had not persuaded them to give the mediators a chance. Personally, I do not care to carry the strike vote around in my pocket for any extended period. It is like a stick of dynamite."

Since its organization in 1913 the board has sat on 47 controversies between railroads and their employees. In every instance it has succeeded in securing an ultimate adjustment of the differences.

One report current today was that the railroad men were ready to propose a different form of arbitration than that provided for under the Newlands act, which the brotherhoods object to. This was that instead of six arbitrators, two appointed by each side and two neutral, the board consist of four appointed by each side and four or six neutral, making a total membership of 12 or 14. This would make it possible also for each of the four brotherhoods to have an arbitrator on the board.

HELD AT BUENOS AIRES

MOTT INDICTED IN NEW YORK
FOR CONSPIRACY, BRIBERY AND
GRAND LARCENY

ALBANY, N. Y., Aug. 11.—Charles F. Mott, indicted on a charge of conspiracy, bribery, grand larceny and for presenting false vouchers in connection with the construction of the Onondaga county tuberculosis hospital, has been arrested in Buenos Aires, Argentina, according to a cablegram from Deputy Attorney General Becker to Attorney General Woodbury. Mr. Becker cabled he believed Mott would return to this country without fighting extradition.

WIDE OPEN CITY

Boston in Danger, Says
Anti-Saloon League—
See Women at Bar

BOSTON, Aug. 11.—Boston is in danger of becoming a "wide open" city if the present licensing board shares the governor's conception of its duties, and is strictly bound by statute law, in the opinion of the headquarters committee of the Massachusetts Anti-Saloon League, which yesterday held a special meeting and issued a statement on the licensing board controversy.

Women at the Bar

There is absolutely no reason why all the saloons in Boston cannot serve liquor to women in back rooms or even at their bars, if the governor's theory of the board's authority is to be accepted by the present board, declares the headquarters committee.

The committee wants to know, and asks the governor directly, if he would set aside certain regulations formulated by the licensing board, one of which actually makes it impossible for a woman to secure a drink over the bar in this city.

The committee wants to know if the governor would set aside the regulation under which licenses were held up in hotels where soliciting was going on, if he would ignore the regulation against "treating on the house," the regulation which would keep saloons a specified distance from private schools, and many others which were passed for the purpose of raising the moral standards in Boston's drinking places.

Not Improved One iota

The statement asserts that conditions are not improved one iota by the ban on certain practices provided by the statute law, and that only the action of the old licensing board in holding up licenses accomplished results for good.

Superintendent Arthur J. Davis of the league, presided at the committee meeting and the entire situation relative to the affairs of the licensing board was gone into with particular reference to the appointment to the board of Fletcher Runney to succeed Robert A. Woods and the resignation of Charles R. Gow. All of the statements issued in the licensing board controversy were read and discussed in detail, the statement issued by Governor McCall in response to that of former Chairman Gow receiving the strictest attention.

FITZGERALD WITHDRAWS

FORMER MAYOR OF BOSTON WILL NOT BE CANDIDATE FOR U. S. SENATOR

BOSTON, Aug. 11.—Former Mayor John F. Fitzgerald announced yesterday that he would not be a candidate for the United States senate on the democratic ticket. This statement, Mr. Fitzgerald said, was made in order that former Gov. David I. Walsh might "not be embarrassed in his decision of the question of his candidacy" for the same office.

SOCIAL AND FRATERNAL

A well attended meeting of Central council, A.O.H., was held last night and the different sub-committees submitted reports on arrangements for the state convention which is to be held here on August 21, 22 and 23. The committee in charge of the banquet reported all arrangements completed and that a number of prominent speakers had been secured. President Sheahan reported the only obstacle was in securing rooms for the delegates at the convention and all those residents who will have rooms vacant during the days of the convention are requested to notify the president, or any officer or member of the committee. The committee on decoration reported that the hall for the convention and the banquet will be appropriately decorated. The whole committee will meet again on Sunday morning when further reports will be heard.

Sleep Well
Hot NightsSanfords
Ginger

Relieves fatigue, nerve strain, weakness, and intestinal indigestion, the latter often the cause of sleeplessness. A panacea for ills incidental to travel. Always helpful and healthful.

A delicious combination of ginger, aromatic and French brandy for the relief of cramps, colic, colds, chills, weakness, nervousness and indigestion. Look for the Old Trade Mark on the wrapper, lest you get a cheap, worthless, dangerous substitute. Forty years the standard of purity, flavor and strength. Sold by all druggists and grocers.

LOWELL GIRL DROWNED

Dorothy Estes Loses Life in
Pentucket Pond in Attempt to
Save Blind Child

Miss Dorothy Estes, 22 years old, of Lowell, a teacher at the Perkins institution for the Blind in Boston, lost her life in Pentucket pond in Georgetown, yesterday afternoon, in a vain

DOROTHY ESTES

effort to save from drowning one of her 15 blind charges, Bessie Stenosky, 15 years old, of Chelsea, after the latter, mistaking the direction of the shore, had walked out beyond her depth. Both were drowned in 15 feet of water.

Miss Estes went to Georgetown three weeks ago, with a group of blind girls from the institution. The party was in a delightful camp opposite York Grove, occupying the Longfellow cottage. While other campers, blessed with all their faculties, took daily diversion by bathing in the pond, the

young blind girls contented themselves with wading in the shallow places, under Miss Estes' oversight.

Held in Fatal Clasp

Several of them were thus enjoying themselves yesterday afternoon, when it was observed that the Stenosky girl was well out. Miss Estes called to her to come back to the shore. The girl mistook the direction, turned, and waded toward the middle of the lake. Miss Estes, who could swim, ran into the water, and caught up with Bessie, who was floundering helplessly in water nearly over her head. The blind girl, convulsed with fright, clasped her arms about Miss Estes' neck, and in the struggle that ensued, both were carried still farther out, and finally under.

Henry Longfellow, who owned the cottage occupied by the party, and was passing his vacation in the one adjoining, brought the body of Miss Estes to shore within a very short time, and tried first aid methods of resuscitation. Meanwhile Dr. Richmond H. Root, medical examiner for the district, came post haste in an automobile, and continued for one hour efforts to restore life. At the end of that time he pronounced the young woman dead, and ordered the removal of the body to the undertaking rooms of Deane and Childs, Haverhill.

Some one notified the board of selectmen, and Selectmen Michael Buckley and Frank Knappland grappled for two hours for the body of the Stenosky girl before they found it, in 15 feet of water. Dr. Root ordered its removal to Haverhill.

Her Sister Barbara

Dorothy Estes was counselor of the camp. Her sister, Barbara Estes, was away from the camp at the time of the accident, but arrived when efforts were being made to resuscitate her sister. She assisted to the best of her ability. After all hope of saving her sister's life was abandoned, she controlled her grief and declared she would bear the sorrowful news to her family and started for the city.

The body of Dorothy Estes was brought to this city last evening. Graduate of Wellesley

Miss Dorothy A. Estes was the eldest daughter of Mr. and Mrs. Frederick A. Estes of 715 Westford street.

She was graduated from Lowell High school in 1912 as salutatorian of her class and a Carney medal scholar. She was graduated this year from Wellesley college and was to have begun in the fall a postgraduate course in teaching in Columbia university. She intended to devote herself to social work and her work among the blind was part of her preliminary training.

Fall Caused Blindness

Miss Bessie Stenosky was the youngest daughter of Jacob Stenosky, janitor of the Hebrew school in Chelsea, and up to three years ago was employed in a Boston store. It was while working here that she had the fall which was the cause of her blindness. As a result of the accident a suit is now pending. Miss Stenosky attended the Chelsea public schools.

BEATEN UP BY POLICE

LIVELY FIGHT IN BOSTON LODGING HOUSE—TWO POLICEMEN KNIFE

BOSTON, Aug. 11.—David Sokol, a West End lodging housekeeper, who recently figured in the alleged "police graft" case in connection with the payment of money to Abraham Luchick for alleged police protection for Sokol's house, was badly beaten up last night by Patrolman Owen J. Donnelly and Egan W. Morgan of the Joy street station.

The police claim Sokol resisted arrest, and that his family turned upon them, striking them and using a knife.

Sokol is at the relief hospital in a serious condition with three ribs broken, scalp wound, contusions of the face, shoulder, chest and arms. The affair happened at the house 21 Standard street. During the fight Sokol's wife, her mother and a 17-year-old son, Hyman, took part.

Donnelly, Donnelly and Morgan were sent to the house to arrest Sokol on a warrant charging him with assault and battery upon Egan, Goodman of 11 Ashland street a week ago. The older Sokol refused to go with the officers and declared that he would never enter the Joy street station again. Both officers then produced the warrant and told Sokol that they were going to take him.

In an instant the battle began. Sokol broke away from the officers and tried to make his escape. It was at this point that his wife and her mother, the police claim, took a hand in the affair.

The wife of the woman, and the noise caused by the overturning chairs, tables and other pieces of furniture drew a large crowd.

Despite the efforts of the officers they were unable to take Sokol from the room. It is charged that the son, Hyman, grabbed a bread knife and made several attempts to cut Donnelly with it.

Morgan grabbed young Hyman's wrist and in doing so received a cut finger. Patrolman Donnelly was also cut on the hand.

The boy then made his escape, but was later captured by the officers when he returned to the house. He was booked at the Joy street station charged with assault with intent to kill Patrolman Donnelly.

Sokol was finally quieted down, but not until both officers had used their clubs upon all parts of his body. He

was taken from the house and driven in the patrol wagon to the station house. Dr. Duvalley examined him and ordered his removal to the hospital.

Both officers had their injuries treated at the station house. Patrolman Donnelly claimed that during the fight he was kicked several times in the groin and he was sent home.

Patrolman Morgan returned to duty after the physician had treated his hand.

CONSUL FROM CHILE

Sr. David G. Montt has been appointed by the Chilean government as consul at Wellesley Hills, Mass. Mr.

Montt is the foreign trade expert for the state board of labor and industries. Commissioner of Labor Edwin Mulready alleges that Massachusetts manufacturers are fortunate in being able to secure Mr. Montt's services, free of charge, through the state board of labor and industries, at all times in promoting the industrial development of this state. As consul, Mr. Montt is even better qualified to serve Massachusetts manufacturers in extending their trade.

TEN NEW ZEPPELINS

COPENHAGEN, Aug. 11.—The Germans, says a report received here, have just completed and placed in a huge shed at Darnstadt, ten Zeppelins of 520 feet in length with a gas capacity of 19,675 cubic feet. In the shed is provision for machine guns and for light pieces of ordnance.

The newest Zeppelins are said to have four armor-plated cars, of which the first is the heaviest. All the cars are fitted with guns. Armor plated gangways connect the cars. The engines indicate 1,000 horsepower, and the speed is 57 miles an hour. These ships can reach a height of more than 12,000 feet.

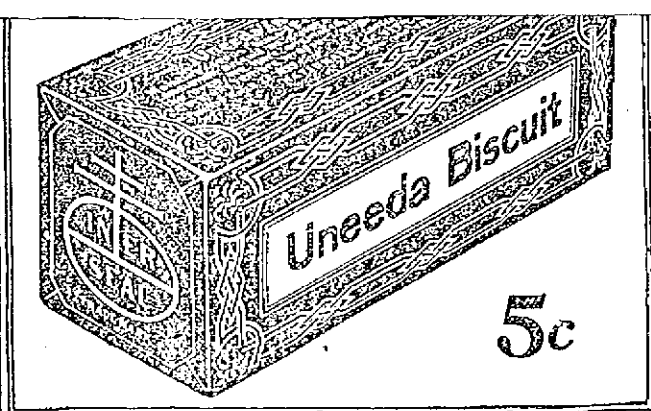

BACHELOR GIRLS' PARTY

A very enjoyable dancing party and song revue was held last night at the Casino in Thordike street, under the auspices of the Bachelor Girls. Music for dancing was furnished by Broderick's orchestra. Tomorrow night the members of the organization leave for a two weeks' vacation at Salisbury beach, where they will occupy the White Swan cottage and last night's social was in the nature of a farewell party.

Dancing started during the early part of the evening and continued until a late hour. A splendid song revue was given at 9:30 o'clock. In this a chorus of club members marched to a position in front of the orchestra, wearing white coats and bouquets of dark red roses. The solos were rendered by Misses Madeline Boland, Frances Winn, Rose Nicholson and Helen McPherson. Besides these, in the chorus were Misses Agnes Nicholson, Rita Holman, May King, Mary and Elizabeth Tyres, Julia Boland, Mary Griffin, Estelle Gurney, Isabel Burns, Madeline Peterson, May Finn, Margaret Tobin, Mary T. Gallagher, Nancy Swift, Mrs. Edna Finnegan and Mrs. Catherine Clossy.

Those in charge of the affair comprised the following: Miss Mary T. Gallagher, president; Mrs. Edna Finnegan, vice president; Miss Madeline Boland, secretary and Mrs. Catherine Clossy, treasurer.

When President Wilson ordered the National Guard to the Mexican border, Mrs. Charles E. Hughes, Mrs. L. M. Garrison and Mrs. George W. Wickershaw conceived the idea of a Women's American Supply League and are seeking the co-operation of all women who have time and money to give forward to their aims.

SON OF A KING

Pretender to the Serbian Throne is Good Waiter

VIENNA, Aug. 11. (Correspondence of The Associated Press.)—One of the illegitimate sons of the late King Milan of Serbia, known as the Christlich brothers, who have been pretend-ers to the Serbian throne, is now a waiter in a dining car running between Vienna and Budapest, according to an alleged discovery of a newspaper man who formerly knew the Christlich brothers.

When King Milan died he entrusted one of these boys, whose mother was the beautiful Artemesia, to his life-long friend, Count Eugen Zichy of Budapest. The latter for years treated him as an own son, supplied him plentifully with all material things, and then died without remembering him in his will or without making any provision for him. Thus falling suddenly from comparative affluence to poverty, the man dropped out of sight completely. His present discoverer, who was making a trip from Budapest to Vienna, and who knew the Christlich brothers in the old days when Count Zichy was alive, was surprised to find that the waiter who served him so noiselessly and competently was no other than one of these Christlich boys. The latter with some reluctance told him that he had tried to

INFANTILE PARALYSIS

SPECIAL REPORT ON CHILD MALADY ISSUED TODAY BY STATE BOARD OF HEALTH

Special to The Sun.
STATE HOUSE, Boston, August 11.—A suggestion that nearly all persons have had anterior poliomyelitis, or infantile paralysis, in a mild form, and in that way have become immune, is contained in a special report issued today from the state department of health on the present outbreak of the disease in this state.

It is admitted that the suggestion may seem far-fetched, but it is advanced because there seems no other theory on which to account for the inconsistencies which appear in the transmission of the disease.

"While the nature of the infection is known," the report says, "and while it is maintained that it is transmitted by contact, the evidence seems conflicting, since in the majority of instances there is but one case in a family, even though there may be from two to six or eight or more children in the household, and the contact of the most intimate nature. While other cases occur in remote, isolated sections, with no discoverable evidence of contact. Manifestly in view of such experiences it is reasonable to assume that some further factor at present unknown enters into the transmission of the disease and that it is much less readily transmitted than measles, whooping cough, diphtheria, etc."

"Until more definite knowledge is obtained, preventive measures will of necessity be uncertain in their results, and should be reasonably modeled on analogy to other better known communicable diseases, such as diphtheria or scarlet fever, and should not

be made too drastic, not be permitted unreasonably to interfere with traffic. The sick room should be screened to keep out flies and other insects. "The patient and attendant should be isolated and children in the household detained from school and kept under observation. Since the infectious agent is known to be contained in the secretions of the nose and throat and bowel discharges, all such discharges should be thoroughly destroyed or disinfected."

Quarantining of an entire community, as has been done by the state of Pennsylvania, is ridiculed by the department. On this point it says: "The attempted extension of rigid quarantine of one community against another merely because cases of infantile paralysis have occurred in the other, especially as applied to adults who have had no known contact with cases, is unreasonable and the result of a panic fear, not founded on common sense."

"Persons coming from an infected area may properly be kept under observation for two or three weeks and the people of each community should co-operate with the local health authorities to the extent of notifying them promptly of any suspicious illness, and by consulting the family physician early, even if the illness appears trivial."

As to the extent of the disease in this state, the department says:

During the early part of the year, 36 cases of infantile paralysis were reported throughout the state of Massachusetts. A marked increase occurred in July, when there were reported 110 cases, 10 of which upon investigation proved to be negative or doubtful.

"Westfield, North Adams, Dudley, Webster, Worcester, New Bedford, Fall River and the metropolitan district constitute the chief centers of infection, though it is a striking feature that Boston itself has been comparatively free from the disease."

"Cases of infantile paralysis were reported in July as follows: New Bedford and Westfield, 10 each; North Adams, 9; Boston and Worcester, 7 each; Fall River, 5; Dudley, Palmer and Webster, 3 each; Adams, Hingham, Lawrence, Lowell, Marlboro, Medway, Newton, Pittsfield and West Springfield, 2 each; and one case each in Barnstable, Bridgewater, Dartmouth, Easthampton, Fairhaven, Fitchburg, Greenfield, Hanover, Haverhill, Hawley, Holyoke, Malden, Maynard, Middleboro, Needham, Norwood, Peabody, Plymouth, Quincy, Raynham, Revere, Sharon, Sheffield, Somerville, Taunton, Townsend, Weston, Woburn and Worthington."

"Children coming from New York constitute 10 of these cases, while 7 others are known to have been in contact with cases of persons from New York."

"The age distribution of the cases so far reported is practically the same as in previously reported outbreaks and as in the present epidemic in New York. Cases under one and over 15 years of age are very few, with the great majority of cases between 1 and 10 years of age."

"While the reports are as yet incomplete, it is known that there were nine deaths from the disease in July, and a large percentage of these occurred in cases reported from New York."

HOYT.

THEY COME HIGH

Boston Girl Asks \$5000 for a Lone Kiss—Files Suit

BOSTON, Aug. 11.—Five thousand dollars is the price Esther E. Poppel of Boston asks for a kiss.

This became known yesterday when the young woman filed a suit against Stephen M. Saraf of 312 Boylston street, an Oriental rug dealer.

Saraf lives at 553 Columbus avenue, but the residence of the young woman is not stated in her bill of complaint.

Miss Poppel alleges that Saraf on Feb. 26 last committed assault, when he held her prisoner against her will and "violently and with great force" against her wishes kissed her.

The bill was filed yesterday in the Suffolk court. The case will come up for trial probably in the October session.

IT WAS SOME HIKE

TWO REGIMENTS OF MARINES COVER SEVENTY-SIX MILES IN TWO DAYS

WASHINGTON, Aug. 11.—What is believed to have been one of the longest tropical hikes ever made by American troops thrown on their own resources in a hostile country, was the hike made by the Eighth company, Fourth regiment of United States marines, when it covered in a day and a night, on July 2nd and 3rd, the 111 kilometers between Monte Christi and Santiago, Santo Domingo, after fighting most of the way. It is seventy-six American miles between these two points and the hike was the third longest ever made by the United States Marine corps, under any circumstances that approached warfare.

With a handful of U. S. marines, Colonel Pendleton maintained unbroken, an eighty mile line of communication, and the quick settling of the Dominican trouble is probably due, in the opinion of Marine corps officials, to the rapid hiking of the marines to the interior of the country. The natives have been disarmed and there is no further fighting.

The expeditionary force, under Colonel Pendleton of the Marine corps, consisted of two regiments of marines.

FOR TESTING BOXES

NEW MACHINE DEvised BY ENGINEERS OF THE FOREST SERVICE AT MADISON

WASHINGTON, August 11.—A machine for testing the strength of boxes has been devised by engineers of the forest service and is in use at the Forest Products laboratory at Madison, Wisconsin. The machine is the result of experiments made to determine a fair test for all types of boxes. A series of tests in co-operation

with the American Society for Testing Materials and the National Association of Box Manufacturers has been carried on during the past year to determine the strength of boxes of various woods and of different construction. Over four and a half billion feet of lumber is used for box making every year, and on this account the tests are considered important. Moreover, big losses are caused by the breakage of boxes in transit, and all parties concerned are said to be anxious to determine the best kind of box.

The machine consists of a hexagonal drum with 35-foot sides, which is lined with thin steel sheets. Pieces of scantling bolted to the bottom form what are known as "hazards."

In making the tests boxes filled with cans containing water are placed in the drum, which is then rotated. For convenience in observing the results of the tests, the slides and ends of the box are numbered with large figures, and in addition other numbers are placed to be carried part way around and then dropped back to the lower lever of the drum. Each fall of this sort is a pretty fair imitation of the probable treatment it would receive in shipment. The boxes are watched carefully, and notes are taken on the manner in which they give way and the number of falls required to break them in pieces.

In this way, say the officials who have conducted the tests, it is possible to determine what kinds of woods are best suited for boxes. The tests showed a decided need for a standard classification of box woods, and three groups have been made, based on the data which was obtained.

The tests also show the best methods of box construction. The experts

FRIDAY and SATURDAY

HAVE YOUR PICK—SUIT TO ORDER

I want my old customers to take advantage of this sale. Come in, pick out two or three suits, and if you are not in a hurry, let me take two weeks or a month to make them. The price will be—

SUIT TO ORDER.....

\$10.00

AUGUST SALE OF ENDS

The accumulation of all ends in my store regardless of former prices; not a yard of these goods was bought to sell under \$12.50, \$15.00, \$18.00 and \$20.00, and are guaranteed absolutely wool and worsteds. Most of them have cloth enough to make three-piece suits. I have them in all shades, dark grays, blues, blacks and all style colorings. My motto today is the same as in the past: Never carry goods from one season to another. I intend to start the Fall season August 20 with brand new, fresh goods, Globe Worsteds, Standish Worsteds, Blue and Black Serges, Sherreff's Worsteds included.

WARNING—Woolens will be higher—they cost 25 per cent. more today than six months ago. Canvases, linings and trimmings are starting to soar. I can assure the man who orders a suit today or Saturday, even if he does not take it for two months, of the lowest prices that he or I may ever live to see, values considered.

ORDER NOW—YOU CAN HAVE YOUR SUIT IN A WEEK OR YOU MAY LEAVE IT FOR TWO MONTHS

Your Choice of Any Suit End in This Store—No Two Patterns Alike—In Various Colors, Including Some

say that one of the most striking things brought out was the inadequacy of the ordinary methods of nailing up boxes. The number of nails used and the way they are put in are important. One nail more to the side of a box will give it a great deal more strength than might be thought. The nails should not be driven too deep into the wood. In many cases, it is said, proper nailing will allow a reduction of the amount of lumber used without any decrease in the value of the box. Boxes with cleated ends were found to be much stronger than those without cleats.

As a result of the tests made at the

Forest Products laboratory, tentative specifications for boxes used in shipment of canned goods have been drawn up and submitted to the various parties interested, for discussion.

Plans were made recently in New York for a woman's motor brigade as an adjunct to the National Guard, to be ready to act in an emergency. The brigade will consist of three divisions of automobile owners, women who drive their own cars, women who will learn to drive them and women who will allow the use of their cars at all times.

GRAND CIRCUIT

Walter Cox Landed the
2:10 Trot at Pittsburg
Yesterday

PITTSBURG, Aug. 11.—Walter Cox, the New Hampshire trainer, piloted the winner of the feature race at the Brunots Island track yesterday, his bay stallion Director Todd landing first in the 2:10 trot, the best contest of the meeting to date. It was the third victory out of four starts for the stallion this season, and he trotted the best race yesterday he has shown.

Guy Nella of the Geers stable, driven by Snow, was the favorite, but Cox started early with Director Todd, taking him to the front at once and not losing the lead until close to the wire in the third. There was a big plunge on Guy Nella for the second heat, but after racing Director Todd all the way, she fell a bit short at the finish in 2:07 1/2, which won the race, though a third heat was necessary. The Cox stallion led until close to the wire, where both Guy Nella and Esperanza passed him, the former winning in 2:05 1/2, the fastest trotting heat of the meeting.

Derby Custer, favorite, had only to parade three heats to win the 2:17 pace. In the 2:17 trot Lindsay had been selected as the best, but he also failed the favorite players. Sister Stung, driven by Valentine, who has other Grand Circuit driver this season, won the first heat, but was beaten in the second by Helen Worthly. The pair had a hot argument in the final, Sister Stung coming from behind and beating Worthly's mare by a narrow margin. The summary:

SHORT SHIP CIRCUIT

WORCESTER, Aug. 11.—The Short Ship Circuit races, scheduled to be opened in Worcester on Tuesday, were postponed for the third time yesterday because of unfavorable weather.

FAMOUS BOOKMAKER DEAD

NIAGARA FALLS, Ont., Aug. 11.—Joe Yeager, famous as a bookmaker, died here yesterday. He was operated on for appendicitis a week ago and came here to recuperate. His body was sent to Buffalo for cremation.

LIST OF BIG LEAGUERS

MANY RELEASED UNDER OPTIONAL AGREEMENT NOW PLAYING IN EASTERN LEAGUE

CINCINNATI, O., Aug. 11.—The National baseball commission yesterday made public a list of all major league players who have been released to minor league clubs under approved optional agreements, which contain a clause conferring on the releasing club the right to re-purchase the release of the player at specified terms on Aug. 15.

A number of options which include only a money consideration on the side of the minor league club are also included in the list, which follows, in part:

NATIONAL LEAGUE

By Boston—To Providence, Blackburn, \$500; To Louisville, Compton, \$1500, option to repurchase for \$3000; By New York—To New London, Rodriguez, \$300.
By Philadelphia—To New London, Fortune, \$300; Fish, \$300; Weiser, \$300; To Providence—Baumgartner, \$300, and Timm, \$500.

AMERICAN LEAGUE

By Boston—To Buffalo, Holmes, \$300; O'Neill, \$300; McDonald, \$300; Smith, \$300; Wilder, \$300; Anderson, \$300; McCabe, \$300; Hais, \$300; Gregg, \$300; Penick, \$300; To Montreal, Devine, \$300, option transferred to New Haven; To Fort Worth—Johnson, \$300; To Hartford—Fennan, \$300; To New York—Shuler, \$300.
By Cleveland—To Portland, Harstad, \$300; Kelly, \$300.
By Detroit—To Springfield, Haines, \$300; To Providence—Kelle, \$600.
By Philadelphia—To New Haven, Bressler, to be returned if not drafted.
By St. Louis—To Portland, Vaughn, \$300; Sothern, \$300.

AMERICAN LEAGUE RACE

THIS YEAR'S FIGHT FOR PENNANT

BEST ON RECORD—STANDINGS FROM 1911

NEW YORK, Aug. 11.—The present race in the American league is conceded by all veteran baseball fans to be the closest staged in many years on major circuits. In fact the claim is made that there is nothing in big league history to equal it and a search of the records of recent seasons bears out this contention. On August first, seven of the eight clubs composing the Junior association had a percentage of

500 or better. St. Louis held seventh place with a 50-50 standing while the Athletics in last place were 233 points behind the Browns.

Boston in first place was but three points ahead of Chicago and the New York Yankees, which led the league for some weeks, were in third place, 33 points behind the leaders and four points ahead of Cleveland in fourth position. Between Boston in first place and St. Louis in seventh there were just 79 points difference in percentage of 72 games. With something like 10 weeks of play remaining any one of these seven clubs must be conceded a chance for the 1916 pennant and the situation is unique in the history of the big league pennant races.

During the last five years the leading club on the first of August with its lead in points over the second place holder was as follows: 1911, Detroit, 26 points; 1912, Boston, 62 points; 1913, Philadelphia, 72 points; 1914, Philadelphia, 72 points; 1915, Boston, 13 points. With the exception of 1911 the club leading on August first finally won the pennant and participated in the world series. In 1911 Philadelphia won the lead from Detroit late in the season and held first place to the end of the campaign.

For the purposes of comparison and the standing of the American league clubs on Aug. 1 each year from 1911 are appended:

American League

TY AFTER MORE HONORS

GEORGIA PEACH HAS HELD BAT- TING RECORD FOR NINE YEARS

AND IS AFTER SPEAKER AGAIN

Though Tris Speaker is threatening to break up the adjustment of things in the well known American league by making a bid for the year's batting crown held for nine consecutive years by the famed Ty Cobb, the Detroit worthy has shown a tendency to come through towards the finish of the season in his previous big years and fans are still looking for a real drive, that will place him ahead of Speaker, and at the top of the league swatmen before October comes around. The last announced figures showed Speaker with a .337 average, and Cobb 40 points behind with .347, but Ty has overcome a lead before, and it is freely predicted that he will again accomplish this feat, despite Speaker's terrific pace set with his bludgeon this summer.

The Dixie Dareddevil has been further in the hole at this stage of the season before, but he always has finished in front. Nine times the Georgia Peach won the batting championship. Honus Wagner only led his league eight seasons and he will never do it again. "Larry" Lagide, Pop Ames, Dan Brannan and Ross Barnes were great wallpapers, but four seasons was the limit for them to be the champion batsman, and Cobb is out after his 10th championship.

Here is the way the three leaders finished since the reign of Cobb:

Year	Name and club	No. of Bat- tings	P.C.
1907	Tyrus P. Cobb, Detroit	159	.350
	D. Kay, Washington	25	.333
	Al Orth, New York	43	.324
1908	L. Chris, St. Louis	141	.321
	T. R. Cobb, Detroit	150	.324
	J. Delebanty, Wash.	83	.317
1909	T. R. Cobb, Detroit	156	.317
	E. Collins, Phila.	153	.316
	N. Lajoie, Cleveland	123	.314
1910	T. R. Cobb, Detroit	140	.315
	N. Lajoie, Cleveland	159	.314
	Tris Speaker, Boston	141	.313
1911	T. R. Cobb, Detroit	141	.313
	J. Jackson, Cleveland	147	.313
	S. Crawford, Detroit	140	.315
1912	T. R. Cobb, Detroit	140	.315
	N. Lajoie, Cleveland	152	.315
	Tris Speaker, Boston	153	.313
1913	T. R. Cobb, Detroit	122	.313
	Claf Henriksen, Boston	30	.315
	T. Jackson, Cleveland	145	.313
1914	T. R. Cobb, Detroit	97	.313
	E. T. Collins, Phila.	152	.314
	Tris Speaker, Boston	158	.315
1915	T. R. Cobb, Detroit	152	.313
	E. T. Collins, Chicago	155	.312
	Tris Speaker, Boston	150	.312

DIAMOND DAZZLES

The White Sox fell under the attack of the Red Sox in the final game of the most important series of the season thus far, and hence the Bostonians left the Windy City last night with a firm hold on first place. Chicago by its poor showing against the world's champions dropped into third place, and Cleveland advanced a peg.

Baseball at high noon, an absolutely new plan, was on the card at Braves' field today. The postponement of the last two days made it necessary for a double-header today and as the Pittsburgh boys have to catch a train shortly after a o'clock there was only one way to play the double bill and that was to start at noon. The box office opened at 11:45 o'clock, giving fans an opportunity to go without

"eats" to see a ball game.

The Braves and Dodgers open a series tomorrow that will have a whole lot to do with the race for honors in the National league. Brooklyn now leads Boston by four games and the Braves will have to show some real class to overcome this lead.

Pitcher Tony of Cincinnati is the hard luck man of the National league after being beaten by Boston Monday on two hits, he held Philadelphia to three singles yesterday and his teammates tossed the game away.

Look out for the Browns! They made it five straight from Washington with a shutout yesterday and jumped into fifth place, just a half game behind Detroit.

Joe Jackson found the Boston pitchers much easier yesterday than in any of the previous games. Four hits including a triple in five trips up was his contribution.

The scout who advised Miller Huggins that Rogers Hornsby was not deserving of a big league trial must have been related to the fellow who advised the tailor not to give John D. Rockefeller credit for a suit of clothes.

In its first 33 games at home this season, the Yanks of New York had totalled more in gate receipts than the entire 1915 at-home season, which was the best year the club had enjoyed since the American league invaded Manhattan Island. The club also has been drawing big crowds on its road tours.

Bill McKeehin has been sent to his home in Wilkesboro, Penn., by Christy Mathewson. The Red third baseman has been troubled with a sore foot and injured side for some time. McKeehin was sent to be in pain in the recent Red-Superbas series, and he could throw only with the greatest effort.

Some fans are complaining against the length of the games in the National league. Much valuable time is lost by waiting for balls knocked into foul territory to come back. In the Johnson league a new pill is rushed into play when the ball is knocked foul and it has proved a time-saver. It is seldom that a game is played at Braves field in less than two hours and as a result the tea is cold when a lot of the boys get home.

Poll Porritt and Slim Sallee were once idols in St. Louis, but that was in the long ago. Since Poll made his leap to the Feds and then turned around and jumped back to the Cardinals and since Sallee deserted the Cards and then signed with McGraw's team, the pair of pitchers have been as popular as assassins in the Mound city. Sallee joined the Giants in St. Louis last month. As soon as he emerged from the clubhouse the bleachers began to hoot.

Connie Mack is the only baseball manager who has won six major league pennants. He is also the only manager who has won three world's championships. Be that as it may it is plain to be seen by reading Philadelphia papers that the sentiment in that city is not strongly with Mr. MacGillivuddy in his present plan of taking the team apart and fixing the breaks with green college men and semi-pros. He may be seeing the light at this late date, for he is credited with saying that he will retire before he will sell another star.

Beating the box office to see the ball game may be frowned upon by all ball club owners, but the man in the small western city who pulled this, was rather hard hearted. An aviator was hovering over the ball park when something went wrong. Down he plunged and landed in center field. After the manager and several of the players had succeeded in bringing him back to this cruel world, the manager leaned solicitously over him and said: "Feel better now, old man? Then you can just pay your quarter and watch the rest of the game."

The games between Washington and Cleveland this season show that the Senators still can cut in on the chances of the Cleveland club. Back in 1908, when Joe Cantillon managed the Senators and Lajoie was making a great fight for the flag under Birmingham, the team went to Washington hoping to close the gap that separated them from the Athletics, but Washington gummied the works by winning five straight games.

A.O.H. FIELD DAY

All is in readiness for the field day of the A.O.H. to be held tomorrow at Spaulding park. Good sports will be held and many prominent amateur athletes will compete for a good list of prizes. James E. Burns is chairman of the sports committee and Matt McCann, Martin Conley, John R. Higgins and others will have charge of the sports. A good prize list is offered to the winners. Many of the prominent amateur athletes will compete and the South Ends and U. S. Cartridge Co. will play ball for a purse. A Gaelic football game will be played between the Young Irelands and the Young Shamrocks. Much interest is manifested in the outcome as this is the first game to be held in this city for many years. The proceeds of the event will go toward the fund to defray the expenses of the state convention which will be held in this city August 21, 22, and 23.

AMATEUR BASEBALL

The All Stars will play the Tewksbury team in Tewksbury Centre tomorrow afternoon. Players are requested to take the 1:45 car.

The Kimball System team and the Bellevue will meet on the South common tomorrow afternoon. When these teams clashed before the Kimballa won by a ninth inning rally.

The South Ends will play a team from the U. S. Cartridge shop at the outing to be held tomorrow afternoon at Spaulding park.

7-20-4

Factory output four months to May last, upwards of fourteen millions. Increase of over two millions in four months. Largest selling brand of 10c Cigars in the world. Factory, Manchester, N. H.

EASTERN LEAGUE COMMENT

Yesterday's game could have been played in Lowell, though the weather was not ideal for baseball. It was transferred to Worcester, however, and the players went over the road in automobiles only to find the rain descending heavily on Boulevard park. There was no rain here but the cold weather might have affected the attendance.

Dick Durning of Portland and George Pennington of Lawrence staged a hard pitching duel in the Maine city yesterday. For 14 innings neither team was able to score a run. In the 15th, Sweat singled, stole second and scored on Lonegan's drive to left. But three hits were made off Lefty Durning. For 12 innings Dick really pitched "no hit" baseball, the only sign of a safety being made off him before that time being a high fly that three Portland players allowed to drop between them.

Waltr Hoyt, the New York 16-year-

old boy with the Lynn team, pitched his first real good game for Lou Pleier yesterday, defeating New Haven in a seven-inning game.

Tom Bannon, who umpired at League park yesterday, thinks Scout Charley Kechner of the St. Louis Browns was looking him over. Pitcher Bill Powers doesn't think so. Beatty, the Portland third baseman, thinks both Bannon and Powers are wrong, and so does Tamm, the Portland shortstop, who adds Beatty's name to the list of wild guessers. Maybe Kechner was just looking at the signs on the fence—Springfield Union.

Baseball sometimes makes strange bedfellows. A few years ago Lowell and Hartford, respective pennant winners in the New England league and the Eastern association, played a post season series to decide the championship of all New England, Lowell win-

ning. Now both clubs are having a warm fight down near the bottom of the present Eastern league race to see which team is to be consigned to the bottom berth. There's only a couple of games difference between them now, with Hartford holding the anchor—Lawrence Telegram.

Gene McCann has started to pick up youngsters to develop them for use next season. He has just signed Jim Kelly of Holyoke, known recently as "Horn Run" Kelly. One of the youngster's latest accomplishments in the Springfield City league was to make four home runs in two days. Kelly is an outfielder and first baseman.

Manager Mike Healey of Bridgeport is not satisfied with his pitching staff. He thinks that Walsh and House are the only two dependable men, although Mulhennen has done good work this season. He has secured Russell, a right hander, from Manager Birmingham of the Toronto team, and Lefty Gilmore from Providence. Healey is now after a pitcher from Connie Mack.

Women enjoy trapshooting more than any other sport.

The Life Guard Says:

100% Pure Turkish Tobacco

HELMAR

TURKISH CIGARETTES

10 Cents

I am a life guard.
No easy job, I tell you.
A call for help, a quick dash into the surf, often a hard, exhausting struggle—sometimes I'm nearly all in.
But then comes my reward—a glorious sun bath and a "Helmar" Turkish Cigarette.
That's only one of the many times a "Helmar" is a sure-enough life-saver.

The mildest tobacco for cigarettes is Turkish.
The best tobacco for cigarettes is Turkish.
Don't pay ten cents for anybody's cigarette until you have tried "Helmar," a fascinating, elevating, gentleman's smoke.

RAINY WEATHER GOSSIP

Lowell Club Has Many Postponed Games at Home—Team Will Leave Tomorrow on Long Trip

Although the rainy season has hit owners of all Eastern league clubs hard and put them down so far in the hole that there is little chance of any of them making an even break for the year, Andrew P. Roach of the Lowell club has had far more than his share of the weather man's unpleasant offerings.

Of 17 postponed games this year, 13 were to have been played in this city. Hence President Roach has had to come across with rain guarantees on 13 occasions while he has received but \$400 all told as a result of games being postponed while his team was on the road.

Lowell still has many postponed games to be played off here and fans will be treated to all kinds of double headers when the team returns from its next trip which begins after tomorrow. Lowell will not have another league game until August 22 when Hartford will be here for a double header.

Tomorrow Lowell goes to Lawrence for two games. The attendance at Riverside park will have considerable

Built On Satisfaction

P&Q Clothes are guaranteed to be the best values in town.

In this shop you can pay only \$10 or \$15 for your new suit. Yet you get the best value—the best style—in town. The equal of clothes that sell elsewhere at \$20-\$25.

We sell 'em direct from maker-to-wearer and eliminate all in-between profits.

This is not a "retail" shop in the ordinary sense. It's really a wholesale shop, for P&Q Clothes are made by a Tailoring Organization owned and controlled exclusively by our 20 P&Q Shops in 20 different cities.

And we're the original style cranks. Nothing that's new and nice escapes that "Master Of 'Em ALL"—that "Shark With The Shears"—the P&Q Designer. AND what his eye doesn't see, his master brain conceives. RESULT—Clothes of as many, as varied and as perfect in design as the Masterpieces in a Gallery of ART.

Ask Your Neighbor! He Knows!

effect on the future of Eastern league baseball in that city. For several days, or since the change in management, committees have been working to draw out the biggest crowd of the season to convince Manager O'Hara that Lawrence is just as good a baseball city as old.

All next week Lowell remains in the cities on the other end of the circuit with games in Hartford, New Haven, Springfield and New London. New material is needed to give Lowell all the strength to get an even break or better with these teams. With the exception of Hartford all have been building up their clubs in an endeavor to give the fans as good ball as possible for the remainder of the season and also to prepare for next year's fight. Even New London has tried out a new player or two during the past few days.

Since the first of July Lowell has won nine and lost 23 games, a percentage of .243. Hartford has made the same showing. Hugh Duffy's Portland team has been doing the best work with 20 games won and 10 lost, an average of three victories in every four games played during that time. New London has done the second best work winning 22 games and losing 11. Worcester is third with 21 games won out of 35 played. New Haven and Bridgeport, both second division teams, have done good work during the past six weeks and hence they are attracting fairly good crowds. Both teams have won more than 50 per cent of the games played.

Worcester has been a great team for winning at home. Of 31 games played to date by Billy Hamilton's team 27 of them have been entered under the win column. Twenty-nine of the 47 victories were won at Boulevard park, the team having been defeated but 12 times on its own stadium grounds. The Boosters' showing has been just as poor on the road as it has been good at home. They have played 43 games on foreign diamonds and only 18 of them have resulted in victories. Thirty-three playing days remain on the Worcester schedule. Of these 20 are at home and 13 away.

GAMES TOMORROW

Eastern League
Lowell at Lawrence (2 games)
Lynn at New London
Springfield at New Haven
Bridgeport at Hartford
Worcester at Portland.

American League
Washington at Boston
Detroit at Chicago
Cleveland at St. Louis
Philadelphia at New York.

Miss Eleonora Sears in Sensational Shipwreck—Yacht on Reef

BOSTON, Aug. 11.—The arrival in the harbor yesterday of the steam yacht Condor, in tow of a tug, and with her hull stove in, rudder broken off and pumps working to keep her afloat, brought to light for the first time the story of a shipwreck off Baker's Island in which Miss Eleonora Sears of this city and Mr. and Mrs. G. Maurice Heckscher of New York thought for awhile that their end was near.

It happened last Tuesday morning. The Condor, bound from Narragansett pier to Marblehead, bringing the Heckschers and Miss Sears up for a tennis tournament, was poking her way slowly through a heavy fog, when suddenly there came a terrific crash. It seemed for a moment as if the yacht had been ripped apart.

The Heckschers and Miss Sears, who were in their staterooms, rushed on deck to find the yacht fast filling with water and settling deeper and deeper. The captain had mistaken his course and driven the vessel on a reef off Baker's Island.

For a few minutes it was feared that the yacht would sink. The crew of 14 men lowered the lifeboats and tender and made ready to abandon her. Investigation by the captain, however, showed that the yacht was caught too fast on the reef to sink, and with no immediate danger, the Heckschers and Miss Sears decided to remain aboard.

"There were a few minutes, though, when we thought we would have barely time to save ourselves," said Miss Sears, recounting the story of the wreck to a newspaper reporter last night. "When the crash came I was in my stateroom. A second later the water poured into it like a deluge. I did not even have time to catch up any clothing. Neither did the Heckschers, in their stateroom."

"When we got out on the deck we thought surely that the boat was going down. Soon afterward, however, after the life boats had been lowered, we knew we were safe.

"The captain sounded distress signals and within a very few minutes a small power boat loomed out of the fog. There was one man in it, a fisherman. He brought his boat alongside and made certain there was no immediate danger of our sinking, then offered to take us ashore. Mr. and Mrs. Heckscher and I gladly accepted and we went with him into Marblehead."

Later in the day a tug was sent out from Marblehead, and after much difficulty the Condor was floated off the reef and brought into Marblehead harbor. The pumps had to be kept going constantly to prevent her sinking, and it was decided to take the vessel to dock at Boston.

The Condor, an unusually finely appointed vessel, 175 feet long, is under charter to Mr. Heckscher.

TO PRESERVE SUBMARINE

Dr. Gibbons Bought First Craft Built From Plans of James Holland to Save It

NEW YORK, Aug. 11.—Dr. Peter J. Gibbons, who has purchased the first submarine built from the plans of James Holland, offered today to give the ancient craft to the city historical society or museum that could show the best right to it and that would guarantee to preserve it.

"We bought it because we did not want to see it lost as was Wright's first aeroplane, Fulton's steamboat and the steamboat built by Gibbons in Philadelphia, 31 years before Fulton built his," said Dr. Gibbons.

SUES FOR LUSITANIA DEATH

Mrs. Stevens of Cambridge, Widow of Victim, Seeks \$32,500 From the Cunard Company

BOSTON, Aug. 11.—A suit of \$32,500 against the Cunard Steamship company, Ltd., has been filed in New York by Mrs. Laura Stevens of Upland road, Cambridge, whose husband, Charles H. Stevens, was lost on the Lusitania. The body of Mr. Stevens, who was 33, was picked up off the coast of Ireland, early this year, and buried in England.

In the lining of his garments was found \$700 in cash, which was turned over to Mrs. Stevens.

DROWNED OFF YACHT

MARBLEHEAD, Aug. 11.—Berga Mortensen, a Norwegian deck hand on the Bar Harbor 21-footer Cricket, owned by T. C. Lathrop, Jr., was knocked overboard and drowned in the race of the Corinthian Yacht club yesterday.

The accident happened near Tom Moore's Rock. There was a heavy sea running and Mortensen was fixing one of the masthead runners when a big wave hit the yacht and he was knocked overboard.

REUNION OF ALUMNI A BIG SUCCESS—BANQUET AND SPEECH-MAKING IN THE EVENING

One of the most successful reunions in the history of St. Joseph's college alumni took place yesterday when about 200 former pupils of the school gathered around the festive board at their alma mater and after partaking of a very substantial dinner, listened to interesting addresses by able speakers.

As published in yesterday's issue of The Sun, the opening of the event was an outing at Cunningham's farm in Collierville in the afternoon, which proved very successful. In the evening

W. P. C. CAISSE, JR., President

a brief reception was held in the college hall and later, while excellent concert numbers were given by Senon's orchestra, the appetizing menu was discussed.

At the close of the dinner post prandial exercises were held with Arthur St. Hilaire, president of the alumni acting as toastmaster. The speakers were Rev. Dr. J. H. Racette, O.M.I., master; Rev. Bro. Zephirino, a former provincial of the Marist order, now stationed at Poughkeepsie, N. Y., and W. P. C. Caisse, Jr., the first president of the organization.

The first speaker was Rev. Dr. Racette, who spoke of the importance of the alumni to both the members and the parish. He expressed his admiration of the help and support given the parish by the alumni and closed by paying a tribute to the founder of the college, the late Rev. A. M. Garin, O.M.I.

Brother Zephirino took for his subject, "1917," and told of the arrangements which are now being made for the celebration of the 100th anniversary of the founding of the Marist order. He also gave a bit of advice to his listeners and in concluding said: "Do not fear to be good; do not fear when duty commands; do not fear failure; do not fear obscurity; do not fear war—if your country needs you, go. If you succeed you are a man, and with the spirit of St. Joseph's college, you will succeed."

The last speaker was W. P. C. Caisse, Jr., who spoke on "Preparedness," that is for the double celebration which will take place next year, that of the 100th anniversary of the founding of the Marist order and the 25th anniversary of the opening of St. Joseph's college. Mr. Caisse urged the members of the organization to begin preparations at once and to do all in their power to swell the ranks of the alumni.

At the close of the post prandial exercises the annual election of officers took place with the following result: W. P. C. Caisse, president; Leo H. Beaulieu, vice president; Arthur H. Groux, secretary; Arthur D. Lamoureux, assistant secretary; Edmund R. Foley, treasurer; Tancrède L. Blanchette, E. S. Desmarais, Arthur Gaudette, Alfred Renaud and John B. Richard, directors. The affair closed with the singing of "O Canada" by the assembly.

KNIGHTS OF COLUMBUS THE CARTRIDGE PLANT

ANNUAL LADIES' DAY GREAT SUCCESS—TWENTY GIRLS IN 35-YD. DASH

A program of sports featured the annual Ladies' day of Lowell council, Knights of Columbus, held yesterday at the Genoa club and reported in yesterday's Sun. One of the most closely contested baseball games ever played in connection with this event was staged between the married and single men of the council, the latter winning out by the score of 5 to 1.

The married men played a great game but the breaks were with the young fellows and they came out the winners. Sullivan and Gallagher, the married men's battery, did good work and Hart pitched a strong game for the single men.

The blueps were as follows: Married Men—Capt. W. Gallagher, T. Sullivan, P. H. Flaherty, E. J. Hayes, A. Molloy, C. R. Thomas, J. D. Walker, J. P. Delaney, W. D. O'Brien, 2b. Single men—Capt. W. W. O'Brien, 1b. Lander, E. H. Hart, P. Fr. Mullin, 1b. J. Jay, 2b. E. Hines, W. Earley, 3b. A. Rogers, G. Briggan, 4b. Umpire, McCue.

Another baseball game was played between a picked nine known as the West Street Stars and a girls' team. After three innings the Stars were declared winners by a 12 to 0 score.

About 20 girls entered the 35-yard dash which was won by Miss Borgia Wood with Miss Loretta Keefe second. Miss Bernice Quill won the ball-throwing contest while Miss Loretta Keefe showed that she could throw as well as run by taking second prize. The sports were run off under the direction of Andrew Molloy and William Wood.

The result of the donation contest, conducted by the members, was announced before the dancing began, and the results were: First prize, a two weeks' vacation trip for the winner, and a friend to be chosen by himself, won by T. Lee Taylor of the New England Telephone Co. of Boston and second prize, an umbrella, donated by Commissioner Newell E. Putnam of the department of fire and water, won by Miss Blanche Quimette, 61 Chestnut street.

C. T. A. U. ELECTS OFFICERS

ADOPTS RESOLUTION OPPOSING GROWING USE OF INTOXICANTS BY WOMEN

WASHINGTON, August 11.—The Catholic Total Abstinence Union of America was on record today in opposition to the growing use of intoxicants by women and girls. Resolutions to that effect were adopted and officers elected, headed by Rev. John G. Bean of Pittsburgh, at the closing session of the union last night.

Other officers chosen were: Vice presidents, the Rev. D. J. Kane, Scranton, Pa.; James E. Dougherty, Philadelphia; Mrs. Thomas J. Heckscher, New York; treasurer, Rev. Maurice J. O'Connor, Boston, and secretary, Thomas E. McCloskey, Connecticut.

GETS SWORD OF HONOR

LONDON, Aug. 11.—The Russian emperor has presented to General A. A. Brusilov a sword of honor, decorated with diamonds, for his victories over the Austrians and Germans in Galicia and Volhynia, says a Reuter despatch from Petrograd.

FELLOW WHO HASN'T BEEN AROUND MUCH OF LATE DESCRIBES BUSY HIVE

To those who have not yet visited the plant of the U. S. Cartridge Co. in Lawrence street, an interesting sight awaits them. The scene is one of remarkable activity, and the mass of humanity that goes to and fro every day shows what a great benefit this establishment has been to the city of Lowell.

The writer happened along there just before 7 o'clock the other evening, and having not been in that part of the city for some time, he was surprised at the remarkable changes that that section has undergone. Before reaching the plant one finds that numerous new buildings have been erected in the immediate vicinity. Lunch carts and stores of all kinds have sprung up and the scene upon nearing the great establishment reminds one of the South common midway.

The employees, particularly those going in at 7 o'clock, are very punctual, and in fact they are on hand long before the whistle blows. Upon reaching the shop, they assemble around the buildings, and all appear anxious to get started. A large and competent police force, marching up and down the adjoining streets, makes the section seem almost a city in itself.

Shortly before the hour for starting, all line up and with their "passports" in hand wait for the doors to open.

Then, in less time than it takes to tell it, the streets are deserted and all are on the inside looking out. The cops, however, remain outside and continue their "watchful waiting" for the remainder of the night.

One then gets a better view of the enormous buildings there, several of which are of recent construction. Right along the street a new brick building has been erected. Here, on the lower floor, men are employed and a look at the speed at which they turn over their part of the work convinces one of the magnitude of the output of the establishment. These men work in full view of passersby and the writer was one of the many who stopped to take a look at the bullet workers. All have a certain part to do and just as soon as the power goes on the human power begins the grind.

The sight is interesting, and if one had the time he could spend it to good advantage by just watching the remarkable, systematic and expeditious manner in which the work is accomplished.

INFANT KILLED BY AUTO

WELLS, Me., Aug. 11.—While playing in the roadside near his home yesterday, Harold Strickland, the infant son of J. C. Strickland, was struck and instantly killed by an automobile driven by William Horle of East Torrington, Conn. Horle and John Tucker of East Torrington, an occupant of the automobile, have been detained by the police.

London has a school where women are given a course in grocery salesmanship.

GENERAL BUSINESS BOOMING

Those doleful ones who, for political purposes, scan the trade records hoping to find some augury of disaster are not in a cheerful mood just now, for every trade paper is a prophesy of good fortune to come or a summary of good things gone by. Even the conservative papers that used to say conditions were "reasonably good" cannot find superlatives enough to tell of our present prosperity. Statistics are simply staggering, but as usual they do not convey any adequate impression of the condition of general business.

Other years the influence of the warm season was always felt in business, which slackened up for a few months—but not this year. As the August letter of the National City bank of New York puts it: "Notwithstanding the influence of midsummer weather there has been practically no let up in industry during the past month. Trade has been slightly less active, for it is between buying seasons, but mills and factories are sold so far ahead that there has been no relaxation of the pressure upon them."

Despite a threatened falling off in war orders our export trade is still keeping up, and every diminution in the quantity of munitions exported is made up by the increase in the demand for other commodities. Most experts say that while the war lasts and for some time afterwards this country will be hard pushed to meet the demands for American merchandise from all over the world. Mr. Hughes may think or pretend to think that we are living in a fool's paradise, but he seems to have a monopoly on the wisdom that looks for a change in our prosperity for a long time to come.

The steel industry is still working to full capacity. Its earnings for the past three months exceeding all prognostications. The net earnings of the United States Steel corporation for the second quarter of the year were \$81,000,000 and still better results are expected for the third quarter of the year. The Bethlehem company is about to spend \$70,000,000 upon its new acquisitions, the Pennsylvania Steel company and the Maryland Steel company. Extra dividends have been declared but a large part of the earnings is being kept in reserve in anticipation of manufacturing developments. Evidently the directors of the steel companies do not take stock in talk of "fool's paradise."

Building operations are active all over the country. One of the most reliable commercial and financial journals reports that a compilation of building permits for 154 cities shows an aggregate in the six months ended June 30 of \$22,300,000 as compared with \$132,716,573 for the same period in 1914. These figures have never been exceeded except in the first six months of 1903 when they were \$525,000,000. This boom in building at a time when materials are unusually high indicates very strongly the great sudden boom in business which necessitates industrial and residential development. If we live in a "fool's paradise," there are going to be many new mansions in it before the end of the year.

The shipbuilding industry reports activity in every shipyard in the country—and this before the passage of the merchant marine bill. Plenty of work is in sight for years, not to mention the great navy program which the senate has practically agreed upon. With the establishment of American transportation on a scale comparable to that of the other great nations, American business will be able to throw off its dependence on rival powers and go into the trade wars of the world prepared for fair but keen competition. The dropping of opposition to the administration shipping bill is a good sign and it points to coming co-operation between government and business for the extension of our foreign trade.

The railroads report unprecedented prosperity, the difficulty being to regulate the great amount of business that piles up in yards and terminals. Unfortunately the danger of a great strike hangs over the country, but it is the earnest hopes of business and the people generally that neither the employer nor the employees will face an issue that could not but be ruinous. To put a deliberate obstacle to business prosperity at this time would seem the height of folly and it is to be hoped that wisdom and toleration will prevail as in the past.

Recounting of specific instances of prosperity becomes monotonous. On every side it is the same story—everything is booming. Wages are good and there is almost no unemployment. The revised currency system protects the country against panic dangers and the recently organized federal boards ensure tariff and trade changes that will conserve the best interests of the country. It may be selfish for us to rejoice at a prosperity that has come in part from the travail of the other great nations, but it was not of our seeking and we are mindful of the good fortune that has sent us peace and prosperity while the world bleeds in a war that we had no part in making.

POLICE SUPERVISION

Mayor O'Donnell has taken one of the most practical means possible to enforce the rules of cleanliness and sanitation in this city in his letter to the superintendent of police on this most important matter. He says truly that "the police department can do more than any other organized body to impress upon householders and lodgers the necessity of exercising care and judgment in the matter of disposing of refuse, garbage, etc., and he consequently directs the superintendent to see that the police give special attention to it."

Undoubtedly many members of the department already make a special effort to keep Lowell as clean as possible, but only through a zealous organized effort can results be obtained. The Sun has long contended that a word from the police official on the beat is a stronger influence than twenty proclamations from the board of health, especially in sections where foreign residents live and if a police official shows that he means business, it will not be long before results are noted.

Owing to the agitations of the present time and the real scare from New York, there should be no half measures in efforts at cleanliness. It shall therefore be the duty of each police officer in the city to report delinquents to the superintendent, if his directions are disregarded. It is no burden on the great majority of people to keep their premises reasonably clean, but there may be cases when the property owner is more to blame than the tenant.

In such cases responsibility should be fixed and the courts have the power to deal with those whose negligence is criminal. Now that the police department is to be held responsible for conditions, the subterfuge of laying the blame on somebody else should be once for all abandoned and all classes should co-operate to the fullest extent with those who strive to carry out the plain and pointed instructions of the mayor.

THE LUSITANIA NOTE

As an evidence of his good faith and sincere desire to serve the American people to the best of his ability, President Wilson has asked permission of the German government to publish the last German note on the Lusitania, and the favor was granted. Its publication should suffice to remove the discussion of the terrible sea tragedy from campaign debates and to establish the wisdom of the administration's handling of the question. So many things have intruded themselves into the public notice that details of the Lusitania controversy have been almost forgotten, but this German note is a proof that President Wilson's diplomacy triumphed over the obstinacy of the German war council. Germany recognized liability in the loss of Americans on the Lusitania and though an open confession of guilt is not to be expected, the German government virtually admits that its course was contrary to international law and the law of humanity. That an indemnity will be paid the relatives of those lost is assured, though there may be some difficulty in arriving at the exact amount. If instead of demanding reparation through

HOW TO REDUCE YOUR WEIGHT

A SIMPLE SAFE RELIABLE WAY
People who are over-burdened with superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which detracts from the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe, and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from A. W. Dows & Co. a good druggist a box of oil of korein capsules; take one after each meal and one before retiring at night. Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Every person who suffers from superfluous fat should give this treatment a trial.

Washington Savings Institution

Verification of Pass Books

Complying with the statute requiring the Savings Banks in Massachusetts to request depositors to present their books for verification during the year 1916, this bank requests its depositors to present their books at any time during banking hours in the months of July and August.
THOMAS H. MURPHY,
Treasurer.

diplomatic channels we had gone to war with Germany, would we be any better off today? That would merely have taken off the last restraint on submarine warfare and turned loose a campaign of lawlessness which might make the Lusitania horror look like play. The publication of the German note will serve to recall some political critics from their flippant attitude and show them that right can win out against might—sometimes.

THE GANG NUISANCE

We still have the gangs or that variety of them which think it can with impunity interfere with officers of the law in the discharge of their duties. Of this fallacy they should be disabused in the shortest and most effective way, and until the police take the initiative occasional excursions are to be expected. News travels quickly in the realm of the loafer and the hoodlum and if the leaders of the gangs here and there are called to account, it will not be long before we have different conditions. Respect for authority is the death of the gang spirit, just as contempt for authority is its vital principle, and there cannot be respect for authority in those circles until authority sets out to make itself respected in the good old vigorous fashion. No one would want to see the police unduly aggressive, but all will support the department in a desire to show groups of loafers and undesirables that when they try to interfere with the law they undertake more than they can accomplish.

PRESIDENT TO MEDiate

It is reported with what looks like good authority that if the federal board of mediation and conciliation fails to avert the threatened strike of 400,000 railroad employees, President Wilson will be asked to mediate. This is a grave decision, but in that case it will be the result of grave necessity. A threat of a nation-wide railroad strike is nothing new, but it would prove fully as disastrous as it has been pictured by railroad owners and workers alike. There is no need to paint an imaginary picture of the result. Our civilization is largely due to the railroads and should they be crippled, about everything else would be crippled in short order. It is to be hoped that the controversy may be settled without recourse to the chief executive of the nation, but if it goes that far it may go yet farther. When the government of the country has to step in to settle railroad strikes it shall be near time that the government owned the railroads—not as a great good perhaps, but rather as the lesser of two evils.

MUNICIPAL JOY RIDES

There must be something peculiarly exhilarating in the wind that blows from the Charles river basin or else municipal auto trips—for business only—are the rule rather than the exception in Cambridge. Once again the Cambridge authorities are confronted with garage bills for trips which they have never taken. It seems a shame that irreverent and dishonest joy riders should masquerade as city solons but how is it possible for outsiders to work the trick? Looks as though municipal joy rides are rather common in the city where almost anybody can have one by giving a city hall address. Be it far from us to throw mud at Cambridge in this connection. Mindful of our own past we just can't help being slightly curious, that's all.

SEEN AND HEARD

When a wise man gets real angry he goes way back and sits down.

To About Six Months

A New York lawyer tells of a man who had been convicted of stealing by a certain "Down-East" judge, well known for his tender-heartedness.

"Have you ever been sentenced to imprisonment?" asked the judge, not unkindly.

"Never," exclaimed the prisoner, suddenly bursting into tears.

"Well, well, don't cry, my man," said his honor, consolingly, "you're going to be now."

Keeping It Quiet

Little Margaret lived in a gossip neighborhood and being an observant child she had got some ideas into her curly head. One day, having done something naughty, she was sent upstairs to confess her transgression in prayer.

"Did you tell God all about it?" asked her mother, when she came down again.

Margaret shook her head decidedly. "Deed I didn't," she declared. "Why it would have been all over heaven in no time."—Boston Transcript.

Now She's at Bar Harbor

A well known Fall River lawyer was trying to make clear to a legal student the significance of the term "colored evidence," meaning by that evidence which has been tampered with.

"The best illustration I can think of came within my observation not long ago," said the lawyer. "A physician had said to a fair patient:

"Madam, you are a little run down. You need frequent baths and plenty of fresh air, and I advise you to dress in the coolest, most comfortable clothes—nothing stiff or formal."

"When the lady got home this is how she rendered to her husband the advice given to her by the doctor:

"He says I must go to the seashore, do plenty of motorizing and get new summer gowns."

Child Had Proof

The reading class was in session and the word "furlough" occurred. Miss Jones, the teacher in a Springfield school, asked if any little girl or boy knew the meaning of the word. One small hand was raised.

"Furlough means a mule," said the child.

"Oh, no, it doesn't," said the teacher.

"Yes, ma'am," insisted the little girl. "I have the book at home that says so."

Miss Jones told the child to bring the book to school. The next morning the child came armed with a book and triumphantly showed a picture of

an American soldier riding a mule, under which was the caption: "Going home on his furlough."

Peril in Cleanliness

With sobs in his voice, the applicant for a meal and some old clothes had told his story, and the kind-hearted woman had helped him.

Now he sat eating a hunk of bread and cheese and she thought it wise to get in a little good advice. So she began:

"Don't you think that—er—it would be better for yourself if you used soap and water occasionally?"

The tramp sighed dolefully. "I would, ma'am—I would," he answered eagerly, "but the truth is that there's so many different kinds of soap, and it's so hard to know which is injurious to the skin, and I'm afraid to take any risks."—Pittsburgh Chronicle Telegraph.

Not as Bad as That

Early one bright spring morning a ragged tramp called at a country vicarage where the lady of the house had the name of being very charitable.

"Kind lady," he began whiningly as he doffed his cap politely, "I ain't 'ad a bite to eat since my supper yesterday."

"Poor fellow," said the kind-hearted woman, "you must be hungry? But you look strong! Why don't you look for work?"

"Ah, mum, ye see I'm a little bit silly," began the man in explanation. "Yes, but silly people often get work," interrupted the lady.

"But I'm not that silly," finished the tramp quickly.—London Telegraph.

George Did It

George Clarke, a celebrated negro minstrel, on one occasion when being examined as a witness was severely interrogated by a lawyer.

"You are in the minstrel business, I believe?" inquired the lawyer.

"Yes, sir," was the reply.

"Is not that rather a low calling?" "I don't know but what it is, sir," replied the minstrel, "but it is so

EARLY MORNING FATIGUE

When you awaken in the morning feeling tired out, feeling worse in fact than when you went to bed, you are confronted with one of the characteristic symptoms of neurasthenia.

It is due to the run-down condition of the nerves that rest does not bring renewed strength and sleep refreshes tired brain. Overwork and worry are the most frequent causes of this condition. Neurasthenia is the name given to this common form of nervous debility in which the power to recuperate is gone.

The blood can be built up so that it will increase the supply of needed elements to the wasted nerves and this is the only way that the nerves can be reached. Dr. Williams' Pink Pills are a tonic that especially builds up the nerves because they supply to the blood the elements that the nerves need.

Many nervous disorders, sometimes chronic ones, have yielded to this tonic treatment with Dr. Williams' Pink Pills when other methods failed to give relief. They are certainly worth a trial.

Dr. Williams' Pink Pills are sold by druggists everywhere or will be sent by mail, postpaid, on receipt of price, 60 cents per box, six boxes \$2.00 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write today for free book on the nerves.

much better than my father's that I am rather proud of it."

The lawyer fell into the trap. "What was your father's calling?" he inquired.

"He was a lawyer," replied Clarke, in a tone that sent the whole court into a roar of laughter.

There, Little Girl, Don't Cry

There, little girl! Don't cry! They have broken your doll, I know; And your tea-set blue And your playhouse, too.

Are things of the long ago; But childish troubles will soon pass by— There, little girl! Don't cry!

There, little girl! Don't cry! They have broken your slate, I know; And the glad wild ways Of your school-girl days Are things of the long ago; But life and love will soon come by— There, little girl! Don't cry!

There, little girl! Don't cry! They have broken your heart, I know; And the rainbow gleams Of your youthful dreams Are things of the long ago— But heaven holds all for which you sigh— There, little girl! Don't cry!

—James Whitcomb Riley.

MOREYARD ROOM

Miss Martina Gage is Opposed to Railroad's Petition

Special to The Sun
STATE HOUSE, Boston, Aug. 11.—In an order issued yesterday, the public service commissioners find that the Nashua & Lowell railroad corporations require for the purpose of laying additional tracks a certain parcel of land containing 5.15 acres, and bounded by Black Brook, the Old Ferry road or Baldwin street, the Merrimack river, and the present line of the railroad, all of which is supposed to belong to Martina A. Gage.

Originally the railroad company asked the commission to include certain other parcels of land in its order, but since filing its petition it has come to an agreement with the owners of this land with respect to the price to be paid.

Martina A. Gage, however, opposed so much of the petition as related to her land, and, through counsel, asked the commission to rule:

1. That the petitioner had not com-

Early Brand Clothing

piled with the requirement of the statute relating to its inability to agree with the owner, and that a mere statement of failure to agree was not sufficient.

2. That the petitioner had not established any public necessity for taking the land.

3. That the petitioner has no right to take land not necessary for its needs as a common carrier.

4. That taking the land would deprive the owner of access to her remaining land.

5. That taking the parcel of land asked for would render the remainder inaccessible and valueless.

With reference to the first finding requested, the commission says: "It is sufficient to say that it has been repeatedly decided in this commonwealth, that bringing the petition without evidence of negotiation or of attempts to negotiate, shows the petitioner's election not to agree and is enough to satisfy the requirements of the statute in regard to that, and the commission therefore so rules in this proceeding."

If, however, affirmative evidence were necessary, the hearings disclosed enough to satisfy the commission of the attitude of the parties and their inability to agree.

The remaining requests for findings and rulings, so far as not covered in this report and accompanying order, relate either to questions not now in issue and which can properly arise only in proceedings for the assessment of damages caused by the proposed taking, or are deemed otherwise inapplicable to this proceeding and to the powers and duties of the commission, and are refused."

HOYT.

SQUADRON STRENGTHENED

AMSTERDAM, Aug. 11.—The German naval squadron at the Belgian port of Bruges has been considerably strengthened in recent weeks, according to the Amsterdam Telegram, and now comprises at least twenty-two torpedo boats and torpedo destroyers, including many of a new type with three funnels. Torpedo boats have frequently passed through the canals of Belgium, while dismounted boats are said to have been transported from Germany by that route.

PRAISES LOWELL

National Board of Underwriters Speaks Well of Us

HAVERHILL, Aug. 11.—Following up the inspection of the fire fighting facilities made by the expert engineers, J. H. Howland, of the national board of underwriters, is in Haverhill to urge the city officials to adopt the suggestions made by the engineers in their report. He says that Haverhill and Lawrence are the slowest cities in this section to provide modern fire prevention facilities.

Salem, Augusta and other places pleaded poverty, Mr. Howland says, just the same as Haverhill does, before the confagration visited these places, but statistics have shown that 25 per cent has been saved in acquiring auto pumps and in the motorizing of apparatus instead of using horses. Bonds have been issued in other cities to provide proper facilities and the benefit derived as warranted such action on the part of city governments.

Mr. Howland said that he was in the city of Augusta just before the big fire and the city officials talked the same way that they talk in Haverhill, but since then they have seen the light.

Good Words for Lowell

In regard to the motorizing of the apparatus, Mr. Howland said that in the cities of Lynn, Lowell, Springfield, and Holyoke practically all the apparatus is motorized. He urges that the city of Haverhill adopt the recommendations of the engineering experts and says that in Lowell the city took the suggestions as a text book

and followed them specifically. The suggestions are absolutely practical, Mr. Howland says.

The chief recommendations on which Mr. Howland makes particular stress are additional men, two auto pumps, an auto aerial truck and says these things should be done first. Then the entire motorization of the fire department, additional hose, the extension of the high pressure service, an assistant to Chief Gordon and the removal of the fire alarm signal system to a separate fireproof building. He believes that the department should be put on a full pay basis as rapidly as possible, eliminating the call men.

AGED MAN SHOT SELF

WIFE DIED OF A SHOCK—THE HUSBAND IS NOT EXPECTED TO RECOVER

GREENWICH, Conn., Aug. 11.—When informed that her husband had attempted to end his life yesterday, Mrs. Nathan Carpenter, 71 years old, died of heart disease. Carpenter, who is 75 years old, is dying of a bullet wound in the head.

LIFE BUOY FOUND; SHIP LOST

PENSACOLA, Fla., Aug. 11.—The finding of a life buoy bearing the name of the Italian ship Mount Carlo, washed ashore on Santa Rosa Island near here strengthened the belief today that the vessel went down in the hurricane of July 5.

TO RETURN PROPERTIES

PARIS, Aug. 11.—Confirmation was given today by Juan Azcona, financial agent of the Carranza regime of Mexico City despatch to the Figaro to the effect that the Mexican government has decided to return sequestered properties taken from supporters of previous governments, subject to any civil responsibilities which may have been incurred.

EXPLOSION KILLS THREE TO TEACH MOTHERHOOD

WORKMEN OF DU PONT PLANT AT CARNEY'S POINT, N. J., LOST LIVES

WILMINGTON, Del., Aug. 11.—An explosion which blew out a cylinder on a rehydrating press at the Du Pont powder company's plant at Carney's Point, N. J., today killed three workmen and injured two others.

MISS KATE HAMPTON DEAD

Last of Children of Col. Hampton of War of 1812 and Sister of General Hampton of Confederate Army

COLUMBUS, S. C., Aug. 11.—Miss Kate Hampton, 92 years of age, last of the children of Col. Wade Hampton of the war of 1812 and sister of the late Lieut.-Gen. Wade Hampton of the Confederate army, died here last night.

BILLERICA REPUBLICAN CLUB

Hon. John N. Cole of Andover was the principal speaker at a special meeting and rally of the Billerica republican club held last evening in its rooms in Elm street. Mr. Cole spoke on his observations at the recent republican convention in Chicago when Hon. Charles E. Hughes was nominated for president of the United States. He described the proceedings of the convention in a very interesting manner which was keenly enjoyed by the large number of members present.

Mr. Cole also assailed the administration now in control at Washington and predicted that Mr. Hughes would be the next president of the United States.

Addresses were also made by Rev. Charles H. Williams and Burton O. Sanford, candidates for representative in the 17th district, and by Dr. Manuel Pfeiffer of Bedford, candidate for senator. President Ralph E. Manning presided at the meeting.

Previous to the speaking reports of various committees were heard and the question of holding an outing was discussed. A committee of three was appointed to consider the outing question and report later.

LARGE WOODEN STEAMER

SANDUSKY, O., Aug. 11.—The William P. Edwards, one of the largest wooden freight steamers on the Great Lakes, is ready to clear from here for Montreal with a cargo of coal. Unloading from that port, she will take a cargo of lumber to Ireland. The vessel has recently been fitted with a new bow and sides for ocean travel.

TO TEACH MOTHERHOOD

PALMER SCHOOL WILL INSTRUCT GIRLS FOR THE HOME—PROVIDED FOR IN WILL

DETROIT, Mich., Aug. 11.—Establishment of a school for teaching girls motherhood is provided for in the will of Mrs. Lizette Merrill Palmer, died yesterday for probate.

Mrs. Palmer was the widow of former United States Senator Thomas W. Palmer.

The exact amount which will be devoted to founding and operating the school is not designated. Probate court officials say the estate amounts to upwards of \$1,000,000, however, and the entire residue is left for that purpose after provision is made for paying test specific legacies amounting to \$135,000.

The will provides that girls unable or unwilling to pay the cost of their board at the school shall be educated free of charge.

"I hold profoundly," says the will, "the conviction that welfare of any community is divinely and hence inseparably dependent upon the qualities of

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."

—Mrs. RORR, STROPEL, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you would like to see what a wonderful woman's establishment ours is, call any day and inspect our laboratory—you will be welcome. The Lydia E. Pinkham Medicine Co., Lynn, Mass. m

IN POLICE CIRCLES

A number of breaks and potty larcenies have been committed by boys lately and many complaints have been registered at the police station.

During the early part of this week a house in Humphrey street was entered and several sleds and other small stuff were stolen and taken to Belle Grove where they were recovered yesterday by Inspector Walsh and Sergt. McCloyghrey.

This morning two boys, one aged 10 and the other 11 years, were brought to the police station by Patrolman George Abbott. It being alleged that one of the boys stole 30 cents from a coffee house in Market street.

MORPHINE IN HATBAND

BOSTON, Aug. 11.—A new method of carrying dope was unearthed by the officials at the Deer Island house of correction, when Jacob Goldstein, convicted as a pickpocket, was landed with a number of other prisoners.

The rigorous search to which all new arrivals are subjected revealed a package of morphine in Goldstein's hatband. He was given extra punishment for having possession of the drug.

SHORTAGE OF "A.D.T." BOYS

NEW YORK, Aug. 11.—The Western Union Telegraph Co. notified its customers today that its national distribution service for the delivery of packages will be transferred to another corporation on Sept. 1, and thereafter its messengers will collect and deliver telegrams only. It is understood that the package deliveries will be made by motor trucks operating from a central station in the larger cities. A shortage of boys to act as messengers has necessitated the change. The national distribution system now is operated in all the principal cities served by the Western Union.

SINKING OF ITALIAN STEAMER

AMSTERDAM, Aug. 11, via London.—A semi-official account of the sinking by a submarine recently of the Italian mail steamship Letimbro received here today from Vienna says the Italians fired on the submarine with two guns, and that there were troops on board.

"After the submarine had fired a warning shot at a distance of 5000 metres," the statement says, "the vessel opened fire from two guns at the stern and attempted to escape by zig zags. The submarine pursued the steamship, replying to the fire without hitting the vessel which had shown no flag.

"Later boats were lowered from the steamer. After ascertaining that no one remained on board, the steamship was sunk by the submarine.

BIG STRIKE RIOT

Strikers and Police Clash North of Detroit—Firemen Called

DETROIT, Mich., Aug. 11.—Striking cigar makers and sympathizers numbering more than 1500 clashed with the police of Hamtramck township, just north of Detroit last night, and were dispersed only after reinforcements had been summoned from the Detroit police force and the fire department had turned two heavy streams of water upon them. Many on both sides were more or less seriously injured.

The trouble was precipitated when the strikers attempted an attack upon the cigar factory where they were employed.

Many of the rioters, occupying doorways and windows in several buildings across the street from the factory, hurled bricks, stones, bottles and sticks at the police and firemen. A number of shots were fired on both sides but none took effect. Twenty-seven arrests were made.

LUSITANIA CASE NOT SETTLED

WASHINGTON, Aug. 11.—State department officials yesterday explained that the recent request to the German embassy for permission to publish one of Count von Bernstorff's notes on the

settlement of the Lusitania case was an inadvertence. At first it was denied that any such request had been made, but an investigation of the department's files disclosed that a letter prepared by a subordinate official had been signed either by Secretary Lansing or Acting Secretary Polk and had been transmitted to the German embassy.

State department officials declared that the too much importance had been attached to the request in German official quarters and that it was not as interpreted, an indication that Germany's proposals were to be accepted as satisfactory.

When Acting Secretary Polk was told Wednesday of the impressions gained in German official quarters of the meaning of the request, he said he could not talk about the Lusitania.

Yesterday both Secretary Lansing and Mr. Polk declared the request was in no wise an indication that the United States was about to accept Germany's long pending representations as satisfactory, that the status of the entire negotiations still was informal and that none of the correspondence was a nature for publication at this time.

The case is regarded as still unsettled because of developments in submarine warfare and the attitude of belligerents on the subject of armed merchantmen which arose last February at the moment the Lusitania negotiations appeared to be on the point of satisfactory conclusion.

The state railways of Wuertemberg, Ger., have appointed the first woman station master in that country. She has complete charge of a station and directs the incoming and outgoing of all trains.

Does White Bread Agree With You?

Providing it doesn't persist in using it for if you do your habit may eventuate into a serious stomach ailment which either will be the cause of your death or leave you an invalid.

JOHNSTON'S BRAN BREAD

TEN CENTS A LOAF

Which we introduce to the public of this city this week is the result of much experimenting and search for a bread which would give an abundance of health-giving properties to the human body and at the same time be digested most freely.

JOHNSTON'S BRAN BREAD IS NOT A BREAD WHICH IS IN ITS EXPERIMENTAL STAGE, ITS VALUE AS A HEALTH BREAD IS ESTABLISHED. If you have stomach disorders, whether or not they are occasioned through the use of white bread, which is directly responsible for more stomach ailments than anything else, eat Johnston's Bran Bread and you will not only be relieved of pains, gases, etc., but its continued use will in time strengthen your stomach so that you need fear no further trouble from your digestive organism.

Johnston's Bakery, 131 Gorham St.

IN POLICE COURT

Continued

J. Murphy, Lakeview avenue; Edward Lynch, Fulton street; John Draddy, John street; William F. Scully, French street and James Manning, Fletcher street.

Numerous complaints have been made about suspicious persons in the vicinity of the car barn in First street and recently it was learned that a number of men were making their temporary homes in the place, the cushions in the cars making very comfortable sleeping quarters.

Early this morning, Sergts. Ryan and Bigelow, and Patrolmen McCoughrey, Hession, Gillis and Winn, made a visit to the place and found the men enjoying a good sleep. They were awakened and taken to the police station, where they were booked as suspicious persons.

When brought to the court this morning, the men were cautioned to avoid trespassing on other people's property and upon promising not to visit the car barn again they were released. Mullen still owes the court \$20 on a larceny case and Draddy has failed to pay a fine of \$10 which was imposed some time ago. Both men promised to go to work and remit the fines.

Sent to State Farm

Harold E. Frazer was arrested last night about 11:15 o'clock by Patrolman P. F. Noonan, the latter claiming that Frazer was drunk. Frazer denied he had been drinking but when several officers testified as to the man's condition he was found guilty and sentenced to the state farm, from which sentence he appealed. It was Frazer's fifth appearance in court since March 26th and at the present time he is under two appeals to the superior court.

Non-Support Case

Philip Vazek was charged with failing to provide proper support for his two minor children, but owing to the fact that the defendant has brought an action for divorce against his wife, no finding was made. It being agreed by counsel that Vazek pay her \$4 a week.

According to the testimony Vazek and his wife were married six years ago and after living in Fall River for a time she went on a visit to her home in Poland. When the European war broke out she was unable to get home, but finally managed to get across recently and when she went to her husband he accused her of being unfaithful and she came to live with friends in this city.

A short time ago Vazek entered an action of divorce against his wife, the trial of which is scheduled for October.

Charles A. Donahue appeared for the government and Lawyer Cook of Fall River represented the defendant.

He Stole Lead

Michael Tobin was arrested yesterday by Inspector John A. Walsh and Patrolman Whelan on a complaint charging him with the larceny of lead from the American Mason Safety Tread

Co. in Rogers street. When arrested Tobin had his pockets filled with new lead.

In court this morning Tobin was charged with the larceny of ten pounds of lead, each pound of the value of seven cents. He entered a plea of guilty. It appears that yesterday noon Tobin, while under the influence of liquor, entered the building and helped himself to the lead which was lying about loose.

The court imposed a sentence of one month in jail, but after Tobin's recant was produced he was sentenced to two months in jail.

Sent to State Farm

Joseph Quigley and Robert Knox were charged with being vagrants in Chelmsford, being idle persons, with no visible means of support and living without lawful employment since the first of January. Each entered a plea of guilty.

Constable Vinal of No. Chelmsford said that to his knowledge Quigley has not done a full week's work for the past six or seven years and that he sleeps out and is a nuisance about the village. He said Knox has not done anything for the past three months. The court sentenced both men to the state farm.

Drunk Offenders

There were several drunken offenders in court. Two were sentenced to two months each in jail and another was given a sentence of three months in jail. One was given a suspended sentence of five months in jail and five first offenders were released by the probation officer.

CASE OF PARALYSIS

Continued

apparent in her right wrist, which is somewhat paralyzed.

Agent Bates of the board of health in discussing the case this morning said although this is the second case of infantile paralysis reported in this city this week, there is nothing alarming, for there were fewer cases reported this year than last year. Eight cases of infantile paralysis were reported during the past year, while this year with almost eight months gone by, there were but six cases reported. The first case was reported in January and then there was nothing doing until July 6, when the second case was reported.

Good Hay Crop

Supt. Martin Conley of the Chelmsford street hospital reports a very good hay crop at the city farm. He stated this morning that about 70 tons of hay have been cut and housed and he expects the second crop will also be very good. The corn is coming along fine and he believes next week there will be enough to feed the whole institution.

City Messenger Owen Monahan and Commissioner Morse have returned from Narragansett Pier, where they attended the annual outing of the Massachusetts Highway association. Both men report they had a splendid time.

Examiners Leary, Hubbell and Mc-

Gonaglo of the state highway commission examined 22 applicants for chauffeurs' licenses at city hall this morning.

Achlin, Jr., has taken out nomination papers for representative in the 15th district.

Back on the Job

It was stated at city hall this morning that a few of the cement workers at the Pawtucket bridge, who went out on strike yesterday after being refused an increase of five cents per hour, have returned to their work. The National Engineering Co., which is constructing the bridge, refused to grant the increase on the grounds that the men employed as cement workers at the bridge are receiving higher wages than on any other job in the city.

Supt. Ramsay stated this morning that the strikers' places are being filled with Lowell men and that the work is going along as though nothing had happened.

FEWER CASES TODAY

EXPERTS HOPE COOL SPELL WILL CHECK SPREAD OF INFANTILE PARALYSIS

NEW YORK, Aug. 11.—The epidemic of infantile paralysis showed another slight decline today and health experts who are fighting the scourge here were more hopeful that the cool spell which struck the city yesterday would materially check the spread of the plague. The daily bulletin of the health department shows that during the 24 hour period which ended at 10 a. m., thirty-one children died of the disease and 163 new cases were reported in the five boroughs of New York City. Yesterday, thirty-eight children died of the plague and 175 were stricken.

MAY DELAY SCHOOL OPENING

BOSTON, Aug. 11.—The state board of education is considering the advisability of delaying the opening of public schools throughout the commonwealth on account of the increased number of cases of infantile paralysis. Dr. Faxon, state health commissioner of education, will confer today or tomorrow with the officials of the state department of health and learn their opinion.

Many of the schools open Sept. 5 and for this reason the board seeks to arrive at a decision within a few days. The board has direct control of the state normal schools, but its power with respect to the public schools in the cities and towns are largely recommendatory.

Dr. Francis X. Mahoney, health commissioner of the city of Boston, and his deputy, Thomas B. Shea, do not agree with the state board's view, and oppose any delay in the opening.

The number of cases of the disease in this city at present, 15, is not considered by them as sufficient reason for delaying the school opening.

Dr. Shea said that health officials ought to open because the doctors will thus be better able to discover new cases and to keep informed of the general condition of the pupils. He says that children would get together just as much outside as in the schools, whereas outside they would not have the observation of school physicians.

EXPERIMENT WITH INSECTS

NEW YORK, Aug. 11.—A new phase of the investigation to determine whether infantile paralysis is carried by insects, chiefly the fly, mosquito and bed bug, was agreed on yesterday at a conference here of prominent entomologists from the states of New York, New Jersey and Connecticut, with federal and city health experts.

In addition to the epidemiological research work now being done, entomological studies also will be taken up at once. Dr. Charles E. Banks, senior surgeon of the federal public health service, announced before leaving the city for Washington to consult with Surgeon General Blue, that the public health quarantine regulations dealing with interstate travel of persons afflicted with the disease will be strictly enforced.

No infected person will be permitted in future, he asserted, to travel from one state to another, even though the person lives in the city and wishes to return. Scores of persons who have had infantile paralysis today volunteered to give their blood for serum to aid the little victims of the epidemic.

CHILDREN HARBOR FROM TRAINS

COLUMBIA, S. C., Aug. 11.—The state board of health today prohibited children under 16 years of age from traveling on railroads without a health certificate, as a precaution to prevent the spread of infantile paralysis, of which there have been 35 cases and five deaths recently in the state.

BOY KILLED; DRIVER RELEASED

KENNEDY, Me., Aug. 11.—William Hoerle of Torrington, arraigned before Trial Justice H. H. Bourne today on a warrant charging manslaughter in connection with the killing of two-year-old Harold Strickland by an automobile at Wells Corner Thursday was discharged for lack of evidence. The little Strickland boy started to run across the road to join his two brothers and sisters and went directly in front of a car owned and driven by Mr. Hoerle.

REFINED PETROLEUM CHEAPER

NEW YORK, Aug. 11.—The Standard Oil Co. of New York today reduced the prices of refined petroleum for export 15 cents, making refined in cases 11.35 cents a gallon, in tanks 5.10 cents and standard white in barrels 5.55 cents.

MYSTERIOUS DEATH OF DAVIS

CHICAGO, Aug. 11.—A new element was present today in the mystery surrounding the death at a hotel last Wednesday of Morse Davis, a mining engineer of Vancouver, B. C. It was the announcement made late last night that Dr. William D. McNally, coroner's chemist, in a chemical analysis of the contents of the stomach of Mrs. Davis, who was found unconscious at the time of her husband's death, had discovered no poison of the kind believed to have killed Davis.

The chemist said he would make more tests today for other poisons and that he would analyze several bottles of medicine found in the Davis apartments. Mrs. Davis, after she regained consciousness was quoted as saying that a chemical which her husband used in his professional work must have gotten mixed with salts which she and her husband took for illness. Mrs. Davis is still ill today.

SUGGESTED SUBMARINE SERVICE

THE HAGUE, Netherlands, Aug. 11.—A retired Dutch army officer claims the fatherhood of the transatlantic submarine service recently inaugurated by the "Deutschland." Jankehaar J. Sandberg, formerly of the Netherlands East Indian army, says that more than a year ago he addressed a letter to Admiral Von Tirpitz through the German consul-general at The Hague, setting forth the idea of breaking the British blockade by this means and recommending its execution. A copy of the letter was a few days later brought to the notice of Herr Balhn, the managing director of the Hamburg-America line. The latter was much taken with the plan, and consulted with the competent authorities regarding its execution.

MOVING AUSTRALIAN WHEAT

MELBOURNE, Australia, Aug. 11.—The government's purchase of fifteen large steamships in England to be operated by the commonwealth in the movement of Australian wheat to Europe will not go far towards solving the problem. The steamers have a total cargo capacity of 120,000 tons, but it is doubtful if they can make more than two trips each to Europe before the end of the year, and this will dispose of only 9,600,000 bushels of the huge quantity of the cereal that is awaiting shipment here.

Australia has almost 100,000,000 bushels of wheat stored in sheds or beginning to sprout in stacks where storage is unavailable in country railroad yards, and the commonwealth's next wheat harvest is already in sight to further complicate the problem.

The government's purchase of the steamers is hailed by the labor party with gratification, for the establishment of a government-owned fleet has long been a plank in its platform.

DISCUSS SUFFRAGE AMENDMENT

COLORADO SPRINGS, Colo., Aug. 11.—The present status of the national suffrage amendment was the subject for discussion at the opening session today of the National Women's party conference.

SUN BREVITIES

Joe M. Dineen, cameras, photo supplies. With R. E. Tobin, 441 Merrick st.

The municipal band concert given on the North common last evening by the National band, Richard A. Griffith conductor, was largely attended and proved very enjoyable.

Rev. Fr. Antoine, a member of the order of St. Benedict of Newark, N. J., who was the guest of Underaker and Mrs. Ametee Archambault of Merrimack street, left yesterday with Henri and Archambault and Ernest Brown for a cruise to Halifax, N. S. They will return next week.

Mr. and Mrs. Octave DeVryder of Cumberland are the recipient of a letter from their son, Francois, who is in the Belgian army, and who was reported among the dead a couple of months ago. The young man, after a fierce battle, made his escape to Holland, and he writes that he is enjoying the best of health.

Samuel Laffeur, aged 21 years, of 4 Tanne street today enlisted to serve in the hospital corps of the U. S. Army through the recruiting office at the local armory. Immediately upon applying Mr. Laffeur was examined by Dr. Parker and after he had been pronounced O. K. was shipped to Fort Banks.

Major Colby T. Kittredge, the local recruiting officer, was notified yesterday by telegram from the war department that the application of Larkin of this city for enlistment in the United States army band had been rejected on account of the man's age. Mr. Larkin passed a successful physical examination, but inasmuch as he has passed his 324 birthday, the war department rejected his application.

Dynamite was used yesterday by Undertaker Joseph Albert of this city in an attempt to locate the body of Bernard Gately who was drowned Tuesday afternoon at White's pond, Pelham, N. H. A searching party grappled all over the pond and divers also attempted to locate the body but the work was difficult on account of the muddy bottom and the prevalence of weeds.

The singing at the 8:30 o'clock mass at St. Patrick's Sunday morning will be by John J. Dalton, Miss Rita King, Miss Florence McManus and William Gaskin, while the organist will be Miss Minnie E. Davey, organist at the 10 o'clock mass at the Immaculate Conception church. The program will be as follows: "Jesus, Savior of My Soul," quartet; "Veni, Jesu Del Vili," trio; "Ave Maria," solo; "O Salutaris," duo; and Felsenstein's "Ave Verum," quartet.

The annual upstream trip of the members of the Lowell Motor Boat club was held on the Merrimack river last night. Owners of crafts had invited their friends to accompany them and 14 boats were in line when the start was made. The crafts went up as far as Tyngs Island and on the return trip the boats traveled five abreast in the first and second line and four in the third. Upon arriving at the boat house a buffet lunch was served.

A delightful kitchen shower was tendered Miss Mae McDermott at the home of Mrs. Hubert McLaughlin, 23 Broughton street, Wednesday night. Miss McDermott, who will soon become the bride of Patrolman William Kegan, was the recipient of many beautiful and useful articles during the evening. A musical and literary program was carried out and a buffet luncheon was served. Mr. Harry McDermott acted as accompanist during the evening. The party was in charge of Mrs. Hubert McLaughlin and she was ably assisted by Mrs. Eugene Stillings.

two weeks' vacation at Nantasket beach.

The Wicketta Girls will leave Lowell tomorrow for a two weeks' vacation at the Saratoga cottage, Salisbury beach. They will be chaperoned by Mrs. Cavanaugh.

MATRIMONIAL

Joseph F. Tobin and Miss Margaret E. Reilly were married Wednesday evening at St. Patrick's rectory by Rev. Joseph A. Curtin. The bride wore white, crepe de chine with pearl trimmings and a picture hat. She carried sweet peas. She was attended by her sister, Miss Rose E. Reilly, who was attired in pink crepe de chine and carried Killarney roses. At the close of the ceremony the bridal party repaired to the home of the bride, 138 Worthen street, where a reception was held. The couple left on a honeymoon trip to New York and Atlantic City.

Gulliland—Small

A very pretty home wedding took place yesterday afternoon at 5:30 o'clock at 121 Hoyt avenue when Miss Theresa Catherine Small was united in marriage to Frank Gilmour Gulliland, both of Tewksbury. There were 22 relatives present to witness the ceremony, which was performed by

Rev. J. Harold Dale of Billerica.

The bride was becomingly attired in a gown of white, Georgette crepe and veil carried white sweet peas. The bridal couple were attended by Miss Nettie Gulliland, a sister of the bridegroom, and Mr. Louis C. Small, brother of the bride. Little Dorothy Small and William McCausland were flower children and they carried baskets of white and pink sweet peas. Miss Alice Gulliland played the wedding march. The house was beautifully decorated, the color scheme being pink and white.

The bride's gift to her maid of honor was a very handsome brooch; to the children, gold rings, and to Miss Alice Gulliland, a fan. The bridegroom's gift to the best man was a scarf pin. A wedding supper was served by the D. L. Page Co.

The happy couple, after receiving congratulations, left on an extended automobile trip to the mountains and seashore. They will be at home after October 1, at 121 Hoyt avenue, Lowell.

The groom is a well known dentist

in this city and the bride is very

popular both in this city and Tewks-

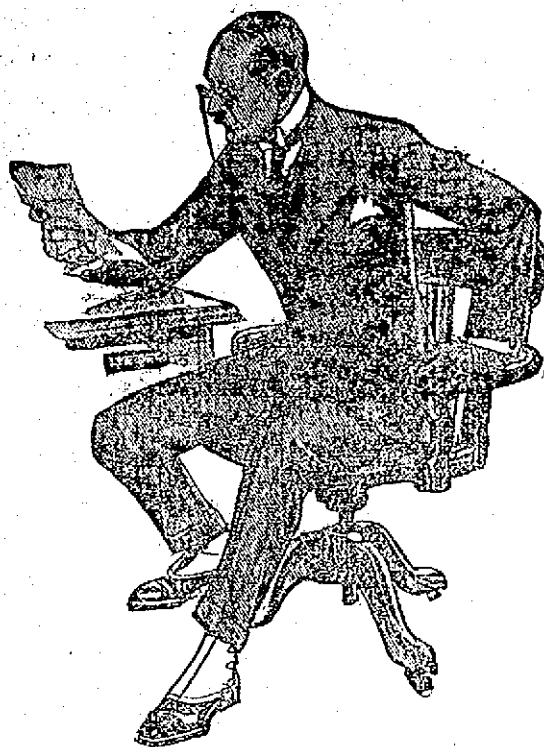

bury. She has been organist of the

Tewksbury Congregational church for

a number of years, and at a music

teacher, has had studios here and in

Tewksbury.

\$9.75, \$12.50, \$14.50

WOMEN HOLD MEETING

COLORADO SPRINGS, Colo., Aug. 11.—Sharp differences regarding the manner of selecting a resolution committee to draft a statement of the election policy of the Woman's National party developed at the first formal session of the national conference here today. A substitute motion that the committee consist of 12 members instead of five as first proposed and that the members be selected by each state instead of by the national chairman was lost by a vote of 40 to 12.

An amendment intended as a compromise was immediately passed increasing the personnel of the committee to eleven—one from each state represented and the original motion was then passed unanimously. Miss Anne Martin, national chairman, announced the selection of Mrs. William Kent of California as chairman and said the names of the others would be selected later.

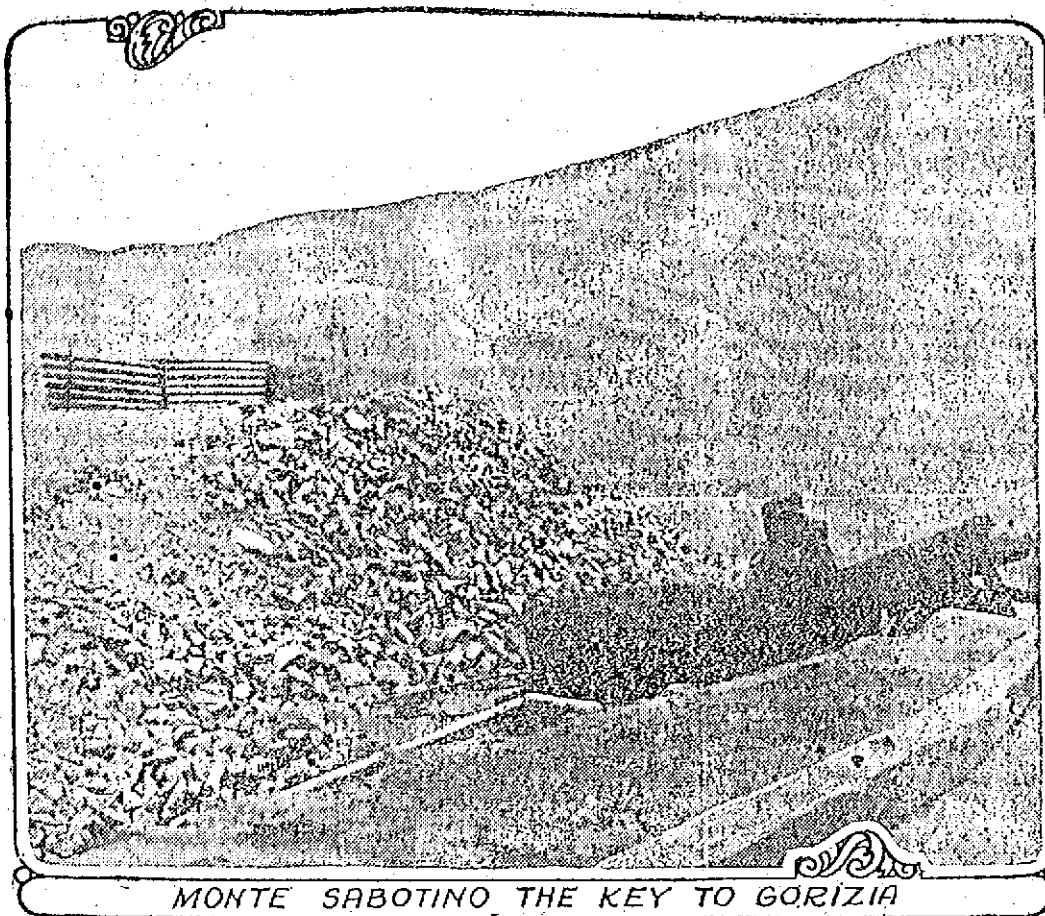

Until all the women of the United States are free, none of them are free, declared Mrs. Florence Bayard Hill, of Wilmington, Del., in speaking here at the conference of the National Woman's Party. Mrs. Hill, herself a democrat and the daughter of the late Thomas Bayard, secretary of state under Cleveland and this country's first ambassador to Great Britain asserted that there had been "gross injustice" shown by the present house judiciary committee toward the Susan B. Anthony amendment and the efforts of the women to have it given a fair trial.

After reciting how, at the first hearing of the congressional union before the committee, "the chairman and some of the members treated the women to a sort of inquisitorial hearing, characterized by ill-breeding, discourtesy and gross injustice," and how later "through a political deal" the suffrage amendment "was lumped together with the prohibition and seventeen other amendments contrary to all parliamentary procedure," Mrs. Hill said:

"The sooner the women of this country, more than half of whom are unrepresented in government, awakened to the fact that this is the kind of unjust treatment to which their most vital interests are subjected, the sooner will there rise in us indeed it has risen, a tide of action that will put an end to such tactics. Individual liberty is the essential basis of free government, and under our form of government both political expediency and political justice demand the national enfranchisement of women. Until all the women of this country are free, none of them are free."

"The hopeless task of state referendums has taught women the futility of such action and the necessity for concentration on the federal amendment. Undoubtedly enough states are now won to enable the most skeptical

ITALIANS HAD TO STORM MOUNTAINS BEFORE TAKING CITY OF GORIZIA

Monte Sabotino, the great Austrian fort in the Julian Alps captured by the Italians before they took the city of Gorizia, was the key to the city. The fort is situated on the edge of the high mountain, and an enormous sacrifice of life was made by King Victor Emmanuel's troops in the ascent of the peak shown on the right in the picture. The lines are Austrian trenches and other defensive works. The rounded structure at the left is a concrete Italian fort.

observer to see that the political power already in the hands of women themselves is sufficient to win freedom for all women."

ALWAYS SOMETHING WRONG

The Robinson combination fire apparatus at the Merrimack street fire house is out of commission. Yesterday

it was found that one of the axles was sprung and after that trouble had been remedied it was learned that a gear in the transmission was broken and it will be necessary for the machine to be idle until a new gear is secured. In the meantime several other pieces of apparatus will cover the alarms to which Hose 8 responds.

COMMONS CRITICISE FINANCES

LONDON, Aug. 11.—Reginald McKenna, chancellor of the exchequer, was subjected to criticism in the house of commons yesterday on the ground of over-reliance upon treasury bills, his critics arguing that the large amount of such bills outstanding constituted a danger and that the government ought to have issued another war loan.

In the course of his reply the chancellor claimed that Great Britain was able to borrow abroad at much lower terms than any other belligerent power. He estimated the nation's total indebtedness at the end of the present financial year to be £3,440,000,000 (about \$17,200,000,000).

From that amount, said the chancellor, the nation was entitled to deduct £500,000,000 (about \$2,500,000,000) lent to allies and dominions of the empire, the sum left being a burden it could well sustain, as it was practically balanced by the present national income. In fact, he declared, Great Britain was in the position of the man whose income was £3000 and whose debts amounted to £5000, which was not an alarming position.

SERIOUS BREAK

Continued

of the front intermittent artillery fighting occurred. On the night of August 9-10, French aerial squadrons bombarded the railway station and barracks at Pozieres and the station at Bazancourt.

BRITISH MAKE FURTHER PROGRESS ON THE SOMME FRONT

LONDON, Aug. 11, 3.15 p. m.—North of Bazancourt-le-Petit and northwest of Pozieres, on the Somme front, the British have made further progress, it was announced officially here today.

The announcement follows: "Last night the enemy opened heavy machine gun and rifle fire on Highwood, followed by an artillery barrage on the back area. We replied effectively and no hostile attack developed."

"North of Bazancourt-le-Petit, we made further progress, taking a short length of trenches and inflicting considerable loss on the enemy. At 5.45 a. m. the enemy made a determined counter attack on the trenches cap-

tured by us. This attack was repulsed with further heavy loss by the enemy."

"Northwest of Pozieres we also advanced our line slightly at certain places. "Near Neuville-St. Vaast we exploded a mine last night and occupied the crater with little opposition. South of Ypres we successfully raided a ruined farm in the enemy's lines. On the remainder of the front there was no event of importance."

BERLIN ADMITS RETREAT OF AUSTRIO-GERMANS IN GALICIA

BERLIN, Aug. 11, via London, 5.55 p. m.—Austro-German troops in the region of Monasterzyska at points on the Dniester and in the Bystritsa river regions of Galicia have been compelled to give way because of the superiority of hostile forces at some places, says today's war office statement.

Counter-attacks brought the engagements to a standstill and a regrouping of the Teutonic forces is now taking place.

The statement says: "Front of Archduke Charles Francis: Southwest of Monasterzyska and in the angle formed by the Dniester and Bystritsa, strong Russian forces attacked us. The superiority of the enemy compelled the brave defenders to give way at some points. Our counter-attacks intercepted storming attacks of the enemy and brought the fight to a standstill. A regrouping of the allied (Teutonic) troops, which was ordered so as to take into account the altered positions of the Russians, is now taking place."

"In the Carpathians the enemy made futile efforts to wrest from us advantages we had gained south of Zabie. "Balkan front: South of Lake Doiran the enemy made sham attacks with weak detachments which were repulsed by our fire without serious fighting. "Western front: Native and British troops attacked north of the Somme without result. Frequently repeated storm attacks by French troops slightly to the north of the river met the unyielding resistance of Saxon reserve detachments and failed."

NUMBER OF PRISONERS TAKEN BY ITALIANS NOW EXCEEDS 15,000

ROME, via Paris, Aug. 11.—The number of prisoners taken by the Italians since the fall of Gorizia now exceeds 15,000, according to the correspondent of the Tribune on the Isonzo front. Italian cavalry and cyclists are clearing the valleys of the retreating Austrians and, according to the correspondent, the battle continues in favor of the Italians on both wings.

GERMAN AIR ATTACKS ON BRITISH WARSHIPS AND RUSSIAN STATIONS

BERLIN, Aug. 11, via London, 1.07 p. m.—Successful attacks by German air squadrons on British war vessels off the Flemish coast and on Russian aviation stations on the Island of Oesel, off the Gulf of Riga are announced in an admiral's statement issued today as follows:

"A squadron of our seaplanes on the afternoon of Aug. 9 successfully attacked with bombs British monitors and light forces off the Flemish coast obtaining several definitely established hits."

"On the same day the Russian aeroplane stations at Aorensburg and Lebara on the Island of Oesel were attacked by several German air squadrons with good results, a number of hits being observed. An aeroplane shelter building was badly damaged, the roof collapsing. Of the enemy planes which ascended for the defense, one was obliged to descend."

"Despite the heavy fire of the British and Russian forces all the aeroplanes returned undamaged."

BERLIN REPORTS RAID ON ROTTWEIL, WUERTEMBERG—LITTLE DAMAGE

BERLIN, Aug. 11, via London.—"The night of Aug. 7, enemy airman dropped several bombs on Rottweil, Wuertemberg," says an official statement issued here today. "A dwelling house was hit and several persons were wounded. No military damage was done."

The official French statement of Wednesday afternoon said a French aviator dropped 330 pounds of explosives on the powder factory at Rottweil, causing two extensive fires

Before Stock-Taking Sale

AT THE BOSTON LADIES' OUTFITTERS

GREATER BARGAINS THAN EVER FOR FRIDAY, SATURDAY AND MONDAY ON Coats, Suits, Dresses, Skirts and Waists

and several explosions. KING OF ITALY AND GEN. CADORNA PRAISED FOR TAKING GORIZIA

ROME, Aug. 10, via Paris, Aug. 11.—The importance of the Italian successes around Gorizia is becoming

more evident hourly. The battle, is continuing behind the city over a front of about 12 miles. The Austrians have retreated along the railway road in the direction of Dornberg, eight miles southeast of Gorizia, and over the national highway to Schon pass, six miles to the east, and are now attempting to re-form their front on a line extending from Vipacco to Tarvis.

Meanwhile the Austrians are attempting to take the offensive at Monte Nero and various other parts of the Italian front but thus far have been unable to divert the Italians from their operations behind Gorizia. Popular enthusiasm is at high pitch throughout Italy. Congratulations are

pouring in from all parts of the world to King Victor Emmanuel and Gen. Cadorna.

"The third army, under command of the Duke of Aosta which is still bearing the brunt of the fighting, has won high praise. The duke, before the battle began, called on his army to fight and win "in the name of your mothers, your wives, your sisters and your country."

"The third army, under command of the Duke of Aosta which is still bearing the brunt of the fighting, has won high praise. The duke, before the battle began, called on his army to fight and win "in the name of your mothers, your wives, your sisters and your country."

DEMOCRATS IN SESSION

Informal Conference for Adoption of Party Platform at Saratoga Springs

SARATOGA SPRINGS, N. Y., Aug. 11.—The democratic state informal conference for the adoption of a party platform was called to order today by Edwin S. Harris, chairman of the state committee.

During the roll call a delegation of about 60 women, many of them gowned in blue and yellow, the suffrage colors, and all wearing sashes bearing the inscription "Votes for Women," found seats at the side of the hall.

At the conclusion of the roll call, the committee on organization naming Representative John J. Fitzgerald of Brooklyn as conference chairman, was adopted.

After taking charge of the conference, Mr. Fitzgerald said that on account of throat trouble, he would postpone the delivery of his prepared speech until the evening session. Later he gave the reporters permission to print the address in afternoon papers.

The conference adjourned at 1.10 p. m. until 8 p. m., after adopting a report of the rules committee, requesting the chairman of the county delegations to inform the conference of the prevailing sentiment of their respective delegations concerning candidates for the gubernatorial nomination.

REP. FITZGERALD'S ADDRESS

SARATOGA SPRINGS, N. Y., Aug. 11.—Unfettered praise of the Wilson administration and a scathing denunciation of the alleged extravagance and incompetence of the republican administration of state affairs were

voiced by Representative John J. Fitzgerald of Brooklyn, temporary chairman of the informal state conference of the democratic party here today.

The democratic party in three years, he said, had enacted for the nation "more progressive, remedial and beneficial legislation than had been perfected previously in any two decades."

"This included the constitutional amendments for the direct election of senators and the levying of a tax on incomes, the Underwood tariff law, the federal reserve act, the good roads law, the agricultural co-operative extension act, the Clayton act and the anti-injunction law."

Mr. Fitzgerald denied the assertions of Charles E. Hughes, republican candidate for president, that the country is enjoying only temporary prosperity. He declared that exports have virtually doubled since the advent of the Wilson administration. He quoted figures to show that new textile mills are under construction, that many wage-increases have been reported and that bank resources and deposits have increased greatly. This condition, he said, was due chiefly to the belief of the people that the affairs of the nation were in safe hands and that there was no fear of the country being plunged into war.

After reviewing the accomplishments of the democratic party while in control of state affairs, Mr. Fitzgerald declared that during the past two years of state administration, "the republican party had not to its credit a single important enactment beneficial to the state."

THOUSANDS HOMELESS TODAY'S STOCK MARKET INJURY TO EYES WIRELESS CALLS

Houses Washed Away at Rate of One a Minute — Eye Witness Talks of the Flood

HUNTINGTON, W. Va., Aug. 11.—Rescue parties proceeded far into the mountain districts today carrying relief to thousands of homeless people in the Cabin creek valley which was swept by a flood Wednesday, causing a loss of more than lives and property damage reaching into the millions.

J. W. Hartless, who was at Eskdale when the cloudburst swept Cabin creek valley, is the first eye witness to reach Huntington from the flooded district.

According to his story, at 8.30 o'clock in the morning Cabin creek started rising at the rate of eight feet an hour and continued until the creek reached from mountain to mountain. Houses floated down stream at the rate of one a minute. He watched almost all of Eskdale swept away. Whole families rushed for the hillsides, he said, but some never reached safety. One could hear women praying on all sides.

ADMITS DOUBLE MURDER TO SINK ALL CONTRABAND

MAN CONFESSES TO CRIMES FOR WHICH ANOTHER IS UNDER DEATH SENTENCE

LITTLE VALLEY, N. Y., Aug. 11.—Irving King, the itinerant peddler who is alleged to have confessed the murder of Charles B. Phelps, the West Shelby farmer, and his housekeeper, Margaret Volcott, for which Charles B. Stielow is now under sentence of death at Sing Sing after numerous reprieves, will be turned over to the authorities of Orleans county whenever a request is made for him. Sheriff Nichols of Cattaraugus county said today. Affidavits covering the confession alleged to have been made last night were being drawn up today. The confession also is said to clear Nelson Green, Stielow's nephew, who was given a 20-year term for complicity in the murders.

SHIPS CARRYING WAR MUNITIONS TO ENEMY THREATENED WITH DESTRUCTION

LONDON, Aug. 11. (2.03 a. m.)—The German minister at Stockholm has issued in behalf of his government a revised list of contraband, says a dispatch from that city to the Morning Post.

At the same time it is announced that the commanders of German warships have been instructed to sink all ships bound for enemy ports, carrying cargoes which consist wholly or in part of contraband, either absolute or relative.

TAX MUNITIONS MAKERS

TEN PER CENT NET PROFIT TAX AGREED TO AS SUBSTITUTE BY DEMOCRATS

WASHINGTON, Aug. 11.—A 10 per cent net profit tax on manufacturers of munitions of war was agreed on today by democrats of the state finance committee as a substitute for the munitions taxes proposed in the house revenue bill.

The committee completed its consideration of the house bill for submission to the caucus tonight, the measure being estimated at \$18,000,000, or \$11,000,000 less than the house bill. Specific duties on munitions proposed in the house would have yielded \$72,000,000. Under the senate amendment the revenue to be derived from munitions will be only \$45,000,000.

TRAIN OF WATER FOR BORDER

NEW YORK, Aug. 11.—Forty new tank cars, fresh from the shops, have been offered to the government by the Union Tank line to carry drinking water to the troops encamped along the Mexican border. The tender was made in consequence of the failure of all ordinary quartermaster's facilities to provide a constant and adequate supply, and in the face of a shortage of from 2000 to 3000 tank cars in the southwestern rail trade.

The cars will be run in a solid train from the shops of the American Car and Foundry company to San Antonio, carrying some 320,000 gallons each trip, and the equipment will remain at the disposal of the government as long as it is needed.

WANTS SPEEDY END OF WAR

AMSTERDAM, Jan. London, Aug. 11.—Count Michael Karolyi, leader of the new independent party, speaking in the Hungarian chamber of deputies, says a telegram from Budapest, asserted it would be in the interests of peace if the government would make a declaration in regard to the war aims and conditions for ending the conflict. He desired a speedy peace, but wished it to be a lasting one.

Referring to Rumania, the count said:

"So long as a Hungarian breathes we shall fight unwaveringly for the integrity of Hungary and the defense of Transylvania."

Count Albert Apponyi, leader of the opposition, said he saw the best guarantee of lasting peace in the strengthening of the monarchy's alliances.

Premier Tisza declared his agreement with Count Karolyi's view.

"I do not speak here of Rumania, where today we confront the hostile tendency of irresponsible elements," he continued. "It is openly avowed that the partition of the monarchy and especially of the Hungarian state is the object aimed at. So long as we face such a situation we shall not speak in this house of peace, but of victory. The task for the present moment is to make every exertion for victory."

HOTEL SUES N. Y. CENTRAL

BOSTON, Aug. 11.—Suit for \$100,000 damages has been brought against the New York Central and Hudson River Railroad company in the superior court by Nathan Matthews, trustee of the Hotel Oxford property on Huntington avenue. Depreciation in the value of the estate because of acts of the railroad company is alleged.

The Hotel Oxford abuts on the tracks of the Boston & Albany railroad, which is leased by the New York Central. Mr. Matthews says that the railroad company has unreasonably, carelessly and unlawfully and colorably caused smoke, soot, cinders and noxious fumes to be blown into the air and darkened the building and make the rooms in the hotel uncomfortable and unfit for guests.

As lessee of the hotel building the Hotel Oxford company also seeks to recover from the railroad company to the extent of \$50,000.

HUGHES ON THE JUMP

FAIRGO, N. D., Aug. 11.—Charles E. Hughes left Fairgo today on a revised schedule that will enable him to deliver an evening address at Billings, Mont., tonight.

The strain of campaigning has affected the nominee's voice, which was so hoarse at times during his speech here last night that he had to stop frequently for a few seconds at a time. Consequently there will be few speeches from the train.

A ride across the North Dakota plains to the Montana line is to be broken by a series of short stops. The first of these is at Bismarck for 10 minutes. At Medora, where Theodore Roosevelt spent part of his early life on a ranch, a five-minute stop is to be made.

KILLED BY TAXI ON HILL

CONCORD, N. H., Aug. 11.—George L. Osgood, a former secretary of the New Hampshire Firemen's association, was accidentally killed last night.

He was riding a bicycle when a taxicab descending the State street hill struck him.

AUSTRIAN AIR RAID

BERLIN, Aug. 11.—(By wireless to Berlin.)—Austro-Hungarian naval aeroplanes on the night of August 8 successfully bombed hostile battery positions at the mouth of the Isonzo and the hostile naval station of Gorizia, says an Austrian admiralty statement today.

One of the results of the present war is the astonishing increase of women students in all German universities.

BRITISH USE NATIVES

INDIES JOIN WITH FORMER ENEMIES IN ATTACKS ON GERMAN EAST AFRICA

Reports from East Africa—emanating, however, from British sources—say that the Germans are about to lose their last colony, German East Africa.

The British have employed both white and colored troops in their conquest of German territory in Africa, and in some of the operations Boers have taken part side by side with their former enemies. Pictures show a Briton in East Africa crossing a river with the aid of a native.

WIDE OPEN CITY

Boston in Danger, Says
Anti-Saloon League—
See Women at Bar

BOSTON, Aug. 11.—Boston is in danger of becoming a "wide open" city if the present licensing board shares the governor's conception of its duties, and is strictly bound by statute law, in the opinion of the headquarters committee of the Massachusetts Anti-Saloon league, which yesterday held a special meeting and issued a statement on the licensing board controversy.

Women at the Bar

There is absolutely no reason why all the saloons in Boston cannot serve liquor to women in back rooms or even at their bars, if the governor's theory of the board's authority is to be accepted by the present board, declares the headquarters committee.

The committee wants to know, and asks the governor directly, if he would set aside certain regulations formulated by the licensing board, one of which actually makes it impossible for a woman to secure a drink over the bar in this city.

The committee wants to know if the governor would set aside the regulation under which licenses were sold up in hotels where soliciting was going on; if he would ignore the regulation against "treating on the house"; the regulation which would keep saloons a specified distance from private schools, and many others which were passed for the purpose of raising the moral standards in Boston's drinking places.

Not Improved One iota

The statement asserts that conditions are not improved one iota by the ban on certain practices provided by the statute law, and that only the action of the old licensing board in holding up licenses accomplished results for good.

Superintendent Arthur J. Davis of the league, presided at the committee meeting and the entire situation relative to the affairs of the licensing board was gone into with particular reference to the appointment to the board of Fletcher Hannon to succeed Robert A. Woods and the resignation of Charles R. Gow. All of the statements issued in the licensing board controversy were read and discussed in detail, the statement issued by Governor McCall in response to that of former Chairman Gow receiving the strictest attention.

FITZGERALD WITHDRAWS

FORMER MAYOR OF BOSTON WILL
NOT BE CANDIDATE FOR U. S.
SENATOR

BOSTON, Aug. 11.—Former Mayor John F. Fitzgerald announced yesterday that he would not be a candidate for the United States senate on the democratic ticket. This statement, Mr. Fitzgerald said, was made in order that former Gov. David I. Walsh might "not be embarrassed in his decision of the question of his candidacy" for the same office.

SOCIAL AND FRATERNAL

A well attended meeting of Central council, A.O.U.L. was held last night and the different sub-committees submitted reports on arrangements for the state convention which is to be held here on August 21, 22 and 23. The committee in charge of the banquet reported all arrangements completed and that a number of prominent speakers had been secured. President Sheahan reported the only obstacle was in securing rooms for the delegates at the convention and all those residents who will have rooms vacant during the days of the convention are requested to notify the president or any officer or member of the committee. The committee on decoration reported that the hall for the convention and the banquet will be appropriately decorated. The whole committee will meet again on Sunday morning when further reports will be heard.

Sleep Well
Hot NightsSanfords
Ginger

Relieves fatigue, nerve strain, weakness, and intestinal indigestion, the latter often the cause of sleeplessness. A panacea for ills incidental to travel. Always helpful and healthful.

LOWELL GIRL DROWNED

Dorothy Estes Loses Life in
Pentucket Pond in Attempt to
Save Blind Child

Miss Dorothy Estes, 22 years old, of Lowell, a teacher at the Perkins Institution for the Blind of Boston, lost her life in Pentucket pond in Georgetown, yesterday afternoon, in a vain

DOROTHY ESTES

effort to save from drowning one of her 15 blind charges, Bessie Stenosky, 15 years old, of Chelsea, after the latter mistaking the direction of the shore, had walked out beyond her depth. Both were drowned in 15 feet of water.

Miss Estes went to Georgetown three weeks ago, with a group of blind girls from the institution. The party was in a delightful camp opposite York Grove, occupying the Lowell cottage. While other campers, blessed with all their faculties, took daily diversion by bathing in the pond, the

young blind girls contented themselves with wading in the shallow places, under Miss Estes' oversight.

Held in Fatal Clasp

Several of them were thus enjoying themselves yesterday afternoon, when it was observed that the Stenosky girl was well out. Miss Estes called to her to come back to the shore. The girl mistook the direction, turned and waded toward the middle of the lake. Miss Estes, who could swim, ran into the water and caught up with Bessie, who was floundering helplessly. A water nearly over her head. The blind girl, convulsed with fright, clasped her arms about Miss Estes' neck, and in the struggle that ensued, both were carried still farther out, and finally under.

Henry Longfellow, who owned the cottage occupied by the party, and was passing his vacation in the one adjoining, brought the body of Miss Estes to shore within a very short time, and tried first aid methods of resuscitation. Meanwhile Dr. Richmond R. Root, medical examiner for the district, came post haste in an automobile, and continued for one hour efforts to restore life. At the end of that time he pronounced the young woman dead, and ordered the removal of the body to the undertaking rooms of Dale and Childs, Haverhill.

Some one notified the board of selectmen and Schoolmaster Michael Bradley and Frank Kneeland, grandfather of the body of the Stenosky girl, before they found it, in 15 feet of water. Dr. Root ordered its removal to Haverhill.

Her Sister Barbara

Dorothy Estes was counselor of the camp. Her sister, Barbara Estes, was away from the camp at the time of the accident, but arrived when efforts were being made to resuscitate her sister. She assisted to the best of her ability. After all hope of saving her sister's life was abandoned, she comforted her grief and decided she would bear the sorrowful news to her family and started for this city.

The body of Dorothy Estes was brought to this city last evening.

Graduate of Wellesley

Miss Dorothy A. Estes was the eldest daughter of Mr. and Mrs. Frederick A. Estes of 715 Westford street.

She was graduated from Lowell high school in 1912 as salutatorian of her class and a Carney medal scholar. She was graduated this year from Wellesley college and was to have begun in the fall a postgraduate course in teaching in Columbia university. She intended to devote herself to social work and her work among the blind was part of her preliminary training.

Fall Caused Blindness

Miss Bessie Stenosky was the youngest daughter of Jacob Stenosky, janitor of the Hebrew school in Chelsea, and up to three years ago was employed in a Boston store. It was while working here that she had the fall which was the cause of her blindness. As a result of the accident a suit is now pending. Miss Stenosky attended the Chelsea public schools.

BEATEN UP BY POLICE

LIVELY FIGHT IN BOSTON LODGING HOUSE—TWO POLICEMEN KNIFE

BOSTON, Aug. 11.—David Sokol, a West End lodging housekeeper, who recently landed in the alleged "poker graft" case in connection with the payment of money to Abraham Lichman for alleged police protection for Sokol's house, was badly beaten up last night by Patrolman Oscar J. Donnelly and Elmer W. Morgan of the Joy street station.

The police claim Sokol resisted arrest, and that his family turned upon him, beating him and using a knife.

Sokol is at the relief hospital in a serious condition, with three ribs broken, scalp wounds, contusions of the face, shoulder, chest and arms. The affair happened at the house, 21 Goodwin street, during the last Sunday of 14 Ashland street a week ago.

The elder Sokol refused to go with the officers and declared that he would never enter the Joy street station again. Both officers then produced the warrant and told Sokol that they were going to take him.

In an instant the battle began. Sokol broke away from the officers and tried to make his escape. It was at this point that his wife and her mother, the police charge, took a hand in the affair.

The cries of the women and the noise caused by the overturning chairs, tables and other pieces of furniture drew a large crowd.

Despite the efforts of the officers they were unable to take Sokol from

the room. It is charged that these, Hyman, grabbed a bread knife and made several attempts to cut Donnelly with it.

Morgan grabbed young Hyman's wrist and in doing so received a cut finger. Patrolman Donnelly was also cut on the hand.

The boy then made his escape, but was later captured by the officers when he returned to the house. He was booked at the Joy street station charged with assault with intent to kill Patrolman Donnelly.

Sokol was finally quieted down, but not until both officers had used their clubs upon all parts of his body. He

was taken from the house and driven in the patrol wagon to the station house. Dr. Duvalley examined him and ordered his removal to the hospital.

Both officers had their injuries treated at the station house. Patrolman Donnelly claimed that during the fight he was kicked several times in the groin and he was sent home.

Patrolman Morgan returned to duty after the physician had treated his hand.

CONSUL FROM CHILE
Sr. David G. Montt has been appointed by the Chilean government as consul at Wellesley Hills, Mass. Mr.

Montt is the foreign trade expert for the state board of labor and industries. Commissioner of Labor Edwin Mulready allows that Massachusetts manufacturers are fortunate in being able to secure Mr. Montt's services, free of charge, through the state board of labor and industries, at all times in promoting the industrial development of this state. As consul, Mr. Montt is even better qualified to serve Massachusetts manufacturers in extending their trade.

TEN NEW ZEPPELINS

COPENHAGEN, Aug. 11.—The Germans, says a report received here, have just completed and placed in large shed at Darnstadt, ten Zeppelins of 250 feet in length with a capacity of 199,675 cubic feet. In the hull is provision for machine guns and for light pieces of ordnance. The newest Zeppelins are said to have four armor-plated cars, of which the first is the heaviest. All the cars are fitted with guns. Armor plate gangways connect the cars. The engines indicate 150 horsepower, and the speed is 57 miles an hour. The ships can reach a height of more than 13,000 feet.

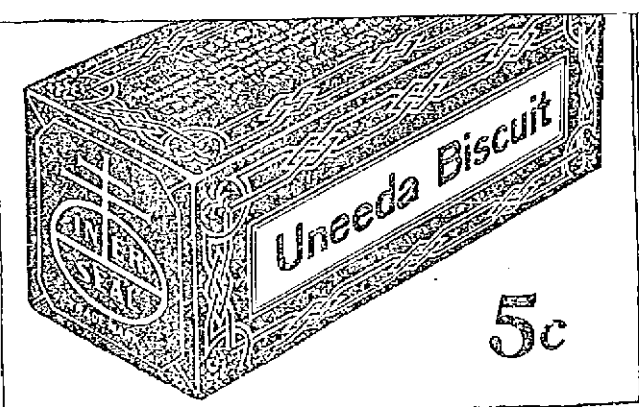

BACHELOR GIRLS' PARTY

A very enjoyable dancing party and song revue was held last night at the Casino in Thorndike street, under the auspices of the Bachelor Girls. Music for dancing was furnished by Broderick's orchestra. Tomorrow night the members of the organization leave for a two weeks' vacation at Salisbury beach, where they will occupy the White Swan cottage and last night social was in the nature of a farewell party.

Dancing started during the early part of the evening and continued until a late hour. A splendid song revue was given at 9:30 o'clock. In this chorus of club members marched to position in front of the orchestra, wearing white coats and bouquets of red roses. The solos were rendered by Misses Maude, Golda, Genevieve Winn, Rose Nicholson, a Lillian McPherson. Besides these, the choruses were Misses Agnes Nicholson, Rita Halloran, May King, Mary Griffin, Estelle Gurney, Mary Burns, Mollie Peterson, May Flynn, Margaret Tobin, Mary T. Gallagher, Nancy Swift, Mrs. Etta Finnegan, Mrs. Catherine Clessey.

These in charge of the affair comprised the following: Miss Mary Gallagher, president; Mrs. Etta Finnegan, vice president; Miss Madeline Finnegan, secretary and Mrs. Catherine Clessey, treasurer.

When President Wilson ordered National Guard to the Mexican border, Mrs. Charles E. Hatcher, Mrs. W. H. Garrison and Mrs. George W. Wickshaw conceived the idea of a Women's American Sunray League and seeking the co-operation of all women who have time and money to forward to their aims.

WHEN lunch or supper seems a long time off and you're hungry, eat Uneeda Biscuit.

RAINY WEATHER GOSSIP

Lowell Club Has Many Postponed Games at Home—Team Will Leave Tomorrow on Long Trip

Although the rainy season has hit owners of all Eastern league clubs hard and put them down so far in the hole that there is little chance of any of them making an even break for the year, Andrew P. Roach of the Lowell club has had far more than his share of the weather man's unpleasant offerings.

Of 17 postponed games this year, 13 were to have been played in this city. Hence President Roach has had to come across with rain guarantees on 13 occasions while he has received but \$400 all told as a result of games being postponed while his team was on the road.

Lowell still has many postponed games to be played off here and fans will be treated to all kinds of double headers when the team returns from its next trip which begins after tomorrow. Lowell will not have another league game until August 23 when Hartford will be here for a double header.

Tomorrow Lowell goes to Lawrence for two games. The attendance at Riverside park will have considerable

Built On Satisfaction

P&Q Clothes are guaranteed to be the best values in town.

In this shop you can pay only \$10 or \$15 for your new suit. Yet you get the best value—the best style—in town. The equal of clothes that sell elsewhere at \$20-\$25.

We sell 'em direct from maker-to-wearer and eliminate all in-between profits.

This is not a "retail" shop in the ordinary sense. It's really a wholesale shop, for P&Q Clothes are made by a Tailoring Organization owned and controlled exclusively by our 20 P&Q Shops in 20 different cities.

And we're the original style cranks. Nothing that's new and nice escapes that "Master Of 'Em ALL"—that "Shark With The Shears"—the P&Q Designer. AND what his eye doesn't see, his master brain conceives. RESULT—Clothes of as many, as varied and as perfect in design as the Masterpieces in the Gallery of ART.

Ask Your Neighbor! He Knows!

Grandstand, Carriages and Autos Free.

effect on the future of Eastern league baseball in that city. For several days, or since the change in management, committees have been working to draw out the biggest crowd of the season to convince Manager O'Hara that Lawrence is just as good a baseball city as of old.

All next week Lowell remains in the cities on the other end of the circuit with games in Hartford, New Haven, Springfield and New London. New material is needed to give Lowell the strength to get an even break or better with these teams. With the exception of Hartford all have been building up their clubs in an endeavor to give the fans as good ball as possible for the remainder of the season and also to prepare for next year's fight. Even New London has tried out a new player or two during the past few days.

Since the first of July Lowell has won nine and lost 25 games, a percentage of .243. Hartford has made the same showing. Hugh Duffy's Portland team has been doing the best work with 30 games won and 10 lost, an average of three victories in every four games played during that time. New London has done the second best work winning 23 games and losing 11. Worcester is third with 21 games won out of 35 played. New Haven and Bridgeport, both second division teams, have done good work during the past six weeks and hence they are attracting fairly good crowds. Both teams have won more than 50 per cent. of the games played.

Worcester has been a great team for winning at home. Of 34 games played to date by Billy Hamilton's team 47 of them have been entered under the win column. Twenty-nine of the 47 victories were won at Houliard park, the team having been defeated but 12 times on its own stomping grounds. The Boosters' showing has been just as poor on the road as it has been good at home. They have played 43 games on foreign diamonds and only 13 of them have resulted in victories. Thirty-three playing days remain on the Worcester schedule. Of these 20 are at home and 13 away.

GAMES TOMORROW

Eastern League
Lowell at Lawrence (2 games).
Lynn at New London.
Springfield at New Haven.
Bridgeport at Hartford.
Worcester at Portland.

American League
Washington at Boston.
Detroit at Chicago.
Cleveland at St. Louis.
Philadelphia at New York.

National League
Boston at Brooklyn.
New York at Philadelphia.
Chicago at Pittsburgh.
St. Louis at Cincinnati.

Miss Eleonora Sears in Sensational Shipwreck—Yacht on Reef

BOSTON, Aug. 11.—The arrival in the harbor yesterday of the steam yacht Condor, in tow of a tug and with her hull stove in, rudder broken off and brought to light for the first time the story of a shipwreck off Baker's Island in which Miss Eleonora Sears of this city and Mr. and Mrs. G. Maurice Heckscher of New York thought for awhile that their end was near.

It happened last Tuesday morning. The Condor, bound from Narragansett pier to Marblehead, bringing the Heckschers and Miss Sears up for a tennis tournament, was poking her way slowly through a heavy fog, when suddenly there came a terrific crash. It seemed for a moment as if the yacht had been ripped apart.

The Heckschers and Miss Sears, who were in their staterooms, rushed on deck to find the yacht fast filling with water and settling deeper and deeper. The captain had mistaken his course and driven the vessel on a reef off Baker's Island.

For a few minutes it was feared that the yacht would sink. The crew of 14 men lowered the lifeboats and made ready to abandon ship. Investigation by the captain, however, showed that the yacht was caught too fast on the reef to sink, and with no immediate danger, the Heckschers and Miss Sears decided to remain aboard.

There were a few minutes, though, when we thought we would have barely time to save ourselves," said Miss Sears, recounting the story of the wreck to a newspaper reporter last night. "When the crash came I was in my stateroom. A second later and the water poured into it like a deluge. I did not even have time to catch up any clothing. Neither did the Heckschers, in their stateroom."

"When we got out on the deck we thought surely that the boat was going down. Soon afterward, however, after the life boats had been lowered, we knew we were safe.

"The captain sounded distress signals and within a very few minutes a small power boat, loaded with the crew, came to our aid. The fog was so thick that we could not see the boat until it was almost on top of us. It was a fisherman. He brought his boat alongside and made certain there was no immediate danger of our sinking, then offered to take us ashore. Mr. and Mrs. Heckscher and I gladly accepted and we went with him into Marblehead.

Later in the day a tug was sent out from Marblehead, and after much difficulty the Condor was floated off the reef and brought into Marblehead harbor. The pumps had to be kept going constantly to prevent her sinking, and it was decided to take the vessel to drydock in Boston.

The Condor, an unusually finely appointed vessel, 175 feet long, is under charter to Mr. Heckscher.

TO PRESERVE SUBMARINE

Dr. Gibbons Don't First Craft Built From Plans of James Holland to Save It

NEW YORK, Aug. 11.—Dr. Peter J. Gibbons, who has purchased the first submarine built from the plans of James Holland, offered today to give the ancient craft to the city, historical society or museum that could show the best right to it, and that would guarantee to preserve it.

"We bought it because we did not want to see it lost as was Wright's first aeroplane, Fulton's steamboat and the steamship built by Gibbons in Philadelphia, 31 years before Fulton built his," said Dr. Gibbons.

SUES FOR LUSITANIA DEATH

Mrs. Stevens of Cambridge, Widow of Victim, Seeks \$32,500 From the Cunard Company

BOSTON, Aug. 11.—A suit of \$32,500 against the Cunard Steamship company, Ltd. has been filed in New York by Mrs. Laura Stevens of Cambridge, Cambridge, whose husband, Charles H. Stevens, was lost on the Lusitania. The body of Mr. Stevens, who was 53, was picked up off the coast of Ireland, early this year, and buried in England.

In the lining of his garments was found \$7000 in cash, which was turned over to Mrs. Stevens.

DROWNED OFF YACHT

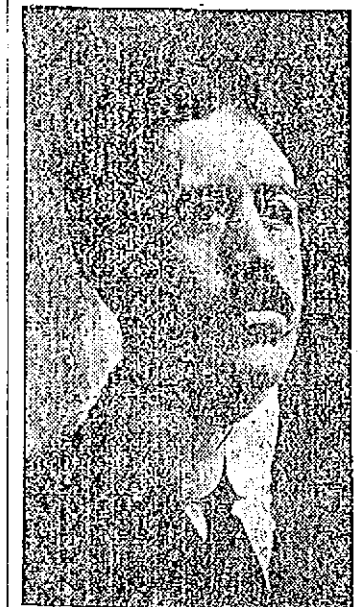

MARBLEHEAD, Aug. 11.—Berga Mortensen, a Norwegian deck hand on the Bar Harbor 31-footer Cricket, owned by T. K. Lohrop, Jr., was knocked overboard and drowned in the race for the Corinthian Yacht club yesterday.

The accident happened near Tom Moore's Rock. There was a heavy sea running and Mortensen was being one of the masthead runners when a big wave hit the yacht and he was knocked overboard.

REUNION OF ALUMNI A BIG SUCCESS—BANQUET AND SPEECH-MAKING IN THE EVENING

One of the most successful reunions in the history of St. Joseph's college alumni took place yesterday when about 200 former pupils of the school gathered around the festive board at their alma mater and after partaking of a very substantial dinner, listened to interesting addresses by able speakers.

As published in yesterday's issue of The Sun, the opening of the event was an outing at Cunningham's farm in Collingville in the afternoon, which proved very successful. In the evening

W. P. C. CAISSE, JR., President

a brief reception was held in the college hall and later while excellent concert numbers were given by Seton's orchestra, the appetizing menu was discussed.

At the close of the dinner post prandial exercises were held with Arthur St. Hilaire, president of the alumni acting as toastmaster. The speakers were Rev. Dr. J. H. Racette, O.M.L., pastor; Rev. Bro. Zephirino, a former provincial of the Marist order, now stationed at Poughkeepsie, N. Y., and W. P. C. Caisse, Jr., the first president of the organization.

The first speaker was Rev. Dr. Racette, who spoke of the importance of the alumni to both the members and the parish. He expressed his admiration of the help and support given the parish by the alumni and closed by paying a tribute to the founder of the college, the late Rev. A. M. Garin, O.M.L.

Brother Zephirino took for his subject, "1917," and told of the arrangements which are now being made for the celebration of the 100th anniversary of the founding of the Marist order.

His listeners, in concluding said: "Do not fear to be good; do not fear when duty commands; do not fear failure; do not fear obscurity; do not fear war—if your country needs you, go. If you succeed you are a man, and with the spirit of St. Joseph's college, you will succeed."

The last speaker was W. P. C. Caisse, Jr., who spoke of "Preparedness," that is for the double celebration which will take place next year, that of the 100th anniversary of the founding of the Marist order and the 25th anniversary of the opening of St. Joseph's college. Mr. Caisse urged the members of the organization to begin preparing at once and to do all in their power to swell the ranks of the alumni.

At the close of the post prandial exercises the annual election of officers took place with the following result: W. P. C. Caisse, president; Leo H. Deaulieu, Jr., president; Arthur H. Groux, secretary; Arthur D. Lamoureux, assistant secretary; Edmond N. Foisy, treasurer; Tancrède L. Blanchette, E. S. Desmarais, Arthur Gaudette, Alfred Renaud and John B. Richard, directors. The affair closed with the singing of "O Canada" by the assembly.

Then, in less time than it takes to tell it, the streets are deserted and all are on the inside looking out. The cops, however, remain outside and continue their "watchful waiting" for the remainder of the night.

One then gets a better view of the enormous buildings there, several of which are of recent construction. Right along the street a new brick building has been erected. Here, on the lower floor, men are employed and a look at the speed at which they turn over their part of the work convinces one of the magnitude of the output of the establishment. These men work in full view of passersby and the writer was one of the many who stopped to take a look at the bullet workers. All have a certain part to do and just as soon as the power goes on the human power begins the grind.

The sight is interesting, and if one had the time he could spend it to good advantage by just watching the remarkable, systematic and expeditious manner in which the work is accomplished.

KNIGHTS OF COLUMBUS THE CARTRIDGE PLANT

ANNUAL LADIES' DAY GREAT SUCCESS—TWENTY GIRLS IN 35-YD. DASH

A program of sports featured the annual Ladies' day of Lowell council, Knights of Columbus, held yesterday at the Genoa club and reported in yesterday's Sun. One of the most closely contested baseball games ever played in connection with this event was staged between the married and single men of the council, the latter winning out by the score of 8 to 7.

The married men played a great game but the broke were with the young fellows and they came out the winners. Sullivan and Gallagher, the married men's battery, did good work and Harp pitched a strong game for the single men.

The lineups were as follows: Married Men—Capt. W. Gallagher, T. Sullivan, P. H. Flaherty, J. J. Hayes, A. Molloy, C. R. Thomas, B. P. Walker, A. T. Delaney, R. D. O'Brien, 2b. Single men—Capt. W. Wood, H. Landers, C. R. Hart, P. R. Mullin, J. J. Fox, 2b. E. Hines, S. W. Earley, J. A. Rogers, C. G. Brigan, Jr. Umpire, McCue.

Another baseball game was played between a picked nine known as the West Street Stars and a girls' team. After three innings the Stars were declared winners by a 12 to 0 score.

About 20 girls entered the 35-yard dash which was won by Miss Borgia Wood with Miss Loretta Keefe second. Miss Bernice Quill won the ball-throwing contest while Miss Loretta Keefe showed that she could throw as well as run by taking second prize.

The sports were run off under the direction of Andrew Molloy and William Wood.

The result of the donation contest, conducted by the members, was announced before the dancing began, and the results were: First prize, a two weeks vacation trip for the winner, and a friend to be chosen by himself, won by T. Lee Taylor of the New England Telephone Co. of Boston, and second prize, an umbrella, donated by Commissioner Newell F. Putnam of the department of fire and water, won by Miss Blanche Guilmette, 61 Chestnut street.

C. T. A. U. ELECTS OFFICERS

ADOPTS RESOLUTION OPPOSING GROWING USE OF INTOXICANTS BY WOMEN

WASHINGTON, August 11.—The Catholic Total Abstinence Union of America was in record today in opposition to the growing use of intoxicants by women and girls. Resolutions to that effect were adopted and officers elected, headed by Rev. John G. Bean of Pittsburgh, at the closing session of the union last night.

Other officers chosen were: Vice president, the Rev. D. J. Hayes, Scranton, Pa.; James E. Daugherty, Philadelphia; Mrs. Thomas J. Hackett, New York; treasurer, Rev. Maurice J. O'Connor, Boston, and secretary, Thomas E. McCloskey, Connecticut.

GETS SWORD OF HONOR
LONDON, Aug. 11.—The Russian emperor has presented to General A. A. Brusilov a sword of honor of the Order of St. George, ornamented with diamonds, for his victories over the Austrians and Germans in Galicia and Volhynia, says a Reuter despatch from Petrograd.

WELL'S, Me., Aug. 11.—While playing in the roadside near his home yesterday, Harold Strickland, the infant son of J. C. Strickland, was struck and instantly killed by an automobile driven by William Hoerle of East Torrington, Conn. Hoerle and John Tucker of East Torrington, an occupant of the automobile, have been detained by the police.

London has a school where women are given a course in grocery sales, in hand wait for the doors to open, manship.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

GENERAL BUSINESS BOOMING

Those doleful ones who, for political purposes, scan the trade records hoping to find some augury of disaster are not in a cheerful mood just now. For every trade paper is a prophecy of good fortune to come or a summary of good things gone by. Even the conservative papers that used to say conditions were "reasonably good" cannot find superlatives enough to tell of our present prosperity. Statistics are simply staggering, but as usual they do not convey any adequate impression of the condition of general business.

Other years the influence of the warm season was always felt in business, which slackened up for a few months—but not this year. As the August letter of the National City bank of New York puts it: "Notwithstanding the influence of midsummer weather there has been practically no let up in industry during the past month. Trade has been slightly less active, for it is between buying seasons, but mills and factories are sold so far ahead that there has been no relaxation of the pressure upon them."

Despite a threatened falling off in war orders our export trade is still keeping up, and every diminution in the quantity of munitions exported is made up by the increase in the demand for other commodities. Most experts say that while the war lasts and for some time afterwards this country will be hard pushed to meet the demands for American merchandise from all over the world. Mr. Hughes may think or pretend to think that we are living in a fool's paradise, but he seems to have a monopoly on the wisdom that looks for a change in our prosperity for a long time to come.

The steel industry is still working to full capacity, its earnings for the past three months exceeding all previous ones. The net earnings of the United States Steel corporation for the second quarter of the year were \$81,000,000 and still better results are expected for the third quarter of the year. The Bethlehem company is about to spend \$70,000,000 upon its new acquisitions, the Pennsylvania Steel company and the Maryland Steel company. Extra dividends have been declared but a large part of the earnings is being kept in reserve in anticipation of manufacturing developments. Evidently the directors of the steel companies do not take stock in talk of "fool's paradise."

Building operations are active all over the country. One of the most reliable commercial and financial journals reports that a compilation of building permits for 161 cities shows an aggregate in the six months ended June 30 of \$22,300,000 as compared with \$15,716,573 for the same period in 1914. These figures have never been exceeded except in the first six months of 1909 when they were \$25,000,000. This boom in building at a time when materials are unusually high indicates very strongly the great sudden boom in business which necessitates industrial and residential development. If we live in a "fool's paradise," there are going to be many new mansions in it before the end of the year.

The shipbuilding industry reports activity in every shipyard in the country—and this before the passage of the merchant marine bill. Plenty of work is in sight for years, not to mention the great navy program which the senate has practically agreed upon. With the establishment of American transportation on a scale comparable to that of the other great nations, American business will be able to throw off its dependence on rival powers and go into the trade wars of the world prepared for fair but keen competition. The dropping of opposition to the administration shipping bill is a good sign and it points to coming co-operation between government and business for the extension of our foreign trade.

The railroads report unprecedented prosperity, the difficulty being to regulate the great amount of business that piles up in yards and terminals. Unfortunately the danger of a great strike hangs over the country, but it is the earnest hopes of business and the people generally that neither the employer nor the employees will face an issue that could not but be ruinous. To put a deliberate obstacle to business prosperity at this time would seem the height of folly and it is to be hoped that wisdom and toleration will prevail as in the past.

Recounting of specific instances of prosperity becomes monotonous. On every side it is the same story—everything is booming. Wages are good and there is almost no unemployment. The revised currency system protects the country against panic dangers and the recently organized federal boards ensure tariff and trade changes that will conserve the best interests of the country. It may be selfish for us to rejoice at a prosperity that has come in part from the travail of the other great nations, but it was not of our seeking and we are mindful of the good fortune that has sent us peace and prosperity while the world bleeds in a war that we had no part in making.

POLICE SUPERVISION

Mayor O'Donnell has taken one of the most practical means possible to enforce the rules of cleanliness and sanitation in this city in his letter to the superintendent of police on this most important matter. He says truly that "the police department can do more than any other organized body to impress upon householders and lodgers the necessity of exercising care and judgment in the matter of disposing of refuse, garbage, etc." and he consequently directs the superintendent to see that the police give special attention to it.

Undoubtedly many members of the department already make a special effort to keep Lowell as clean as possible, but only through a zealous organized effort can results be obtained. The Sun has long contended that a word from the police official on the beat is a stronger influence than twenty proclamations from the board of health, especially in sections where foreign residents live and if a police official shows that he means business, it will not be long before results are noted.

Owing to the agitations of the present time and the real scare from New York, there should be no half measures in efforts at cleanliness. It shall therefore be the duty of each police officer in the city to report delinquents to the superintendent, if his directions are disregarded. It is no burden on the great majority of people to keep their premises reasonably clean, but there may be cases when the property owner is more to blame than the tenant.

In such cases responsibility should be fixed and the courts have the power to deal with those whose negligence is criminal. Now that the police department is to be held responsible for conditions, the superintendent of laying the blame on somebody else should be once for all abandoned and all classes should co-operate to the fullest extent with those who strive to carry out the plain and pointed instructions of the mayor.

THE LUSITANIA NOTE

As an evidence of his good faith and sincere desire to serve the American people to the best of his ability, President Wilson has asked permission to publish the last German note on the Lusitania, and the favor was granted. His publication should suffice to remove the discussion of the terrible sea tragedy from campaign debates and to establish the wisdom of the administration's handling of the question. So many things have intruded themselves into the public notice that details of the Lusitania controversy have been almost forgotten, but this German note is a proof that President Wilson's diplomacy triumphed over the obstinacy of the German war council. Germany recognized liability in the loss of Americans on the Lusitania and through an open confession of guilt is not to be expected, the German government virtually admits that its course was contrary to international law and the law of humanity. That an indemnity will be paid the relatives of those lost is assured, though there may be some difficulty in arriving at the exact amount. If instead of demanding reparation through

HOW TO REDUCE YOUR WEIGHT

A SIMPLE, SAFE, RELIABLE WAY

People who are over-burdened with superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which detracts from the beauty of your figure. There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and cool from A. W. Bovey & Co.'s good druggist a box of oil of korein capsules; take one after each meal and one before retiring at night. Though you eat once a week, so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days' treatment has been reported to show a noticeable reduction in weight. Footsteps become lighter, your work seems easier and a lighter and more buoyant feeling takes possession of your whole being.

Persons who suffer from superfluous fat should give this treatment a trial.

Washington Savings Institution
Verification of Pass Books

Complying with the statute requiring the Savings Banks in Massachusetts to request depositors to present their books for verification during the year 1916, this Bank requests its depositors to present their books at any time during banking hours in the months of July and August.

THOMAS H. MURPHY,
Treasurer

diplomatic channels we had gone to war with Germany, would we be any better off today? That would merely have taken off the last restraint on submarine warfare and turned loose a campaign of lawlessness which might make the Lusitania horror look like play. The publication of the German note will serve to recall some political critics from their flippant attitude and show them that right can win out against might—sometimes.

THE GANG NUISANCE

We still have the gangs or that variety of them which thinks it can with impunity interfere with officers of the law in the discharge of their duties. Of this fallacy they should be disabused in the shortest and most effective way, and until the police take the initiative occasional excesses are to be expected. News travels quickly in the realm of the loafer and the hoodlum and if the leaders of the gangs here and there are called to account, it will not be long before we have different conditions. Respect for authority is the death of the gang spirit, just as contempt for authority is its vital principle, and there cannot be respect for authority in those circles until authority sets out to make itself respected in the good old vigorous fashion. No one would want to see the police unduly aggressive, but all will support the department in a desire to show groups of loafers and undesirables that when they try to interfere with the law they undertake more than they can accomplish.

PRESIDENT TO MEDIATE

It is reported with what looks like good authority that if the federal board of mediation and conciliation fails to avert the threatened strike of 400,000 railroad employees, President Wilson will be asked to mediate. This is a grave decision, but in that case it will be the result of grave necessity. A threat of a nation-wide railroad strike is nothing new, but it would prove fully as disastrous as it has been pictured by railroad owners and workers alike. There is no need to paint an imaginary picture of the result. Our civilization is largely due to the railroads and should they be crippled, about everything else would be crippled in short order. It is to be hoped that the controversy may be settled without recourse to the chief executive of the nation, but if it goes that far it may go yet farther. When the government of the country has to step in to settle railroad strikes it shall be near time that the government owned the railroads—not as a great good perhaps, but rather as the lesser of two evils.

MUNICIPAL JOY RIDES

There must be something peculiarly exhilarating in the wind that blows from the Charles river basin or else municipal auto trips—for business only—are the rule rather than the exception in Cambridge. Once again the Cambridge authorities are confronted with garage bills for trips which they have never taken. It seems a shame that irreverent and dishonest joy riders should masquerade as city solons but how is it possible for outsiders to work the trick? Looks as though municipal joy rides are rather common in the city where almost anybody can have one by giving a city hall address. Be it far from us to throw mud at Cambridge in this connection. Mindful of our own past we just can't help being slightly envious, that's all.

SEEN AND HEARD

When a wise man gets real angry he goes way back and sits down.

To About Six Months

A New York lawyer tells of a man who had been convicted of stealing by a certain "Down-East" judge, well known for his tender-heartedness.

"Have you ever been sentenced to imprisonment?" asked the judge, not unkindly.

"Never," exclaimed the prisoner, suddenly bursting into tears.

"Well, well, don't cry, my man," said His Honor, consolingly, "you're going to be now."

Keeping It Quiet

Little Margaret lived in a gossip neighborhood and being an observant child she had got some ideas into her curly head. One day, having done something naughty, she was sent upstairs to confess her transgression in prayer.

"Did you tell God all about it?" asked her mother, when she came down again.

Margaret shook her head, decidedly. "No, I didn't," she declared. "Why, it would have been all over heaven in no time!"—Boston Transcript.

Now She's at Bar Harbor

A well known Fall River lawyer was trying to make clear to a local student the significance of the term "colored evidence," meaning by that evidence which has been tampered with.

"The best illustration I can think of came within my observation not long ago," said the lawyer. "A physician had said to a fair patient:

"Madam, you are a little run down. You need frequent baths and plenty of fresh air, and I advise you to dress in the coolest, most comfortable clothes—nothing stiff or formal."

"When the lady got home this is how she rendered to her husband the advice given to her by the doctor:

"He says I must go to the seashore, do plenty of motoring and get new summer gowns."

Child Had Proof

The reading class was in session and the word "furlough" occurred.

Miss Jones, the teacher in a Springfield school, asked if any little girl or boy knew the meaning of the word. One small hand was raised.

"Furlough means a mule," said the child.

"Oh, no, it doesn't," said the teacher. "Yes, ma'am," insisted the little girl. "I have the book at home that says so."

Miss Jones told the child to bring the book to school. The next morning the child came armed with a book and triumphantly showed a picture of

an American soldier riding a mule, under which was the caption:

"Going home on his furlough."

Peril to Cleanliness

With sob in his voice, the applicant for a meal and some old clothes had told his story, and the kind-hearted woman had helped him.

Now he sat eating a hunk of bread and cheese and she thought it wise to get in a little good advice. So she began:

"Don't you think that—er—it would be better for yourself if you used soap and water occasionally?"

The tramp sighed dolefully. "I would, ma'am—I would," he answered eagerly, "but the truth is that there's so many different kinds of soap, and it's so hard to know which is injurious to the skin, and I'm afraid to take any risks."—Pittsburgh Chronicle Telegraph.

Not as Bad as That

Early one bright spring morning a ragged tramp called at a country vicarage, where the lady of the house had the name of being very charitable.

"Kind lady," he began whiningly as he doffed his cap politely, "I ain't ad a bite to eat since my supper yesterday."

"Poor fellow!" said the kind hearted woman. "You must be hungry! But you look strong! Why don't you look for work?"

"Ah, rum, ye see I'm a little bit silly," began the man in explanation. "Yes, but silly people often 'get work,'" interrupted the lady.

"But I'm not that silly!" finished the tramp quickly.—London Telegraph.

George Did It

George Clarke, a celebrated negro minstrel, on one occasion when being examined as a witness was severely interrogated by a lawyer.

"You are in the minstrel business, I believe?" inquired the lawyer.

"Yes, sir," was the reply. "Is not that rather a low calling?"

"I don't know but what it is, sir," replied the minstrel, "but it is so

EARLY MORNING FATIGUE

When you awaken in the morning feeling tired out, feeling worse in fact than when you went to bed, you are confronted with one of the characteristic symptoms of neurasthenia.

It is due to the run-down condition of the nerves that rest does not bring renewed strength and sleep refresh the tired brain. Overwork and worry are the most frequent causes of this condition.

Neurasthenia is the name given to this common form of nervous debility in which the power to recuperate is gone.

The blood can be built up so that it will increase the supply of needed elements to the wasted nerves and this is the only way that the nerves can be reached.

Dr. Williams' Pink Pills are a tonic that especially builds up the nerves because they supply to the blood the elements that the nerves need.

Many nervous disorders, sometimes chronic ones, have yielded to this tonic treatment with Dr. Williams' Pink Pills when other methods failed to give relief. They are certainly worth a trial.

Dr. Williams' Pink Pills are sold by druggists everywhere or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50 by the Dr. Williams' Medicine Co., Schenectady, N. Y. Write today for free book on the nerves.

much better than my father's that I am rather proud of it."

The lawyer fell into the trap. "What was your father's calling?" he inquired.

"He was a lawyer," replied Clarke, in a tone that sent the whole court into a roar of laughter.

There, little girl! Don't cry! They have broken your doll, I know; And your tea-set blue And your playhouse, too. Are things of the long ago; But childish troubles will soon pass by—

There, little girl! Don't cry! They have broken your state, I know. And the glad wild ways Of your school-girl days Are things of the long ago; But life and love will soon come by—

There, little girl! Don't cry! They have broken your heart, I know. And the rainbow gleams Of your youthful dreams Are things of the long ago— But heaven holds all for which you sigh.

There, little girl! Don't cry!—James Whitcomb Riley.

There, little girl! Don't cry! They have broken your heart, I know. And the rainbow gleams Of your youthful dreams Are things of the long ago— But heaven holds all for which you sigh.

There, little girl! Don't cry! They have broken your heart, I know. And the rainbow gleams Of your youthful dreams Are things of the long ago— But heaven holds all for which you sigh.

Miss Martina Gage is Opposed to Railroad's Petition

Special to The Sun

STATE HOUSE, Boston, Aug. 11.—In an order issued yesterday, the public service commissioners find that the Nashua & Lowell railroad corporations require for the purpose of laying additional tracks a certain parcel of land, containing 8.16 acres, and bounded by Black Brook, the Old Ferry road or Baldwin street, the Merrimack river, and the present line of the railroad, all of which is supposed to belong to Martina A. Gage.

Originally the railroad company asked the commission to include certain other parcels of land in its order, but since filing its petition it has come to an agreement with the owners of this land with respect to the price to be paid.

Martina A. Gage, however, opposed so much of the petition as related to her land, and, through counsel, asked the commission to rule

1. That the petitioner had not com-

plied with the requirement of the statute relating to its inability to agree with the owner, and that a mere statement of failure to agree was not sufficient.

PRAISES LOWELL

National Board of Underwriters Speaks Well of Us

HAVERHILL, Aug. 11.—Following up the inspection of the fire fighting facilities made by the expert engineers, J. H. Howland, of the national board of underwriters, is in Haverhill to urge the city officials to adopt the suggestions made by the engineers in their report. He says that Haverhill and Lawrence are the slowest cities in this section to provide modern fire prevention facilities.

Salem, Augusta and other places pleaded poverty, Mr. Howland says, just the same as Haverhill does, before the conflagrations visited these places, but statistics have shown that 25 per cent. have been saved in acquiring auto pumps and in the motorizing of the apparatus instead of using horses. Bonds have been issued in other cities to provide proper facilities and the benefit derived as warranted such action on the part of city governments.

Mr. Howland said that he was in the city of Augusta just before the big fire and the city officials talked the same way that they talk in Haverhill, but since then they have seen the light.

Good Words for Lowell

In regard to the motorizing of the apparatus, Mr. Howland said that in the cities of Lynn, Lowell, Springfield, and Holyoke practically all the apparatus is motorized. He urges that the city of Haverhill adopt the recommendations of the engineering experts and says that in Lowell the city took the suggestions as a text book

and followed them specifically. The suggestions are absolutely practical, Mr. Howland says.

The chief recommendations on which Mr. Howland makes particular stress are additional men, two auto pumps, an auto aerial truck and says these things should be done first. Then the entire motorization of the fire department, additional hose, the extension of the high pressure service, an assistant to Chief Gordon and the removal of the fire alarm signal system to a separate fireproof building. He believes that the department should be put on a full pay basis as rapidly as possible, eliminating the call men.

PENSACOLA, Fla., Aug. 11.—The finding of a life buoy bearing the name of the Italian ship Mount Carmel washed ashore on Santa Rosa Island near here strengthened the belief today that the vessel went down in the hurricane of July 5.

TO RETURN PROPERTIES

PARIS, Aug. 11.—Confirmation was given today by Juan Azcona, financial agent of the Carranza regime of a Mexico City despatch to the Pinaro to the effect that the Mexican government has decided to return sequestered properties taken from supporters of previous governments, subject to any civil responsibilities which may have been incurred.

Does White Bread Agree With You?

Providing it doesn't don't persist in using it for if you do your habit may eventuate into a serious stomach ailment which either will be the cause of your death or leave you an invalid.

JOHNSTON'S BRAN BREAD

TEN CENTS A LOAF

Which we introduce to the public of this city this week is the result of much experimenting and search for a bread which would give an abundance of health-giving properties to the human body and at the same time be digested most freely.

JOHNSTON'S BRAN BREAD IS NOT A BREAD WHICH IS IN ITS EXPERIMENTAL STAGE, ITS VALUE AS A HEALTH BREAD IS ESTABLISHED. If you have stomach disorders, whether or not they are occasioned through the use of white bread, which is directly responsible for more stomach ailments than anything else, eat Johnston's Bran Bread and you will not only be relieved of pains, gases, etc., but its continued use will in time strengthen your stomach so that you need fear no further trouble from your digestive organism.

EXPLOSION KILLS THREE TO TEACH MOTHERHOOD

WORKMEN OF DU PONT PLANT AT CARNEY'S POINT, N. J., LOST LIVES

WILMINGTON, Del., Aug. 11.—An explosion which blew out a cylinder on a rehydrating press at the Du Pont powder company's plant at Carney's Point, N. J., today killed three workmen and injured two others.

MISS KATE HAMPTON DEAD

Last of Children of Col. Hampton of War of 1812 and Sister of General Hampton of Confederate Army

COLUMBUS, S. C., Aug. 11.—Miss Kate Hampton, 92 years of age, last of the children of Col. Wade Hampton of the war of 1812 and sister of the late Lieut. Gen. Wade Hampton of the Confederate army, died here last night.

BILLERICA REPUBLICAN CLUB

Hon. John N. Cole of Andover was the principal speaker at a special meeting and rally of the Billerica republican club held last evening in its rooms in Elm street. Mr. Cole spoke on his observations at the recent republican convention in Chicago when Hon. Charles E. Hughes was nominated for president of the United States. He described the proceedings of the convention in a very interesting manner which was keenly enjoyed by the large number of members present.

Mr. Cole also assailed the administration now in control at Washington and predicted that Mr. Hughes would be the next president of the United States.

Addresses were also made by Rev. Charles H. Williams and Burton O. Sanford, candidates for representative in the 17th district, and by Dr. Manuel H. Bedford, candidate for senator. President Ralph E. Manning presided at the meeting.

Previous to the speaking reports of various committees were heard and the question of holding an outing was discussed. A committee of three was appointed to consider the outing question and report later.

LARGE WOODEN STEAMER

SANDUSKY, O., Aug. 11.—The William P. Edwards, one of the latest wooden freight steamers on the Great Lakes, is ready to clear from here for Montreal with a cargo of coal. Unloading from that port, she will take a cargo of lumber to Ireland. The vessel has recently been fitted with a new bow and sides for ocean travel.

ADMIRAL HOWARD RETIRED

WASHINGTON, Aug. 11.—Rear Admiral Thomas Howard was placed on the retired list today on account of age. His last duty was as president of the naval examining and retiring board.

MILK DRIVERS STRIKE

CLEVELAND, O., Aug. 11.—As a result of a strike of milk wagon drivers of the Telling-Belle Vernon Co., street milk dealers in the city, 500,000 Clevelanders were without their usual supplies today. The milk companies, without opposition from street cars, delivered milk to hospitals and babies' dispensaries today.

BILLERICA REPUBLICAN CLUB

Hon. John N. Cole of Andover was the principal speaker at a special meeting and rally of the Billerica republican club held last evening in its rooms in Elm street. Mr. Cole spoke on his observations at the recent republican convention in Chicago when Hon. Charles E. Hughes was nominated for president of the United States. He described the proceedings of the convention in a very interesting manner which was keenly enjoyed by the large number of members present.

Mr. Cole also assailed the administration now in control at Washington and predicted that Mr. Hughes would be the next president of the United States.

Addresses were also made by Rev. Charles H. Williams and Burton O. Sanford, candidates for representative in the 17th district, and by Dr. Manuel H. Bedford, candidate for senator. President Ralph E. Manning presided at the meeting.

Previous to the speaking reports of various committees were heard and the question of holding an outing was discussed. A committee of three was appointed to consider the outing question and report later.

LARGE WOODEN STEAMER

SANDUSKY, O., Aug. 11.—The William P. Edwards, one of the latest wooden freight steamers on the Great Lakes, is ready to clear from here for Montreal with a cargo of coal. Unloading from that port, she will take a cargo of lumber to Ireland. The vessel has recently been fitted with a new bow and sides for ocean travel.

ADMIRAL HOWARD RETIRED

WASHINGTON, Aug. 11.—Rear Admiral Thomas Howard was placed on the retired list today on account of age. His last duty was as president of the naval examining and retiring board.

MILK DRIVERS STRIKE

CLEVELAND, O., Aug. 11.—As a result of a strike of milk wagon drivers of the Telling-Belle Vernon Co., street milk dealers in the city, 500,000 Clevelanders were without their usual supplies today. The milk companies, without opposition from street cars, delivered milk to hospitals and babies' dispensaries today.

EXPLOSION KILLS THREE TO TEACH MOTHERHOOD

WORKMEN OF DU PONT PLANT AT CARNEY'S POINT, N. J., LOST LIVES

WILMINGTON, Del., Aug. 11.—An explosion which blew out a cylinder on a rehydrating press at the Du Pont powder company's plant at Carney's Point, N. J., today killed three workmen and injured two others.

MISS KATE HAMPTON DEAD

Last of Children of Col. Hampton of War of 1812 and Sister of General Hampton of Confederate Army

COLUMBUS, S. C., Aug. 11.—Miss Kate Hampton, 92 years of age, last of the children of Col. Wade Hampton of the war of 1812 and sister of the late Lieut. Gen. Wade Hampton of the Confederate army, died here last night.

BIG STRIKE RIOT

Strikers and Police Clash North of Detroit—Firemen Called

DETROIT, Mich., Aug. 11.—Striking cigar makers and sympathizers numbering more than 1500 clashed with the police of Hamtramck township, just north of Detroit last night, and were dispersed only after reinforcements of police force and the fire department had turned two heavy streams of water upon them. Many on both sides were more or less seriously injured.

The trouble was precipitated when the strikers attempted an attack upon the cigar factory where they were employed.

Many of the rioters, occupying doorways and windows in several buildings across the street from the factory, hurled bricks, stones, bottles and sticks at the police and firemen. A number of shots were fired on both sides but none took effect. Twenty-seven arrests were made.

LUSITANIA CASE NOT SETTLED

WASHINGTON, Aug. 11.—State department officials yesterday explained that the recent request to the German embassy for permission to publish one of Count von Bernstorff's notes on the settlement of the Lusitania case was an inadvertence. At first it was denied that any such request had been made, but an investigation of the department's files disclosed that a letter prepared by a subordinate official had been signed either by Secretary Lansing or Acting Secretary Polk and had been transmitted to the German embassy.

State department officials declared that too much importance had been attached to the request in German official quarters and that it was not as interpreted, an indication that Germany's proposals were to be accepted as satisfactory.

When Acting Secretary Polk was told Wednesday of the impressions gained in German official quarters of the meaning of the request, he said he could not talk about the Lusitania.

Yesterday both Secretary Lansing and Mr. Polk declared the request was in no wise an indication that the United States was about to accept Germany's long pending representations as satisfactory, that the status of the entire negotiations still was informal and that none of the correspondence was of a nature for publication at this time. The case is regarded as still unsettled because of developments in submarine warfare and the attitude of belligerents on the subject of armed merchantmen which arose last February at the moment the Lusitania negotiations appeared to be on the point of satisfactory conclusion.

SHORTAGE OF "S.D.T." BOYS

NEW YORK, Aug. 11.—The Western Union Telegraph Co. notified its customers today that its national distribution service for the delivery of packages will be transferred to another corporation on Sept. 1, and thereafter its messengers will collect and deliver telegrams only. It is understood that the package deliveries will be made by motor trucks operating from a central station in the lower city. A shortage of boys to act as messengers has necessitated the change. The national distribution system now is operated in all the principal cities served by the Western Union.

SINKING OF ITALIAN STEAMER

AMSTERDAM, Aug. 11, via London.—A semi-official account of the sinking by a submarine recently of the Italian mail steamship Letimbro received here today from Vienna says the Italians fired on the submarine with two guns, and that there were troops on board.

After the submarine had fired a warning shot at a distance of 3000 metres, the steamship says, the vessel opened fire from two guns at the stern and attempted to escape by zig-zagging. The submarine pursued the steamship, replying to the fire without hitting the vessel which had shown no flag.

Later boats were lowered from the steamer. After ascertaining that no one remained on board, the steamship was sunk by the submarine.

"Approaching the boat," the submarine ascertained that of 20 persons in one boat, 20 were in khaki, which confirmed the suspicion of the submarine commander that he had before him a vessel with troops aboard."

NOTIFICATION OF FAIRBANKS

INDIANAPOLIS, Ind., Aug. 11.—The notification ceremonies at which Chas. W. Fairbanks will be told officially of his nomination as the republican candidate for vice president will be held at his residence at 2 o'clock on the afternoon of Aug. 31, it was announced today.

BIG STRIKE RIOT

Strikers and Police Clash North of Detroit—Firemen Called

DETROIT, Mich., Aug. 11.—Striking cigar makers and sympathizers numbering more than 1500 clashed with the police of Hamtramck township, just north of Detroit last night, and were dispersed only after reinforcements of police force and the fire department had turned two heavy streams of water upon them. Many on both sides were more or less seriously injured.

SHORTAGE OF "S.D.T." BOYS

NEW YORK, Aug. 11.—The Western Union Telegraph Co. notified its customers today

IN POLICE COURT
Continued

J. Murphy, Lakeview avenue; Edward Lynch, Fulton street; John Draddy, John street; William F. Scully, French street and James Manning, Fletcher street.

Numerous complaints have been made about suspicious persons in the vicinity of the car barn in First street and recently it was learned that a number of men were making their temporary homes in the place, the cushions in the cars making very comfortable sleeping quarters.

Early this morning, Sergts. Ryan and Bigelow and Patrolmen McCloughrey, Hession, Gillis and Winn, made a visit to the place and found the men enjoying a good sleep. They were awakened and taken to the police station, where they were booked as suspicious persons.

When brought before the court this morning, the men were cautioned to avoid trespassing on other people's property and upon promising not to visit the car barns again they were released. Mullen still owes the court \$20 on a larceny case and Draddy has failed to pay a fine of \$10 which was imposed some time ago. Both men promised to go to work and remit the fines.

Sent to State Farm

Harold E. Frazer was arrested last night about 11:15 o'clock by Patrolman P. F. Noonan, the latter claiming that Frazer was drunk. Frazer denied he had been drinking but when several officers testified as to the man's condition he was found guilty and sentenced to the state farm, from which sentence he appealed. It was Frazer's fifth appearance in court since March 25th and at the present time he is under two appeals to the superior court.

Non-Support Case

Philip Vasek was charged with failing to provide proper support for his two minor children, but owing to the fact that the defendant has brought an action for divorce against his wife, no finding was made, it being agreed by counsel that Vasek be given \$4 a week.

According to the testimony Vasek and his wife were married six years ago and after living in Fall River for a time she went on a visit to her home in Poland. When the European war broke out she was unable to get across recently and when she went to her husband he accused her of being unfaithful and she came to live with friends in this city.

A short time ago Vasek entered an action of divorce against his wife, the trial of which is scheduled for October.

Charles A. Donahue appeared for the government and Lawyer Cook of Fall River represented the defendant.

He Stole Lead

Michael Tobin was arrested yesterday by Inspector John A. Walsh and Patrolman Whelan on a complaint charging him with the larceny of lead from the American Mason Safety Tread

Co. in Rogers street. When arrested Tobin had his pockets filled with new lead.

In court this morning Tobin was charged with the larceny of ten pounds of lead, each pound of the value of seven cents. He entered a plea of guilty. It appears that yesterday noon Tobin, while under the influence of liquor, entered the building and helped himself to the lead which was lying about loose.

The court imposed a sentence of one month in jail, but after Tobin's record was produced he was sentenced to two months in jail.

Sent to State Farm

Joseph Quigley and Robert Knox were charged with being vagrants in Chelmsford, being idle persons, with no visible means of support and living without lawful employment since the first of January. Each entered a plea of guilty.

Constable Vinal of No. Chelmsford said that to his knowledge Quigley has not done a full week's work for the past six or seven years and that he sleeps out and is a nuisance about the village. He said Knox has not done anything for the past three months. The court sentenced both men to the state farm.

Drunk Offenders

There were several drunken offenders in court. Two were sentenced to two months each in jail and another was given a sentence of three months in jail. One was given a suspended sentence of five months in jail and five first offenders were released by the probation officer.

CASE OF PARALYSIS
Continued

apparent in her right wrist, which is somewhat paralyzed.

Agent Bates of the board of health in discussing the case this morning said although this is the second case of infantile paralysis reported in this city this week, there is nothing alarming, for there were fewer cases reported this year than last year. Eight cases of infantile paralysis were reported during the past year, while this year with almost eight months gone by, there were but six cases reported. The first case was reported in January and there was nothing doing until July 6, when the second case was reported.

Good Hay Crop

Supt. Martin Conley of the Chelmsford street hospital reports a very good hay crop at the city farm. He stated this morning that about 70 tons of hay have been cut and housed and he expects the second crop will also be very good. The corn is coming along fine and he believes next week there will be enough to feed the whole institution.

City Messenger Owen Monahan and Commissioner Morse have returned from Narragansett Pier, where they attended the annual outing of the Massachusetts Highway association. Both men report they had a splendid time.

Examiners Leary, Hubbell and Mc-

Gonagle of the state highway commission examined 22 applicants for chauffeurs' licenses at city hall this morning.

Henry Achin, Jr., has taken out nomination papers for representative in the 15th district.

Back on the Job

It was stated at city hall this morning that a few of the cement workers at the Pawtucket bridge, who went out on strike yesterday after being refused an increase of five cents per hour, have returned to their work. The National Engineering Co., which is constructing the bridge, refused to grant the increase on the grounds that the men employed as cement workers at the bridge are receiving higher wages than on any other job in the city.

Supt. Hamsay stated this morning that the strikers' places are being filled with Lowell men and that the work is going along as though nothing had happened.

FEWER CASES TODAY

EXPERTS HOPE COOL SPELL WILL CHECK SPREAD OF INFANTILE PARALYSIS

NEW YORK, Aug. 11.—The epidemic of infantile paralysis showed another slight decline today and health experts who are fighting the scourge here were more hopeful that the cool spell which struck the city yesterday would materially check the spread of the plague. The daily bulletin of the health department shows that during the 24 hour period which ended at 10 a. m., thirty-one children died of the disease and 165 new cases were reported in the five boroughs of New York City. Yesterday thirty-eight children died of the plague and 175 were stricken.

MAY DELAY SCHOOL OPENING

BOSTON, Aug. 11.—The state board of education is considering the advisability of delaying the opening of public schools throughout the commonwealth on account of the increased number of cases of infantile paralysis. Dr. Payson Smith, commissioner of education, will confer today or tomorrow with the officials of the state department of health and learn their opinion.

Many of the schools open Sept. 5 and for this reason the board seeks to arrive at some decision within a few days. The board has direct control of the state normal schools, but its power with respect to the public schools in the cities and towns are largely recommendatory.

Dr. Francis X. Mahoney, health commissioner of the city of Boston, and Dr. Thomas R. Shea, do not agree with the state board's view, and oppose any delay in the opening.

The number of cases of the disease in this city at present, 15, is not considered by them as sufficient reason for delaying the school opening.

Dr. Shea says that the schools ought to open because the doctors will be better able to discover new cases and to keep informed of the general condition of the pupils.

He says that children would get together just as much outside as in the schools, whereas outside they would not have the observation of school physicians.

EXPERIMENT WITH INSECTS

NEW YORK, Aug. 11.—A new phase of the investigation to determine whether infantile paralysis is carried by insects, chiefly the fly, mosquito and bed bug, was agreed on yesterday at a conference here of prominent entomologists from the states of New York, New Jersey and Connecticut, with federal and city health experts.

In addition to the entomological research work now being done, entomological studies also will be taken up at once.

Dr. Charles E. Banks, senior surgeon of the federal public health service, announced before leaving the city for Washington to consult with Surgeon General Blue, that the public health quarantine regulations dealing with interstate travel of persons afflicted with the disease will be strictly enforced.

No infected person will be permitted in future, he asserted, to travel from one state to another, even though the person lives in the city and wishes to return.

Scores of persons who have had infantile paralysis today volunteered to give their blood for serum to aid the little victims of the epidemic.

CHILDREN BARRED FROM TRAINS

COLUMBIA, S. C., Aug. 11.—The state board of health today prohibited children under 16 years of age from traveling on railroads without a health certificate, as a precaution to prevent the spread of infantile paralysis, of which there have been 35 cases and five deaths recently in the state.

BOY KILLED; DRIVER RELEASED

KENNETTUNK, Me., Aug. 11.—William H. H. Torrington, arraigned before Trial Justice H. H. Bourne today on a warrant charging manslaughter in connection with the killing of two-year-old Harold Strickland by an automobile at Wells Corner Thursday was discharged for lack of evidence. The little Strickland boy, slain by a car, was on his way to his mother and sister and went directly in front of a car owned and driven by Mr. Hoelle.

REFINED PETROLEUM CHEAPER

NEW YORK, Aug. 11.—The Standard Oil Co. of New York today reduced the prices of refined petroleum for export 15 points, making refined in cases 11.35 cents a gallon, in tanks 2.10 cents and Standard white in barrels 8.25 cents.

MYSTERIOUS DEATH OF DAVIS

CHICAGO, Aug. 11.—A new element was present today in the mystery surrounding the death at a hotel last Wednesday of Morse Davis, a mining engineer of Vancouver, B. C. It was the announcement made late last night that Dr. William D. McNally, coroner's chemist, in a chemical analysis of the contents of the stomach of Mrs. Davis, who was found unconscious at the time of her husband's death, had discovered no poison of the kind believed to have killed Davis.

The chemist said he would make more tests today for other poisons and that he would analyze several bottles of medicine found in the Davis apartments.

Mrs. Davis, after she regained consciousness was quoted as saying that a chemical which her husband used in his professional work must have been mixed with some which she and her husband took for illness. Mrs. Davis is still ill today.

SUGGESTED SUBMARINE SERVICE

THE HAGUE, Netherlands, Aug. 11.—A retired Dutch army officer claims the fatherhood of the transatlantic submarine service recently inaugurated by the "Deutschland," Junker's, Sandberg, formerly of the Netherlands Indian army, says that more than a year ago he addressed a letter to Admiral Von Tirpitz through the German consul-general at The Hague, setting forth the idea of breaking the British blockade by this means and recommending its execution. A copy of the letter was forwarded to the admiralty, the notice of Herr Ballin, the managing director of the Hamburg-American line. The latter was much taken with the plan, and consulted with the competent authorities regarding its execution.

MOVING AUSTRALIAN WHEAT

MELBOURNE, Australia, Aug. 11.—The government's purchase of fifteen large steamships in England to be operated by the commonwealth in the movement of Australian wheat to Europe will not get far towards solving the problem. The steamers have a total cargo capacity of 120,000 tons, but it is doubtful if they can make more than two trips each to Europe before the end of the year, and this will dispose of only 9,000,000 bushels of the huge quantity of the cereal that is awaiting shipment here.

Australia has almost 100,000,000 bushels of wheat stored in sheds or beginning to sprout in stacks where storage is unavailable in country railroad yards, and the commercial wheat harvest is already in sight to further complicate the problem.

The government's purchase of the steamers is hailed by the labor party with gratification, for the establishment of a government-owned fleet has long been a plank in its platform.

DISCUSS SUFFRAGE AMENDMENT

COLORADO SPRINGS, Colo., Aug. 11.—The present status of the national suffrage amendment was the subject for discussion at the opening session today of the National Women's party conference.

SUN BREVITIES

Best printing; Tobin's, Asso. Bldg. Auto supplies, Beharrell, 13 Middle St. Jos. M. Dineen, cameras, photo supplies, 21 W. E. 1st St. 411 Merck St.

The municipal band concert given on the North common last evening by the National band, Richard A. Griffiths, conductor, was largely attended and proved very enjoyable.

Rev. Fr. Antoine, a member of the order of St. Benedict of Newark, N. J., who was the guest of Undertaker and Mrs. Amadeo Archambault of Merrimack street, left yesterday with Henri A. Archambault and Ernest Brown for a cruise to Italy, N. S. They will return next week.

Mr. and Mrs. Octave DeVylder of Cumberland road, are in receipt of a letter from their son, Francois, who is in the Belgian army, and who was reported among the dead a couple of months ago. The young man, after a fierce battle, made his escape to Holland, and he writes that he is enjoying the best of health.

Samuel Lafleur, aged 21 years, of a Tanner street today enlisted to serve in the hospital corps of the U. S. army, and he was assigned to duty at the local army. Immediately upon applying Mr. Lafleur was examined by Dr. Parker and after he had been pronounced O. K. was shipped to Fort Banks.

Major Colby T. Kittredge, the local recruiting officer, was notified yesterday by telegram from the war department that the application of John Larkin of this city for enlistment in the United States army had been rejected on account of the man's age. Mr. Larkin passed a successful physical examination, but inasmuch as he has passed his 32d birthday, the war department rejected his application.

Dynamite was used yesterday by Undertaker Joseph Albert of this city in an attempt to locate the body of Bernard Gately who was drowned Thursday afternoon at White's pond. Pelham, N. H. A searching party promptly all over the pond and divers also attempted to locate the body but the muddy bottom and the prevalence of weeds.

The singing at the 5.30 o'clock mass at Lakeview Sunday morning will be by John J. Dalton, Miss Rita King, Miss Florence McManus and William Gookin, with the organist will be Miss Marie E. Dwyer. Organist at the 10 o'clock mass at the Immaculate Conception church. The program will be as follows: "Jesus, Savior of My Soul," quartet; Verdi's "Jesu Dei Fili"; Weigand's "O Salutaris," duet, and Falkenstein's "Ave Verum," quartet.

The annual upstream trip of the members of the Lowell Motor Boat club was held on the Merrimack river last night. Owners of crafts had invited their friends to accompany them and 14 boats were in line when the start was made. The crafts went up as far as Tyne's Island and on the return trip the boats traveled five abreast in the first and second line and four in the third. Upon arriving at the boat house a buffet lunch was served.

A delightful kitchen shower was tendered Miss Mae McDermott at the home of Mrs. Hubert McLaughlin, 81 Houghton street, Wednesday night. Miss McDermott, who will soon become the bride of Patrick William Keegan, was the recipient of many beautiful and useful articles. During the evening, a musical and literary program was carried out and a buffet luncheon was served. Mr. Harry McDermott acted as accompanist during the evening. The party was in charge of Mrs. Hubert McLaughlin and she was ably assisted by Mrs. Eugene Sullivan.

MATRIMONIAL

Joseph P. Tobin and Miss Margaret E. Kelly were married Wednesday evening at St. Patrick's rectory by Rev. Joseph A. Cortin. The bride wore white crepe de chine with pearl trimmings and a picture hat. She carried sweet peas. She was attended by her sister, Miss Rose E. Kelly, who was attired in pink crepe de chine and carried gladiolus roses. At the close of the ceremony the bridal party repaired to the home of the bride, 198 Worthen street, where a reception was held. The couple left on a honeymoon trip to New York and Atlantic City.

Gulliland—Small

A very pretty home wedding took place yesterday afternoon at 5.30 o'clock at 121 Hoyt avenue when Miss Theresa Catherine Small was united in marriage to Dr. Frank Gilmour Gulliland, both of Tewksbury. There were 22 relatives present to witness the ceremony, which was performed by Rev. J. Harold Dale of Billerica.

The bride was becomingly attired in a gown of white Georgette crepe and well carried white sweet peas. The bride couple were attended by Miss Nettie Gulliland, a sister of the bridegroom, and Mr. Louis C. Small, brother of the bride. Little Dorothy Small and William McCausland were flower children and they carried baskets of white and pink sweet peas. Miss Alice Gulliland played the wedding march. The house was beautifully decorated, the color scheme being pink and white.

The bride's gift to her maid of honor was a very handsome brooch, to the children, gold rings, and to Miss Alice Gulliland, a fan. The bridegroom's gift to the best man was a scarf pin. A wedding supper was served by the D. L. Page Co.

The happy couple, after receiving congratulations, left on an extended automobile trip to the mountains and seashore. They will be at home after October 1, at 121 Hoyt avenue, Lowell.

"THE STORE OF CONSISTENT AND UNEQUALLED VALUE GIVING"

PRICE ONE CENT

50,000 MILK BOTTLES

Biggest Shipment in City's History Arrives—Dealers May Advance Price of Milk

The biggest shipment of milk bottles ever received in Lowell was unloaded in Western avenue yesterday. The number of bottles distributed was over 50,000. The distribution of the bottles, pints and quarts, was a big undertaking and the scene at the point where the unloading took place was a lively one as great crowds had gathered to watch the expert way in which the milk bottles were being juggled.

But the scene held greater interest for the thinking observer than the mere unloading of the 50,000 milk bottles. What will become of those bottles? Will they be kept clean? How much more are they costing the dealer since the price of glass has advanced? Will the consumer assist the dealer in preserving his bottles? These, probably, are fair samples of questions that suggested themselves to the fellow who was looking on and thinking and they might have been accompanied by that more important question as to the food value of milk. The unloading of the bottles was in charge of E. E. Leighton, local representative of the Henry E. Wright & Sons, Inc., of Boston, and although Mr. Leighton was a very busy man the writer determined to have a word with him. Mr. Leighton didn't seem to experience any difficulty in talking while he directed the work of unloading and he told the writer that he was always very glad to talk about milk and milk bottles, especially to newspaper men because, he said, he believes the newspaper to be the greatest of all educators, where practical every day questions are concerned.

"You gentlemen of the press," said Mr. Leighton, "can do a great service to mankind by spreading the gospel of cleanliness and pure milk. You can educate the public as to the

FOOD VALUE OF MILK and suggest to the consumer the great need of economy and co-operation especially in the handling of milk bottles. You can teach the public to be more careful about the return of

Boston dealers and there is no doubt in my mind but what the dealers WILL RAISE THE PRICE in this city, for it will be absolutely necessary to do so in order to keep going. And it is up to the consumer, to some extent, as to whether it shall be a one-cent or a two-cent raise. The consumer can assist in keeping it down to a one-cent raise by looking after the bottles and returning them to the dealers instead of throwing them away and using them for other purposes as is too often the case.

"The milk question has acquired the very highest stage of importance and the United States government has been talking it up to the extent of appropriating \$5,000,000 for the first time in its history. The milk question is a question that I think is more important than any other. It has been said that milk is nature's best and cheapest food. No family can get along without milk. It is the natural food for babies and children. They will play better and grow better if they have plenty of good milk and in order to give them a good start they should be allowed all the good, pure milk they will drink. Milk used freely in the kitchen makes all foods better and cuts down the high cost of living.

"Cleanliness is another watchword in the milk business, and I can say for dairymen and dealers as a whole that they leave no stone unturned in their endeavors to produce good, clean milk. In order for them to remain in the business it is absolutely necessary that they shall produce and sell clean milk, for there is no other way to hold customers. I think, however, that the average housewife is not as careful as she might be in the care of milk and that is another line along which the newspaper can offer valuable suggestions from time to time. The first thing to do is to keep the milk clean and keep it clean. When in doubt, pasteurize for safety. There are some people who are afraid of milk, but pure milk is the greatest food in the world, and it might be said in passing that milk-borne diseases are far less common than the ill effects which result from the use of too little milk. I wish I could emphasize in a way that would reach the appreciation and understanding of the public the fact that we do not use enough dairy products. Milk is not merely a delicious beverage; it's a real food. A quart a day is not too much for active workers. But drink it slowly—eat it. Professor Rosenau of Harvard university says that the

ACTUAL FOOD VALUE of one quart of milk is equal to three-quarters of a pound of beef, two pounds of chicken, eight eggs, two pounds of codfish, etc. And in speaking of butter, ice cream and cheese, the professor says that since each of these concentrated products of milk, each therefore contains the food values of milk, and is a relatively greater delicacy, milk is cheap. It is nutritious, it is easily digested. There are a few of the many things you want to do about milk and you can do them all by getting a good service by putting these little thoughts in print occasionally.

"But I guess I have talked enough about the food value of milk. I'm subject, however, that I love to discuss, because I believe we ought to talk about things that are important and beneficial. I have noticed that you quite frequently publish articles from the United States Public Health Service and other bureaus, relative to milk and other things, and I hope you will keep the good work up. But if you are going to write anything about our milk, please be sure not to lose sight of the fact that the milk dealer needs and deserves the co-operation of the consumer, especially in the care and return of bottles."

DENIES THAT HE IS DEAD

POLICE VISIT RICHARDSON'S HOME TO BREAK THE SAD NEWS—BODY FOUND IN MERRIMACK

Haverhill, Aug. 11.—A trio of policemen, each with a funeral expression of face, rang the doorbell of the home of Albert Richardson on Locust street, last evening, and waited to tell whoever came to the door that Mr. Richardson had been found drowned in the Merrimack river. Their astonishment was great when Mr. Richardson himself answered the bell and asked his callers what he could do for them. He was told that a body that had been found in the river during the afternoon had been positively identified as him and that his callers had been assigned to convey the news to his nearest of kin.

Mr. Richardson thanked the party for their good intentions, but denied that he had been drowned and after extending congratulations to him they departed. The police are now without a clue as to the identity of the man whose body was found by some boys in a cave, where it is thought to have lain at least two days.

It is not thought that the body could have come down the river from Lawrence or above, yet no one has been reported missing in this city for some time.

The man was about 35 and 40, 50 feet 10½ inches in height, and dressed only in a union suit having a laundry mark, "R 122" and a patch on the thigh. The face is smooth shaven and the hair brown.

The harbor police took the body to the Water Street engine house, where it was viewed by Medical Examiner Croston, who then had it sent to the morgue.

CHIPPY AN INVENTOR
BUDAPEST, Hungary, Aug. 11.—Barna K. Kohlenstein, a Hungarian captain of cavalry, who has military usefulness was ended when he lost an arm. He devoted himself since his incapacitation to inventing a wooden-sold shoe that shall have the virtue of flexibility, and announces that he has solved this problem, the hardest that has confronted wooden-sold shoes enthusiasts.

His invention is a sole that, instead of being made of one solid piece of wood, is constructed of a number of layers joined together by heavy rolls or fats that thicken and grip the pieces of wood together. After countless experiments Capt. Kohlenstein declares that wooden shoes constructed in this manner have the elasticity of leather soles, and in addition can be made of old and worn material worked over.

SHIPPING BILL

Vote to be Reached Late Tomorrow or Monday

WASHINGTON, Aug. 11.—Republicans of the senate indicated today that they would permit a vote to be reached on the administration shipping bill late tomorrow or Monday. This developed while Senators Jones and Gallagher were cross-questioning Senator Simmons about progress on the revenue bill being drafted by a finance subcommittee.

Senator Simmons said he hoped to have the revenue measure ready for the full committee Monday and to report it to the senate Tuesday. While it is being perfected the democrats will call up the workmen's compensation bill or Philippine conference report.

KILLED BY SKIDDING AUTO

BIG TRUCK RAN INTO GANG OF LABORERS AT WEYMOUTH—FOREMAN DEAD

Boston, Aug. 11.—Joseph Decelle of Spring Lane, Quincy, who was seriously injured yesterday when he and other employees of the Bay State Street Railway company engaged in repairing the tracks on North street, Weymouth, were struck by a skidding auto truck, was reported last night as resting comfortably at the Quincy city hospital.

His name comes on the dangerous list. David Twomey, 40, of 50 Payne street, Quincy, foreman of the gang, was instantly killed. Antonio Rezio, laborer, of 41 Elm street, Quincy, suffered minor injuries and was taken to the Quincy city hospital.

James H. Nichols, of 161 Chelsea street, Charlestown, the driver of the auto truck, was arrested on a charge of manslaughter. He will be arraigned this morning in the Quincy district court. For several years he has been in the employ of the Ferguson bakery in Roxbury.

BEATEN AND ROBBED

PASSENGER ON STEAMER CHESTER W. CHAPIN KNOCKED UNCONSCIOUS

New London, Conn., Aug. 11.—George S. Clark of Amherst, Mass., a passenger on the steamer Chester W. Chapin, from New York to this port last night, was beaten into unconsciousness and robbed of money and clothing during the trip, according to complaint made to the police today. A stranger with whom Clark shared his stateroom is accused. The stranger disappeared after the steamer docked, and Clark could give only a meagre description of him.

PROTEST AMUSEMENT TAX
WASHINGTON, Aug. 11.—Senator Weeks yesterday received a joint protest, signed by practically every theatre manager in Boston, opposing the amusement tax of one-half of one per cent, which the administration revenue bill proposes to levy. Many Boston playhouses have lost

MONEY recently, instead of showing a profit, gross revenues are manifestly unjust, it continues, because often a theatre contracts for attractions on the basis of a considerable percentage of the gross revenues.

With only a small margin of profit remaining, as is often the case, the proposed tax would not only work great hardship, but would bring bankruptcy to many managements, it is contended.

KEEP WELL!

There is no need to suffer with intestinal and stomach troubles. Just get a bottle of the famous 40 year—no cure, no pay—

DOWS' DIARRHOEA AND CHOLERA SYRUP.

That'll settle the question. It's a positive preventive and a sure cure. Been curing for over forty years. More popular each year. An inferior article sees its best days in infancy.

All druggists should carry it. 25c and 50c, as you like it.

REFUSE TO TAKE OATH

THREE MEMBERS OF TROOP B FILE PETITIONS FOR WRITS OF HABEAS CORPUS

BOSTON, Aug. 11.—Petitions for writs of habeas corpus were filed in the United States district court today by three members of Troop B, Massachusetts National Guard, who claim they are being unlawfully deprived of their liberty at the state mobilization camp. The petitioners are Rockwell C. Tenney, Springfield; Jay R. Angbone, Brookline and Alfred P. Lowell, Boston. A hearing will be given August 17 before Judge Dodge who yesterday ordered the release on a habeas corpus writ of Alexander M. Emerson of the same troop.

The petitioners declared they had refused to subscribe to the new federal oath and that the state, therefore, had no further claim on their services.

G.O.P. WINS BALL GAME

WASHINGTON, Aug. 11.—The annual house baseball game went republican yesterday by a score of 15 to 13. It was the first democratic defeat in four years.

The republican representatives boasted after the game that their well-balanced team was responsible for the victory, but the democrats laid it at the doors of a country Chautauqua. They said the star democratic pitcher, Representative Yates Webb of North Carolina, who for years has held the republicans at his mercy, fell over a bench while reaching out to shake hands with an admirer after a speech in Virginia Wednesday and badly sprained his left arm.

This alibi aroused derision among the republicans, who pointed out that Webb is a right-hander, but the democrats replied that it was a left arm injury that retired Matthewson from the game, though he, too, is a right-hander, and with that they rested their case.

The republicans appeared to be in better condition than their opponents. They used only nine men, though they frequently changed positions.

IRISH EMIGRATION DECREASED

DUBLIN, Ire., Aug. 11.—The Irish emigration for the first half of 1916 shows a still further decrease on the 1915 figures. In the half year there were 2075 emigrants, which is 958 less than for the corresponding period last year. The decrease is solely due to men, as emigration of women increased by over 600. One hundred and fifty emigrants had their passage paid to America. As usual, Ulster has most emigrants and Munster least.

Many women are now fighting in the Slav army.

FUNERALS

CLAYTON.—The funeral of Edmund Clayton will be held yesterday afternoon at 2 o'clock at 123 Fulton street, and was well attended by relatives and friends. Rev. A. W. Shaw of St. Anne's Episcopal church officiated at the home, and the Rev. J. J. Dwyer, pastor of the church, officiated at the service at the grave. Arthur K. Smith, Hugh T. Johnson, Alex. Williams and Horatio Leggett sang "Sun of My Soul".

Among the floral offerings were the following: Willow inscribed "Husband", from wife; heart inscribed "Father", from family; and a cross on a stand, from the family. The Rev. J. J. Dwyer, pastor of the church, officiated at the service at the grave. Arthur K. Smith, Hugh T. Johnson, Alex. Williams and Horatio Leggett sang "Sun of My Soul".

FIELD.—The funeral of Albert L. Field, many years a well known druggist in this city, took place yesterday afternoon. Services being held at the chapel in the Lowell cemetery. The body arrived in this city on the 10 o'clock train from West Dennis, Mass., where prayers were held at the summer home in the morning. Rev. Mr. Bridgeford, pastor of the Methodist church in that town, officiated.

The chapel at the Lowell cemetery was filled with relatives and friends of Mr. Field, in the afternoon. Representatives of the local druggists' association and friends and business associates, made and held during the years of his life in this city, were present.

Rev. Walter E. Woodbury, pastor of the Worthen Street Baptist church conducted the services, he reading from the Scriptures and offering prayers. The choir, consisting of Mrs. W. G. Spence sang "Softly and Tenderly" and "The Christian's Good Night". The bearers were Messrs. Fred Jones, Frank Burkinshaw, and Joseph Burkinshaw. Burial was in the family lot in the Lowell cemetery. The funeral arrangements were in charge of Young & Blake.

MULLOHLAND.—The funeral of the

CAMPAIGN COMMITTEE

Matt Hale of Massachusetts One of Seven Bull Moose Associates to Help Re-elect Pres. Wilson

NEW YORK, Aug. 11.—Vance McCormick, chairman of the democratic national committee, announced last night the personnel of the democratic campaign committee and the associate campaign committee of progressives which will direct the fight for President Wilson's re-election.

The democratic campaign committee has a membership of 20 and the associate campaign committee of progressives is composed of seven. They are, respectively, as follows:

Democratic campaign committee—Vance McCormick, chairman; Homer S. Cummings, vice chairman, Connecticut; Wilbur W. Marsh, treasurer, Iowa; Carter Glass, secretary, Virginia; Henry Morgenthau, chairman for the state committee, New York; Hugh C. S. Hoadspeth, New Jersey; Judge R. S. Hoadspeth, Washington; Fred B. Lynch, Minnesota; Thomas J. Walsh, Montana; Albert Sabin, Indiana; Simeon M. Johnson, Ohio; William P. Benson, Kansas; W. L. Saunders, New Jersey; Francis Peabody, Illinois; Frank Doremus, Michigan; James E. Smith, Missouri; Marcus A. Coolidge, Massachusetts; Gavin McNabb, California; D. C. Roper, chairman organization bureau, and Robert W. Woolley, director of publicity.

Associate campaign committee of progressives—Bainbridge Colby, New York; Matthew Hale, Massachusetts; Albert D. Norton, Massachusetts; Francis J. Henry, California; J. H. H. Hopkins, New Jersey; Ole Hanson, Washington, and Henry M. Wallace, Michigan. Mr. McCormick asserted that the associate committee of progressives would actively co-operate with the democratic campaign committee.

"We have no intention," said Mr. McCormick, "of attempting to absorb the progressive party. We recognize in it an effective group of independent

men and women, who are fighting for the same progressive principles for which we stand. "Our desire is to secure their spontaneous and hearty co-operation. We think that the record of the democratic party under President Wilson abundantly deserves that co-operation and we rely upon the party's action in the future to continually justify their support."

President Wilson will meet the members of the democratic campaign committee in Washington, Tuesday, Aug. 15, and the members of the associate campaign committee of progressives on Thursday, Aug. 17, according to Mr. McCormick.

COLBY OUT FOR WILSON

Progressive, Who Outmaneuvered Roosevelt, Says "Old Guard" Would "Rope and Tie" Hughes
NEW YORK, Aug. 11.—Bainbridge Colby, who nominated Theodore Roosevelt for the presidency at the progressive national convention in Chicago, last night declared himself in favor of the re-election of President Wilson.

In a letter to Vance McCormick, chairman of the democratic national committee, Mr. Colby accepted an invitation to act on a progressive committee, which is to have a co-operative relation with the democratic campaign committee.

Mr. Colby asserted that the opposition to the president's re-election "proceeds from an unregenerate republicanism," of which Charles E. Hughes is a "decoy and retriever." If Mr. Hughes were elected Mr. Colby added "the old guard" would "rope and tie him, as they did when he was governor in Albany, reducing him to plaintive futility."

FUNERAL NOTICES

COLE.—Died in this city, Aug. 11, at the home of his son, Fred H. Cole, 727 East Merrimack street, at the age of 79 years, 2 months and 5 days. Mr. Cole was born in Whitefield, N. H., and had been a resident of this city for the past 60 years. He is survived by his wife, Louisa E. Cole; one son, Fred H. Cole, and one brother, Mr. Elmer S. Cole, all of this city. Mr. Cole was a member of the Paige Street Free Baptist church.

GUARDIAN'S AND ADMINISTRATOR'S SALE OF REAL ESTATE

By Virtue of a license granted to me by the Probate Court for the County of Middlesex, dated July 25, 1916, I will be sold at public auction the premises at three o'clock p. m., Saturday, August 12, 1916, the following described real estate, viz:

Two tenement house and about 1272 square feet of land, located at No. 12 Rogers street. Flat on the first floor has 1 room, separate toilet, gas and rents for \$2 a week. Flat on the second floor has 6 rooms, toilet and gas. Rents for \$2 a week. The house is in very good condition and always well rented. Property is located within 50 yards of Lawrence street, minutes' walk from the Cartridge shop and other large industries. A plot of this kind should interest the man of moderate means where he can occupy one tenement and have the income of the other. Sale will take place on the premises, rain or shine, on the day and hour advertised. Deposit \$250 time of sale.

C. F. KEYES In Charge
For Guardian and Administrator.
